

1 accordance with state law, the King County assessor calculated a sum for property taxes  
2 available to the county related to new construction, improvements to property, and any  
3 increase in the assessed value of state assessed property. In calculating the amount of  
4 regular property tax monies needed, the council was cognizant of this sum and it is  
5 therefore included in the following levy totals.

The Municipality of Metropolitan Seattle (Metro) was created by public vote in 1958 to exercise the powers conferred by chapter 35.58 RCW related to water pollution abatement. RCW 35.58.200 confers specific powers to prepare and implement a comprehensive water pollution abatement plan including provisions for waterborne pollutant removal, water quality improvement, sewage disposal and storm water drainage. In the exercise of those powers, the Metro's governing body, the metropolitan council, adopted a comprehensive water pollution abatement plan for the Seattle metropolitan area by Resolution No. 23 on April 22, 1959. This plan has been supplemented and amended from time to time by various Metro resolutions and has been implemented in stages. It includes facilities for the conveyance and treatment of sewage and control of combined sewer overflows that include, but are not necessarily limited to, wastewater treatment plants, interceptor and trunk sewers, pumping stations, regulator stations, outfall sewers, storm sewers to divert storm water from sanitary sewers, lands for application of biosolids, property rights, buildings and other structures.
