CRITERIA FOR USE OF 1975 BLOCK GRANT DISCRETIONARY FUNDS,
ANY UNUSED POPULATION FUNDS AND ANY FUTURE TEMPORARY CASH
BALANCES RESULTING FROM PROGRAM RESCHEDULING.

I. GENERAL CRITERIA

1. All projects accepted for consideration must be formally submitted by their jurisdiction's governing body.
2. Requests on hand will be reviewed quarterly.

II. CRITERIA FOR USE OF ANY UNUSED POPULATION FUNDS AND ANY
FUTURE TEMPORARY CASH BALANCES RESULTING FROM PROGRAM
RESCHEDULING.

1. Current project requests have priority over new projects during this program year.
2. A reasonable contingency amount will be kept on hand. The need for this balance would lessen as program year progresses.
3. Only projects which are ready to execute will be considered.
4. Only projects which fulfill previous Joint Policy Committee recommendations or conditions will be considered.
5. Projects whose original funding requests anticipated CETA support which did not materialize should receive priority, provided that the county will not assume on-going liability for employment.
6. New proposals (except the 1975 proposal from the Muckleshoot Tribe) will be accepted only at mid-program year or later to maintain flexibility.

III. CRITERIA FOR USE OF BLOCK GRANT 10% DISCRETIONARY FUNDS

1. Projects should involve two or more jurisdictions and promote interjurisdictional cooperation, or
2. Projects should be located in areas of the county which social, economic and environmental indicators show as problem areas but which, when considered as part of a larger community, do not meet the target area criteria.

3. Projects should offer innovative solutions to problems caused by urbanization.
4. Projects should be ready to execute.
5. If no projects meet the criteria, discretionary money will be held over for the next program year. The Council may consider reprogramming at that time or may decide to establish a cumulative discretionary fund.
