MOTION NO. 2886

A MOTION accepting and approving the Manual entitled: "Requirements and Guidelines for Storm Drainage Control in King County" as the official administrative guidelines for storm drainage control in King County.

WHEREAS, the King County Council established a surface water runoff policy for the unincorporated areas of King County and required the submission of drainage plans for land development proposals, including road building and widening by municipal corporations and governmental entities by passage of Ordinance No. 2281 on January 13, 1975, and

WHEREAS, the Council also required the development of administrative guidelines to specify the requirements for drainage impacts by the passage of Ordinance No. 2812 on July 26, 1976, and

WHEREAS, the Hydraulics Division prepared "Recommended Procedures for Storm Drainage and Road Culvert Design" in May, 1969 and a revision in November, 1971, and

WHEREAS, the County Executive has submitted to the Council the attached draft technical manual relating to storm drainage control in King County, which meets the requirements of Ordinance No. 2812.

NOW THEREFORE, BE IT MOVED by the Council of King County:

The King County Council hereby accepts and approves Attachment A entitled: "Requirements and Guidelines for Storm Drainage Control in King County", as the official administrative guidelines for storm drainage control in King County.

BE IT FURTHER MOVED, the previous 1969 and 1971 editions

of the "Recommended Procedures for Storm Drainage and Road
Culvert Design" manual are hereby superceded by the "Requirements
and Guidelines for Storm Drainage Control in King County"
manual.

PASSED this 22nd day of February, 1977.

KING COUNTY COUNCIL
KING COUNTY, WASHINGTON

Mike Lowery
Chairman

ATTEST:

Lorothy M. Owens
Deputy Clerk of the Council
