Proposed No.: 93-425

MOTION NO. 9032

A MOTION requesting the Roads and Engineering Division and the Surface Water Management Division to submit a proposal to the County Council for the joint financing of selected road-related capital improvement projects recommended in the East Lake Sammamish Basin Plan.

WHEREAS, the East Lake Sammamish Basin Plan recommends 47 capital improvement projects to address problems resulting from past development, including erosion, flooding, damaged fish habitat, reduced water quality and endangered wetlands, and

WHEREAS, certain of these projects relate to road flooding but also address other issues, such as limitations on fish passages or wetlands that are divided by roads, and

WHEREAS, based on prioritization processes for capital projects that have been approved by the County Council, many of these projects that relate to road flooding would not be included in the capital plan of either the Roads and Engineering Division or the Surface Water Management Division if either division was responsible for their entire cost, but in certain cases these projects might be funded if the two divisions could share their cost, and

WHEREAS, before the County Council would approve such a change in the prioritization of these capital projects, it would wish to know the consequences for other projects within the two division's capital plans;

NOW, THEREFORE, BE IT MOVED by the Council of King County:

A. The managers of the Roads and Engineering Division and the Surface Water Management Division of King County are hereby requested to prepare a proposal for the joint financing of selected road-related capital improvement projects in the East Lake Sammamish Basin Planning Area.

B. The proposal should be transmitted to the Council by  
October 1, 1993.

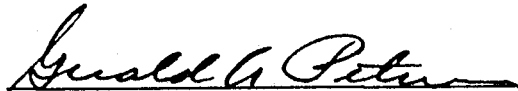

C. The proposal should include a discussion of the  
consequences of implementing those projects that are  
recommended for joint financing for other projects within the  
capital plans of the two divisions.

PASSED this 7<sup>th</sup> day of June, 1993

KING COUNTY COUNCIL  
KING COUNTY, WASHINGTON

  
VICE Chair

ATTEST:

  
Clerk of the Council
