4. Describe an issue in which you played a problem-solving role.

In 1988 BALD took over permits for fish ponds from the Dept. of Fish and Game. To obtain a permit for our newest fish pond we worked with 8 departments including; Grading, Shoreline Management, and EPA. We developed a Wetland Mitigation Plan and helped to design the guidelines for SEPA which previously did not exist. Thus, we obtained the permit we desired, #C9003556.

5. Give an example of where your mind has been changed by new information.

Initially I was in support of Initiative I-607. In further discussions I became aware of the lack of a governing board such as the Washington State Dental Association and changed my opinion until such a time when the public can be safeguarded.

6. Why are you interested in serving on the King County Agriculture Commission?

I am deeply interested in this appointment as our farming operations include both the ground and the water. Environmental concerns are essential to our continued success and to the well-being of my fellow farmers.
