Re: (Certification of) TAX LEVIES for KING COUNTY SCHOOL DISTRICTS
for (Levy-1971) and (Collection-1972)

In compliance with RCW 84.52.020 and in accordance with past practices, we herewith enclose three copies of our certification (35-TL-71) of tax levies for school districts, or portions thereof, within King County, for levy in 1971 and collection in 1972.

This certification is not timely this year because Mr. Robert B. Dunn, Chairman of King County Council did on September 22, 1971 **notify** all taxing districts that: "Due to the inability of the Washington State Department of Revenue to provide the King County Assessor with utility valuations in a timely manner, the time for filing budgets with the King County Council is extended to fifteen (15) days after the date of the Assessor's notification of assessed values to the various taxing districts of King County."

On October 18, 1971, ISD No. 110 received a certification of assessed valuations from Allen B. Morgan, Assessor of King County which contained the following statement: "The above valuation is as recorded in the King County Assessment roll and reflects changes ordered by the King County Board of Equalization thru 20 September, however, such board is still in session and will remain in session for an undetermined period of time."

To this office, it seems that future rulings of the Board of Equalization, as well as those from the various courts, may cause the "actual" tax levies to be more or less than herewith certified because the "frozen" millage rates (immediately to be established) may yield more or less dollars if the assessed valuations continue to fluctuate even into calendar 1972.
