

ORDINANCE NO. 3996

AN ORDINANCE making an appropriation in the amount of \$50,000 from unappropriated Current Expense Fund Balance to the River and Flood Control Construction Fund for the Squibb Creek Drainage Improvement project; amending and revising the King County 1978 Capital Improvement Budget and Program and amending Ordinance No. 3492, Sections 73 and 72, Attachment No. 1, as amended, and declaring an emergency.

BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

SECTION 1. There is hereby approved and adopted an appropriation in the amount of \$50,000 from unappropriated Current Expense Fund Balance to the River and Flood Control Construction Fund for the Squibb Creek Drainage Improvement project; C.I.P. project No. 045229.

SECTION 2. Ordinance No. 3492, Section 73, as amended, is hereby amended to read as follows:

FROM the Several Capital Improvement Project Funds there are hereby appropriated and authorized to be disbursed the following amounts for the specific projects identified and contained in Attachment No. 1 to this ordinance.

Current Expense - (CIP Only)	{{\$513,570}}	<u>\$563,570</u>
River & Flood Control Construction	{{\$180,000}}	<u>\$230,000</u>

PROVIDED THAT:

All provisos adopted by the Council in Ordinance No. 3492 shall be fulfilled.

SECTION 3. The project information sheet attached hereto is adopted to amend and revise the King County 1978 Capital Improvement Budget and Program; amending Ordinance No. 3492, Section 72, Attachment No. 1, as amended.

Project: 045229 SQUIBB CREEK DRAINAGE IMPROVEMENT

Description:

Council District: No. 6
CIP Planning Area: Central

This project includes the replacement and realignment of undersized and incorrectly installed drainage pipes running through an earth fill located in the Squibb Creek Channel. The existing inability of water to flow through the earth fill properly represents an immediate and serious threat to property and perhaps human life. This threat arises out of the possibility of the earth fill overtopping and a wall of water and mud suddenly hurling downstream on Highway I-90 and low lying property. In addition, water has backed up behind the earth fill to a depth of 20 feet resulting in flooding of residential properties.

Project Comparison

1978 - 1983 vs. 1979 - 1984 No Changes To Be Abandoned To Be Merged Total Cost Change Site Change
