AN ORDINANCE adopting the Coal Creek Basin Plan as an amplification of the King County Comprehensive Plan and establishing the Capital Improvement Project schedule required for Plan implementation and amending Ordinance No. 6949 and King County Code 20.44.080.

PREAMBLE:

For the purpose of effective land use planning and regulation, the King County Council makes the following legislative findings:

1. The Coal Creek Basin Plan is a functional plan under the definitions set forth in the King County Comprehensive Plan and is an appropriate augmentation and amplification of the King County Comprehensive Plan adopted by King County Ordinance No. 6949.
2. King County, in cooperation with the City of Bellevue and with the assistance of the Coal Creek Citizen Study Group, has studied and considered alternative methods, solutions, programs and other means to provide appropriate storm and surface water control, quality and management and has considered the environmental and fiscal impacts of the proposed plan. King County, with Bellevue, has prepared and distributed an Environmental Impact Statement, held public meetings and completed a final Environmental Impact statement for the Coal Creek Basin Plan.
3. The Coal Creek Basin Plan provides for the management and regulation of storm and surface water control of those waters through projects and procedures and is necessary for the public health, safety, and general welfare of King County and its citizens.
