TIM HILL**

400 King County Courthouse  
516 Third Avenue  
Seattle, Washington 98104  
(206) 296-4040

December 23, 1988

Honorable Gary Grant  
Chairman, King County Council  
Room 402  
C O U R T H O U S E

Dear Councilmember Grant:

I have signed into law enclosed ordinance 8802, which adopts the 1989 Annual Budget. However, pursuant to the powers vested in me by the King County Charter, I have deleted \$8,312,597, including approximately \$2.5 million of current expense, for parks acquisition and development projects, as delineated in Attachment 2, Fund 316, Section 92 of the ordinance. I have also deleted \$333,334 from Fund 331, which was intended as the first of three equal annual installments for the purchase of a parking lot from the King County Credit Union, as specified on line 32, Attachment 2, Section 92.

I have signed the budget so that basic government operations will not be disrupted. At the same time, I have used my line-item veto authority as a means to re-open discussions on 1989 funding priorities. I recognize that this budget, adopted by a 5-to-4 vote of the Council on December 21, addresses some of the concerns I set forth when I vetoed the budget originally adopted by the Council. However, the Council's latest budget still falls short in several important areas.

I am also concerned that our policy disagreements have been characterized as partisan politics, especially in light of the Council decision to remove funding for park projects only in the districts of Councilmembers who supported my veto of the Council's original budget proposal. I cannot allow the appearance of partisan politics to jeopardize government operations and the safety of the public.

For that reason, I have vetoed a portion of parks acquisition and development projects, which include projects in districts represented by members of both political parties. I will send an appropriations ordinance to restore parks development funding when we have reached a budget compromise. In the meantime, my actions today will allow the government to continue operating. I have also vetoed the Credit Union property acquisition to provide some of the funding necessary to address my concerns. The County has no intended use for this property.

Printed on Recycled Paper

The Honorable Gary Grant  
December 23, 1988  
Page Two

The Council in its new budget rejected my compromise proposal to add \$1,797,309 to the budget, primarily for the Department of Public Safety, the Courts, the Department of Youth Services, and the County alcoholism program. However, the latest Council proposal still does not restore funding for the police even to 1988 levels. The Council proposal would still require the Department of Youth Services to close an entire maximum security unit in the detention center. Over the course of past negotiations, I have reluctantly agreed to close half a maximum security unit, but I cannot agree to close an entire unit. To do so would mean putting 20 juveniles a day on the streets who should be under maximum security guard.

Among other funding requests in the proposal was a request for \$52,724 to pay the County's full share of dues for membership in the Puget Sound Council of Governments. The County has a legal obligation to pay those dues and they should be paid. Further, the Council budget did not fund the Office of Executive Internal Audit. An internal audit function is essential to the management of any large organization.

I call on the Council to join me in good faith negotiations to resolve these remaining issues. I am confident that working together we can fulfill our duty to the citizens of King County.

Sincerely,

Tim Hill  
King County Executive
