ordinance no. 11635

AN ORDINANCE providing for the technical correction of errors to Ordinance 11578 (the 1995 Adopted Budget), amending Sections 36, 99, 111, 112, 113, 114, 115, repealing Section 117 and replacing with a new Section 117, and adding new sections.

BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

SECTION 1. NEW SECTION 10. There is hereby added to Ordinance No. 11578 a new section to read as follows:

OMBUDSMAN/TAX ADVISOR - From the Current Expense Fund there is hereby appropriated to:

Ombudsman/Tax Advisor

\$591,357

The maximum number of FTEs for Ombudsman/Tax Advisor

shall be:

10.00

Ordinance No. 11578 a new section to read as follows:

OMBUDSMAN/TAX ADVISOR, INTERGOVERNMENTAL CUSTOMER

RELATIONS PROGRAM - From the Current Expense Fund there is hereby appropriated to:

Combudsman/Tax Advisor, Intergovernmental Customer

Relations Program \$100,000

SECTION 3. METRO EXECUTIVE DIVISION - From the Transit and Water Quality Funds there is hereby appropriated to:

Metro Executive Division

\$6,859,128

The maximum number of FTEs for Metro Executive Division shall be: 70.80

PROVIDED THAT:

Metro is prohibited from spending an amount equal to twenty percent of the projected contract employment in the various Metro operations after July 1, 1995, pending a review of the contract employment issue.

¹	SECTION 4. Ordinance 11370, Section 30 as amended, 13
2	hereby amended by adding thereto and inserting therein the
3	following:
4	1995 SPECIAL PROGRAMS - COMMUNITY PROJECTS
5	Black Diamond Community Center - Youth \$3,000
6	Sexual Assualt Education Workshops (\$3,000)
7	SECTION 5. Ordinance 11578, Section 97, as amended, is
8	hereby amended as follows:
9	((PROVIDED THAT:
10	The Airport Planner position be approved as a temporary
11	position in 1995 to be re-evaluated as a permanent position
12	in 1996.))
13	PROVIDED THAT:
14	The new Airport Program Coordinator/Planner position is
15	filled through a transfer from Metro of the RTP Project
1.6	Coordinator position (currently on loan from Metro) into a
17	Program Analyst IV position at the Airport.
18	SECTION 6. Ordinance 11578, Section 99, as amended, is
19	hereby amended by adding thereto and inserting therein the
20	following:
21	STADIUM MANAGEMENT - From the Stadium Fund there is
22	hereby appropriated to
23	Stadium Management \$45,000
24	The maximum number of additional FTEs for Stadium
25	Management shall be: 1.00
26	PROVIDED THAT:
27	\$45,000 and 0.50 FTEs is included in the Stadium
28	Management approriation for the purposes of providing support
29	for the Stadium Alternative Study.
30	PROVIDED FURTHER THAT:
31	\$83,000 is appropriated for the College Baseball
32	Classic, with \$33,000 for payment of past outstanding College
	и .

1	Baseball Classic amounts and \$50,000 for the 1995 College
2	Baseball Classic.
3	SECTION 7. Ordinance 11578, Section 111, as amended, is
4	hereby amended by adding thereto and inserting therein the
5	following:
6	METRO FINANCE DIVISION The maximum number of additional
7	FTEs for Metro Finance Division shall be: 12.3
8	SECTION 8. Ordinance 11578, Section 112, as amended, is
9	hereby amended by adding thereto and inserting therein the
10	following:
11	METRO HUMAN RESOURCES DIVISION - The number of maximum
12	number of additional FTEs for Metro Human Resources Division
13	shall be: .33
14	SECTION 9. Ordinance 11578, Section 113, as amended, is
15	hereby amended by adding thereto and inserting therein the
16	following:
17	METRO TECHNICAL SERVICES DIVISION - The maximum number
18	of additional FTEs for the Metro Technical Services Division
19	shall be: 237.04
20	SECTION 10. Ordinance 11578, Section 114, as amended, is
21	hereby amended by adding thereto and inserting therein the
22	following:
23	METRO TRANSIT DIVISION - From the Transit Fund there is
24	hereby appropriated to:
25	Transit Debt Service Fund Transfer 15,242,221
26	The maximum number of additional FTEs for Transit
27	Division shall be: 111.5
28	PROVIDED THAT:
29	The transit program shall provide without charge at
30	least four vanpool vehicles from the current inventory for
31	use by non-profit agencies exclusively for the purpose of
32	transportation of youth and low income clients. It is the
33	desire of the council to commit to assisting the non-profit

agency in finding the lowest operating and maintenance cost available. Transit staff shall report to the council by February 15, 1995, on these operating and maintenance alternatives.

PROVIDED FURTHER THAT:

The transit program shall provide without charge at least two new small vans for use by non-profit agencies exclusively for the use of senior citizens and their attendants. It is the desire of the council to commit to assisting the non-profit agency in finding the lowest operation and maintenance cost available. Transit staff shall report to the council by Februrary 15, 1995, on these operating and maintenance alternatives.

SECTION 11. Ordinance 11578, Section 115, as amended, is hereby amended by adding thereto and inserting therein the following:

METRO WATER POLLUTION CONTROL DIVISION - From the Water Quality Fund there is hereby appropriated to:

Water Quality Debt Service Fund Transfer 128,690,000

The maximum number of additional FTEs for Water

Pollution Control Division shall be: 63.80

SECTION 12. Ordinance 11578, Section 117 is hereby repealed and is replaced with the following:

CIP PROJECT APPROPRIATIONS - The executive proposed capital budget and program for 1995-2000 is incorporated herein as Attachment No. 1A to this ordinance. The executive is hereby authorized to execute any utility easements, bills of sale or related documents necessary for the provision of utility service to the capital projects described in Attachment No. 1B of this ordinance, provided that the documents are reviewed and approved by the custodial agency, the property services division and the prosecuting attorney's office.

2	are hereby appropriated and authorized to be disbursed the					
3	following amounts for the specific projects identified in					
4	Attachment No. 1B of this ordinance.					
5	Fund Capital Fund Amount					
6	309	Parks & Open Space Acquisition (FILO) \$	207,375

Pursuant to the Countywide Planning Policies adopted by the Growth Management Planning Council and the Metropolitan King County Council (Policies RF-4 and RF-5) and pursuant to the King County Comprehensive Plan (Policy T-603), the financing of roadway capacity improvements within "potential annexation areas," as established in the comprehensive plans of cities, is a shared responsibility. During 1995 King County staff will work with the affected cities to discuss alternative cost-sharing methods for such Roads CIP projects, which are required to allow for growth and economic development within "potential annexation areas." The King County roads and engineering division will continue project development work on capacity projects in "potential annexation areas" and will award construction contracts on those projects ready for advertisement in 1995, subject to available appropriations. Beginning in 1996, however, the award of construction contracts on such projects will be contingent upon having a signed pre-annexation agreement with the affected city, stipulating an appropriate cost-sharing arrangement.

PROVIDED FURTHER THAT:

No CIP acquisition funds may be used for the Snoqualmie Camp Project (Project 316121) until the council has adopted the King County Park, Recreation and Open Space Plan; provided further that the plan shall be submitted to the council no later than May 1, 1995 and shall include policies which give priority to joint parks and school/community partnerships in the parks capital improvement plan.

PROVIDED FURTHER THAT:

Prior to the procurement of new buses, the transit department shall consult with the Metro Arts Council and Employee Bus Replacement task force regarding the configuration of interiors and colors of the replacement buses. Recommendations of Metro Arts Council and Employee Bus Replacement task force shall be submitted to the council before any purchasing appropriations are expended.

PROVIDED FURTHER THAT:

The executive shall submit a detailed staffing plan for all agencies involved in the Waterways 2000 project, for council approval, along with the recommended list of Waterways 2000 acquisition projects.

PROVIDED FURTHER THAT:

By May 1, 1995, the executive shall submit to the council a detailed business plan and appropriations request for financial systems technology. The council agrees to fund the proposed financial and technology initiative with councilmanic bonds up to a maximum of \$10.3 million.

PROVIDED FURTHER THAT:

The appropriation for the Issaquah Park & Ride lot and transit facility expansion project may only be expended or encumbered for increasing Park & Ride capacity in the vicinity of the existing Issaquah Park & Ride lot to address immediate parking needs (this may be accomplished through a lease or purchase either north or south of I-90, or through expansion of the existing Park & Ride lot); and for analyzing alternative sites on both the north and south sides of I-90 to address future long term facility investment needs. A decision on increasing Park & Ride capacity in the vicinity of the existing Issaquah Park & Ride lot shall be approved by the council prior to the lease or purchase of a site or commitment to the expansion of the existing lot. The

alternative site analysis will begin in August 1995 after the Council adopts Metro's Six Year Transportation Plan (estimated to be in July 1995); and is expected to be completed in six to nine months. The alternative site analysis shall be submitted to the council upon completion.

PROVIDED FURTHER THAT:

The appropriation for the Brickyard Road Park & Ride lot expansion project may only be expended or encumbered for the purposes listed below until an alternative Park & Ride site analysis and a Park & Ride sizing analysis are submitted to the council on or before May 1, 1995.

- 1. Money may be expended or encumbered to complete the transit acceleration ramp now under construction by WSDOT from the Brickyard Road Park & Ride lot onto southbound I-405. WSDOT estimates that construction costs will be about \$730,000, of which Metro's share will be 50 percent, or about \$365,000.
- 2. The feasibility of locating a transit facility such as a transit center, hub, or Park & Ride lot in conjunction with the Master Campus Plan located near SR-522 and I-405 will be studied.
- 3. An analysis of expected future Park & Ride demand at the Brickyard Road Park & Ride lot will be conducted to assess the lot size necessary to support this estimated demand.

The contract for final design of the expansion of Brickyard Road Park & Ride will be delayed until council approval of the above analyses on or before May 1, 1995.

PROVIDED FURTHER THAT:

The appropriation for the development of office space at the Toshiro property owned by King County for the transit and water quality programs may only be expended or encumbered for a development and procurement plan which will be provided to

the council by the executive. The development plan shall describe a process to replace or reconstruct the existing Toshiro/Kaplan structure with at least 250,000 square feet of office space. The plan shall include an estimate of projected construction costs; alternative development strategies including potential public/private partnerships; and a detailed work plan which shows how the facility could be constructed and made ready for transit and water quality program occupancy by January 1, 2000. The development plan shall be submitted to the metropolitan county council on or before June 1, 1995.

The Regional Water Quality Committee, after consultation with the Metropolitan Water Pollution Abatement Advisory Committee, shall develop policies for distribution of the Water Pollution Control portion of the initiative within the defined project categories prior to allocation by the metropolitan county council to specific program projects. Any new project receiving the Water Pollution Control portion of Arts and Natural Resource Initiative funds must be in the King County portion of the Water Quality program service Any Arts an Natural Resource Initiative project funded by ratepayers must not jeopardize, supplant or displace essential wastewater collection and treatment system infrastructure. To be deemed eligible, any Arts and Natural Resource Initiative project receiving funds from the Water Pollution Control portion of the initiative must demonstrate specific benefits to the water quality collection and treatment system or sewer rate payers. All projects shall seek to improve ambient water quality and reduce the need for additional capital facilities in order to enhance water quality. All projects funded through this appropriation of Water Pollution Control funds shall have as their primary

purpose the enhancement or preservation of water quality 2 consistent with the comprehensive water pollution abatement goals of chapter 35.58 RCW. In addition, all projects shall 3 receive technical, policy and legal review to ensure that 4 they are appropriate objects of expenditure of funds received 5 for metropolitan municipal water pollution abatement 6 7 purposes. PROVIDED FURTHER THAT: 8 The King County Arts Commission shall make 9 10 recommendations to the budget and fiscal management committee 11 regarding which Arts and Sciences organizations should be funded from the Art and Natural Resources Initiative. 12 SECTION 13. NEW SECTION. There is hereby added to Ordinance 11578 a new section to read as follows: 14 BRIDGE REPLACEMENT - From the Bridge Replacement Fund 16 there is hereby appropriated to: 17 Bridge Replacement 550,000 INTRODUCED AND READ for the first time this 12 th 18 day of <u>December</u>, 19<u>94</u>. 19 PASSED by a vote of 12 to 0 on this 19^{3} day of 20 Welmber, 1994. December 30, 1994

The Honorable Kent Pullen Chair, King County Council Room 1200 COURTHOUSE

Dear Councilmember Pullen:

I have signed the attached Ordinance Number 11635 which made technical corrections to the 1995 budget ordinance with one exception.

Pursuant to King County Charter, I have vetoed Section 2 of Ordinance 11635.

Section 2 appropriates \$100,000 to add another layer of review to the contract process between the County and other local governments. I continue to believe this would create a redundant review process unrelated to the primary mission of the Ombudsman Office which is to address the complaints of private citizens. Currently, contracts between governments are negotiated by the Executive Branch and reviewed and approved by the Council and other local legislative bodies before they are signed. The Regional Committees also serve as forums for reviewing issues related to contract services.

I want to reinforce my comments I made when I vetoed this item in the original budget ordinance. This veto does not reflect on my commitment to continue to improve the County's responsiveness and accountability to its citizens. The existing framework has served the County well as the progress made in the recent discussions on police services and District Court Contracts illustrate.

I am also concerned about the second proviso in Section 5 which directs the Stadium to pay an outstanding and past due Stadium charge of \$33,000 on behalf of the College Baseball Classic and to pay for Stadium charges up to \$50,000 on behalf of the College Baseball Classic for the upcoming 1995 Baseball Classic. Providing free use of the facility to the College Baseball Classic is not fiscally responsible. The County has consistently maintained that the Stadium must recover the costs incurred when the facility is used by tenants. Now more that ever, the Kingdome must strive to maintain sound financial policies. I am concerned that providing the Kingdome rent free to any organization, no matter how worthy, will establish a precedent that will compromise these financial policies.

King Count, is an Equal Coperturally Altimative Action Employer and comples with the Americans with Disabilities Act

I prefer to implement an agreement that I made with representatives of the College Baseball Classic when we provided the dates they needed for this year's Classic. At that time we agreed to provide the dates and they agreed to pay the Kingdome's costs of making the Kingdome available for the Baseball Classic. Rather than veto this item, however, I have directed the Kingdome and Office of Financial Management staffs to work with the College Baseball Classic and Councilmembers to try to develop some arrangement that satisfies the Council's desire without compromising the Kingdome's financial policies.

Finally, this legislation does not recognize several legitimate technical corrections which I proposed. Specifically, significant and legitimate corrections to the budgets of Public Works Administration, Roads Operating, Grants, Planning and Community Development CDBG, Public Works ER&R, Motor Pool ER&R, Metro and CIP source funds appropriations were not included in this legislation. As a result, the 1995 Adopted Budget (as corrected) for most of these agencies contains significant budget shortfalls. We will attempt to manage to these budget shortfalls wherever possible; however, it will be necessary to submit an additional budget corrections ordinance in 1995.

I am available to discuss in more detail my veto action and the additional concerns I have raised in this letter.

Sincerel

King County Executive
