**Ordinance 13708**

**Proposed No. 1999-0696**

**Sponsors McKenna**

1                   AN ORDINANCE approving the City of Renton Long-  
2                   Range Wastewater Management Plan.

3  
4                   **PREAMBLE:**

5                   K.C.C. chapter 13.24 requires approval of comprehensive plans for sewer  
6                   utilities as a prerequisite for granting right-of-way franchises and approval  
7                   of right-of-way construction permits.

8                   The City of Renton Long-Range Wastewater Management Plan (plan)  
9                   discusses public sewer service to existing and future populations in the  
10                  Urban Area within and near Renton. The presently unincorporated Urban  
11                  Area discussed in the plan includes neighborhoods with failing septic  
12                  systems and three public schools all currently without an opportunity to  
13                  connect to public sewers. The plan describes the facilities needed to serve  
14                  these areas and the probable costs.

15                  The King County utilities technical review committee (UTRC) reviewed  
16                  and conditionally approved the plan on September 8, 1999. The  
17                  conditions of UTRC approval, technical changes to the plan, have been

18 met and are reflected in the final version attached to this ordinance.  
19 Renton prepared a determination of nonsignificance for the amendment on  
20 February 9, 1999, in accordance with the state Environmental Policy Act.  
21 Renton intends to adopt the plan after final county approval.  
22 The UTRC recommends that the council approve the plan.

23 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

24 SECTION 1. The City of Renton Long-Range Wastewater Management Plan,  
25 Attachment A, is hereby approved without conditions.
