PREAMBLE

10

King County will undertake the construction of additional hangars at King

11

County International Airport (KCIA) on the parcel of land known as Lot

12

14 for general aviation tenants. This project will be constructed in

13

coordination with a separate project to expand the Museum of Flight.

14

King County has also undertaken a significant body of work to reduce

15

noise at KCIA, including investigation of the feasibility and efficacy of

16

building an noise containment facility to reduce the noise of ground run-

17

ups of engines. King County has established a reserve CIP account to

18 fund the design and construction of such a facility if analysis proves it
19 effective and feasible.

20 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

21 SECTION 1. Findings: The county council finds that:

22 A. The reduction of noise is a high priority of King County;

23 B. Construction of additional hangars and tie-down spaces are important for
24 general aviation, and are best accomplished in conjunction with expansion of the
25 Museum of Flight, rather than at a later date. The construction schedule of the Museum
26 of Flight requires immediate action to avoid delay in the museum's project; and

27 C. Replenishment of the airport noise containment subfund 3384 is a high
28 priority.

29 SECTION 2. All revenue from the airport parcel known as Lot 14 shall be placed
30 into the airport noise containment subfund of fund 3384 until the initial commitment of
31 six million dollars for that subfund has been restored or a design and cost estimate for the
32 noise containment have been finalized.

33 SECTION 3. The county council finds as a fact and declares that an emergency
34 exists and that this ordinance is necessary for the immediate preservation of public peace,
35 health or safety or for the support of county government and its existing public
36 institutions.

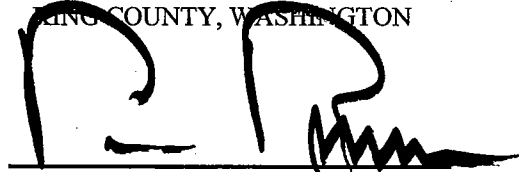

Ordinance 14208 was introduced on 9/17/01 and passed by the Metropolitan King County Council on 9/17/01, by the following vote:
