**PRELIMINARY REPORT:**

The Department of Natural Resources, Water and Land Resources Division Report on Item No. E02CT044 was received by the Examiner on March 3, 2003.

**PUBLIC HEARING:**

After reviewing the Department of Natural Resources, Water and Land Resources Division Report and examining available information on file with the application, the Examiner conducted a public hearing on the subject as follows:

The hearing on item no. E02CT044 was opened by the Examiner at 10:10 a.m., March 12, 2003, in the Fifth Floor Conference Room, Union Bank of California Building, 900 Fourth Avenue, Seattle, Washington, and closed at 10:23 a.m.

Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

FINDINGS, CONCLUSIONS & RECOMMENDATION: Having reviewed the record in this matter, the Examiner now makes and enters the following:

STR: SE-SW-21-26-07

2. Except as modified herein, the facts set forth in the King County Department of Natural Resources, Water and Land Resources Division Preliminary Report to the King County Hearing Examiner for the March 12, 2003, public hearing are found to be correct and are incorporated herein by this reference. Copies of the said Report will be attached to the copies of this Report submitted to the King County Council.

The file no. stated at page 1 of the report is corrected to E02CT044.

3. The eligibility standards for open space resources are fully described in the "Summary Report" prepared by the King County Department of Parks, Planning and Resources, dated August, 1992, and adopted by ordinance. KCC 20.36.100 and 150. Eligibility for the high priority resource category of "surface water quality buffer area" requires property use and access restrictions beyond those specified in the Sensitive Areas Ordinance (SAO) or other surface water protection regulations. Summary Report, p. 36.

The owners of the subject property requested consideration for "Small Site Drainage Review" in conjunction with Residential Permit No. B01L0564 in 2001. A condition of that review, as authorized by the King County Surface Water Design Manual (SWDM) and administered by the Department of Development and Environmental Services, was preservation of 3.03 acres of this property as a native growth protection easement (NGPE). The hearing record does not contain evidence which indicates whether or not small site drainage review was finally authorized and, if it was, the portion of the property placed in NGPE. In the absence of that information, it is not possible to determine whether the Applicant's wetland buffer exceeds 1.5 times the NGPE required by the SAO and SWDM.

#### CONCLUSIONS:

1. There is presently insufficient information to determine whether the subject property qualifies for the category of surface water quality buffer area. The facts necessary to make that determination are readily available to the Water and Land Resources Division, which should administratively determine the property's eligibility for this category.
2. There is no evidence of this property's eligibility for the public access bonus points.
3. Approval of current use valuation for 4.03 acres of the subject property, pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.
4. Timely application has been made to King County for the current use valuation of the subject property to begin in 2004. Notice of said application was given in the manner required by law.
5. The subject property contains priority open space resources and is entitled to bonus points pursuant to the King County Public Benefit Rating System, which justify a total award of 10 to 20 points. The resulting current use valuation could be as low as 30% of market value for 4.03 acres of the subject property.

#### RECOMMENDATION:

APPROVE the request for current use valuation as low as 30% of market value for 4.03 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources report for the March 12, 2003, public hearing; and the following additional conditions:

1. Applicant shall submit a Forest Stewardship Plan *no later than September 1, 2003*, which shall be approved by King County *no later than October 1, 2003*.
2. Water and Land Resources Division shall determine the property's eligibility for surface water quality buffer area points in light of finding no. 3 and conclusion no. 1, above.
3. The final award of points (between 10 and 20), and percentage of market value (from 50% to 30%), shall be determined by Water and Land Resources Division following its review and analysis of additional information pursuant to conditions no. 1 and 2.
4. The Applicant shall provide specific site measurements to enable the preparation of an accurate description of the area to be excluded from open space valuation.
5. Current use valuation shall be subject to all terms and conditions of RCW 84.34 and King County Code Chapter 20.36, as the same may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED this 25<sup>th</sup> day of March, 2003.

Action of the Council is final. The action of the Council on a recommendation of the Examiner shall be final and conclusive unless within twenty-one (21) days from the date of the action an aggrieved party or person applies for a writ of certiorari from the Superior Court in and for the County of King, State of Washington, for the purpose of review of the action taken.
