2. Except as modified herein, the facts set forth in the King County Department of Natural Resources, Water and Land Resources Division Preliminary Report to the King County Hearing Examiner for the April 2, 2003, public hearing are found to be correct and are incorporated herein by this reference. Copies of the said Report will be attached to the copies of this Report submitted to the King County Council.

#### CONCLUSIONS:

1. Approval of current use valuation for 8.38 acres of the subject property, pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.
2. Timely application has been made to King County for the current use valuation of the subject property to begin in 2004. Notice of said application was given in the manner required by law.
3. The subject property contains priority open space resources and is entitled to bonus points pursuant to the King County Public Benefit Rating System, which justify a total award of 10 points. The resulting current use value is 50% of market value for 8.38 acres of the subject property. Submission of a Forest Stewardship Plan by September 1, 2003 and County approval by October 1, 2003, will increase the total award of bonus points to 15, with a resultant current use value of 40% of market value for 11.2 acres of the subject property.

#### RECOMMENDATION:

APPROVE the request for current use valuation of up to 50% of market value for 8.38 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources report for the April 2, 2003, public hearing and the following additional conditions of approval:

1. The qualifying acreage may be increased administratively to 11.2 acres and the current use valuation decreased to 40% if a Forest Stewardship Plan is submitted to the Department of Natural Resources by September 1, 2003, and approved by October 1, 2003.
2. The Forest Stewardship Plan shall include a restoration element for the removal of invasive plants, inoperable vehicles and debris from the property. The Forest Stewardship Plan shall also contain a provision requiring an annual report to the Department of Natural Resources on restoration progress.
3. If the Forest Stewardship Plan is not approved as provided above, tax parcel no. 9100 shall be deleted from the program.

Current use valuation shall be subject to all terms and conditions of RCW 84.34 and King County Code Chapter 20.36, as the same may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.
