2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report to the King County Hearing Examiner for the April 28, 2004, public hearing are found to be correct and are incorporated herein by this reference. Copies of the said report will be attached to the copies of this report submitted to the King County Council.
3. The descriptions for Priority Resources Requested on page 1 and High Priority Resources on page 5 of the staff report both should be amended to include the "Open Space Close to Urban Growth Area" category. Five award points will be added as a result of this additional category, with an amended point total of 18 and resulting current use valuation of 30% of market value for the qualifying acreage.

CONCLUSIONS:

1. Approval of current use valuation for 11.67 acres of the subject property, pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, as amended, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.
2. Timely application has been made to King County for the current use valuation of the subject property to begin in 2005. Notice of said application was given in the manner required by law.
3. The subject property contains priority open space resources and may be entitled to bonus points pursuant to the King County Public Benefit Rating System, which justify a total award of 18 points. The resulting current use value is 30% of market value for 11.67 acres of the subject property.
4. Credit for the Active or Passive Recreation Area and Limited Access categories is contingent upon receipt of documentation from user groups demonstrating public use of the enrolled property for equestrian education purposes and providing the fee structure for such services. This information shall be submitted by September 1, 2004, to the Water and Land Resources Division, which shall assess its sufficiency and determine whether the fees imposed are no higher than those charged by comparable public facilities.
5. Credit for the Farm and Agricultural Conservation Land category is contingent upon submission by the King Conservation District of an implemented Farm Management Plan for the subject property by December 31, 2004.
6. Failure to qualify for the Farm Land category would reduce the current use valuation to 40% of market value. Failure to qualify for the other categories (with or without the Farm Land category) would reduce the current use valuation to 50%.

RECOMMENDATION:

APPROVE the request for current use valuation of 30% of market value for 11.67 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the April 28, 2004, public hearing, and the following conditions of approval:

1. Receipt of documentation supporting the Active or Passive Recreation Area and Limited Access categories as indicated in conclusion no. 4 above,
2. Submission of an implemented Farm Management Plan as stated in conclusion no. 5 above.
3. Total award points and the resulting current use valuation shall be adjusted as described in conclusion no. 6 above if the contingencies identified in conditions 1 and 2 are not met.

Current use valuation shall be subject to all terms and conditions of RCW 84.34 and King County Code Chapter 20.36, as the same may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.
