2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report to the King County

Hearing Examiner for the May 25, 2005, public hearing are found to be correct and are incorporated herein by this reference. Copies of the department report will be provided with the copies of this report submitted to the King County Council.

3. The staff report should be revised as follows:
 - A. Page 1, section A.5 – acreage recommended for PBRS should read 10.99 rather than 11.10.
 - B. Page 4, section E, bullet 4 – Special native plant site should read ‘Significant native plant site’.
 - C. Page 5, section A, Open space resources, bullet 4 – Special native plant site should read ‘Significant native plant site’.

CONCLUSIONS:

1. Approval of current use valuation for 10.99 acres of the subject property, pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, as amended, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.
2. Timely application has been made to King County for the current use valuation of the subject property to begin in 2006. Notice of said application was given in the manner required by law.
3. The subject property contains priority open space resources and is entitled to bonus points pursuant to the King County Public Benefit Rating System, which justify a total award of 20 points. The resulting current use value would be 30% of market value for 10.99 acres of the subject property.
4. Credit for the significant native plant site category may be added administratively if the Applicant submits sufficient documentation by July 31, 2005, to justify award of this category. Credit for this category will result in a point total of 25 and subsequent current use valuation for the enrolled property of 20% of market value.

RECOMMENDATION:

APPROVE the request for current use valuation of 30% of market value for 10.99 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the May 25, 2005, public hearing, and the following additional condition:

1. Credit may be awarded administratively for the significant native plant site category as stated in conclusion no. 4 above. Award of this category will increase the point total to 25 with a resultant current use valuation for the enrolled property of 20% of market value.

Current use valuation shall be subject to all terms and conditions of RCW 84.34 and King County Code Chapter 20.36, as the same may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.
