STR: SW 07-26-06

2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report to the King County Hearing Examiner for the May 25, 2005, public hearing are found to be correct and are incorporated herein by this reference. Copies of the department report will be provided with the copies of this report submitted to the King County Council.
3. The staff report should be revised as follows:
 - A. Page 5, section E, bullet four, Farm and agricultural conservation land – The fourth sentence should read, “If credit is not awarded for this category, the farm-utilized (non-natural) area of the property would not be eligible for PBRs.”
 - B. Page 6, section A.3, Open space resources, bullet three, Buffer to public land – points for this category should be three rather than zero.
 - C. Page 6, section A.3 – total points should be 25 rather than 22.
 - D. Page 6, section A.3, line 1 – add the words “the bulk of” prior to “the property.”

CONCLUSIONS:

1. Approval of current use valuation for 17.17 acres of the subject property, pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, as amended, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.
2. Timely application has been made to King County for the current use valuation of the subject property to begin in 2006. Notice of said application was given in the manner required by law.
3. The subject property contains priority open space resources and is entitled to bonus points pursuant to the King County Public Benefit Rating System, which justify a total award of 25 points. The resulting current use value would be 20% of market value for 17.17 acres of the subject property.
4. Credit for the farm and agricultural conservation land category is contingent upon *receipt* of a farm management plan by August 31, 2005, and implementation of the plan. Failure to qualify for this category would decrease the qualifying acreage, reduce the total points by five, and may reduce the current use valuation of the ultimately enrolled acreage.
5. Award points may be added administratively for the resource restoration category if the Applicants provide a resource restoration plan that is *approved* by September 30, 2005. Credit for this category will increase the point total by five points, but would not affect the current use valuation of the enrolled acreage.

RECOMMENDATION:

APPROVE the request for current use valuation of 20% of market value for 17.17 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the May 25, 2005, public hearing, and the following additional conditions of approval:

1. Credit for the farm and agricultural conservation land category is contingent upon receipt of a farm management plan by August 31, 2005, and implementation of the plan.
2. Award points may be increased administratively if a resource restoration plan is approved as indicated in conclusion no. 5 above.

Current use valuation shall be subject to all terms and conditions of RCW 84.34 and King County Code Chapter 20.36, as the same may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED this 7th day of June, 2005.
