Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

STR: SE 05-22-03

2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report for the March 8, 2006, public hearing are found correct and are incorporated herein by reference. Copies of the department report will be provided with the copies of this report submitted to the King County Council.

The following changes should be made to the staff report:

- A. The hearing date at the top of the staff report should read March 8, 2006, rather than 2005.
 - B. The zip code for the owners should be modified to eliminate the 's' at the end.
3. Timely application was made to King County for current use valuation of the subject property to begin in 2007. Notice of the application was given as required by law.
 4. The property, which is already enrolled in the open space taxation program, is found to contain additional priority open space resources and is now eligible for a total award of 18 points pursuant to the King County Public Benefit Rating System, but for a slightly smaller portion of the site. The resulting current use value therefore would be 30% of market value for 4.30 acres of the property.
 5. Credit may be awarded administratively for the Limited Public Access Because of Resource Sensitivity category subject to submission by June 1, 2006, of multiple letters documenting present and future uses by appropriate groups. If credit is awarded for this category, the total point award would increase to 23 with a resultant current use valuation of 20% for the enrolled portion of the property.

CONCLUSION:

1. Approval of current use valuation of 30% of market value for 4.30 acres of the property pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, as amended, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.
2. As the property is currently enrolled in the program, any agreement executed pursuant to this Recommendation should be worded to supersede any previous PBRS participation agreement for the property.

RECOMMENDATION:

APPROVE current use valuation of 30% of market value for 4.30 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the March 8, 2006, public hearing, and the following additional conditions:

1. Any agreement executed pursuant to this Recommendation shall contain a provision that the agreement supersedes any previous PBRS participation agreement for the subject property.
2. Credit may be awarded administratively for the Limited Public Access Because of Resource Sensitivity category as stated in Finding no. 5 above. Award for this category will increase the point total to 23 with a resultant current use valuation of 20% for the enrolled portion of the property.

Current use valuation shall be subject to all terms and conditions of RCW Chapter 84.34 and KCC Chapter 20.36, as may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED this 20th day of March, 2006.

King County Hearing Examiner

The Examiner does not have authority to extend the time period unless the Office of the Clerk is not open on the specified closing date, in which event delivery prior to the close of business on the next business day is sufficient to meet the filing requirement.
