**PRELIMINARY REPORT:**

The Department of Natural Resources & Parks, Water and Land Resources Division Report on item no. E07CT017 was received by the Examiner on December 3, 2007 and a Revised Report on March 18, 2008.

**PUBLIC HEARING:**

After reviewing the report and examining available information on file with the application, the Examiner conducted a public hearing on the application as follows:

The hearing on item no. E07CT017 was held by the Examiner on March 26, 2008, in the Hearing Examiner's Conference Room, 400 Yesler Way, Room 404, Seattle, Washington, was continued

administratively for clarification of the proposed acreage and of the staff recommendation of the forest stewardship land award, and closed on April 18, 2008.

Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

**FINDINGS, CONCLUSIONS & RECOMMENDATION:** Having reviewed the record in this matter, the Examiner now makes and enters the following:

**FINDINGS:**

1. **General Information:**

Location: 6215 SW 244th Street

PBRS categories requested/proposed: **Open space resources**  
Aquifer protection area  
Buffer to public land or right-of-way

**Bonus categories**

Easement and access

Categories recommended: **Open space resources**  
Aquifer protection area  
Buffer to public land or right-of-way  
Forest stewardship land (contingent)  
Significant wildlife or salmonid habitat  
Watershed protection area (contingent)

**Bonus category**  
Resource restoration (alternative to contingent forest stewardship land)

STR: SW 22-22-03

Zoning: RA-10

Parcel no.:	222203-9044
Total acreage:	5.00 acres
Recommended PBRs:	4.00 acres (1.12 acres contingent)

(The land area recommended for PBRs enrollment is the entire parcel less the excluded area, which is what has been calculated by DNRP. In the event the County Assessor's official parcel size is revised, the PBRs acreage shall be administratively adjusted to reflect that change.)

2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report for the March 26, 2008, public hearing are found correct and are incorporated herein by reference. Copies of the department report will be provided with the copies of this report submitted to the Metropolitan King County Council.

The following changes were made to the staff report at hearing:

- A. On page 5, Significant wildlife or salmonid habitat will read "The property contains habitat for numerous wildlife species, including foraging habitat for the pileated woodpecker, which is listed as a species of concern by the Washington Department of Fish and Wildlife. Award of this category is consistent with habitat as defined by KCC 20.36.100, section A.16a(1). Credit for this category is recommended."
  - B. On page 6, Watershed protection area will read "The owner is in the process of reforestation and will be voluntarily providing more than 15% forest cover beyond that required by applicable local regulation for the enrollment acreage, more than 2.88 acres for this property. King County code (KCC 16.82.150) requires parcels up to 5.00 acres in size, such as this property, to retain 50% forest cover. Credit for this category is recommended."
3. Timely application was made to King County for current use valuation of the subject property to begin in 2009. Notice of the application was given as required by law.
  4. The property contains priority open space resources and with contingencies is eligible for a total award of 23 points under the King County Public Benefit Rating System. The resulting current use valuation therefore would be 20% of market value for up to 4.00 acres of the property.
  5. Award under the forest stewardship land category is contingent on submittal of a forest stewardship plan by September 2, 2008, and subsequent approval and commencement of implementation by October 1, 2008. To qualify for approval and award, the forest stewardship plan must address a minimum of four acres in area and incorporate sufficient reforestation of 1.12 acres to supplement the currently existing 2.88 acres of forested land within the property.
  6. Enrollment of the additional 1.12 acres in the PBRs program is contingent on it being reforested.

7. As an alternative to the forest stewardship land category (in case the Applicant finds difficulty in reforesting the necessary additional 1.12 acres to qualify), credit may be awarded administratively under the resource restoration category<sup>1</sup> if a resource restoration plan is provided and subsequently approved by October 1, 2008. Again, the 1.12 acres that are not currently forested, or a portion thereof, may be enrolled contingent on their being slated for reforestation in the restoration plan.
8. Under either the forest stewardship plan or the resource restoration plan, replanting must be completed within a three-year period.
9. Award for the watershed protection area category is contingent on sufficient reforestation under either a forest stewardship plan or a resource restoration plan to provide at least 115% of the forest cover required by regulation, as noted above in finding no. 2.B.

#### CONCLUSION:

1. Subject to the above-noted contingencies, approval of current use valuation of 20% of market value for up to 4.00 acres of the property pursuant to the Public Benefit Rating System adopted by Chapter 20.36 KCC would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.

#### RECOMMENDATION:

APPROVE current use valuation of 20% of market value for up to 4.00 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the March 26, 2008 public hearing and the above-noted contingencies.

Current use valuation shall be subject to all terms and conditions of RCW Chapter 84.34 and KCC Chapter 20.36, as may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED June 10, 2008.

REVISED June 20, 2008.
