The hearing on item no. E07CT027 was held by the Examiner on April 9, 2008, in the Hearing Examiner's Conference Room, 400 Yesler Way, Room 404, Seattle, Washington.

Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

STR:	SE 06-24-07
Zoning:	RA-10
Parcel no.:	062407-9014
Total acreage:	14.81 acres
Recommended PBRS:	11.65 acres

(The land area recommended for PBRS enrollment is the entire parcel less the excluded area, which is what has been calculated by DNRP. In the event the County Assessor's official parcel size is revised, the PBRS acreage shall be administratively adjusted to reflect that change.)

2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report for the April 9, 2008, public hearing are found correct and are incorporated herein by reference. Copies of the department report will be provided with the copies of this report submitted to the Metropolitan King County Council.

The following change was made to the staff report at hearing:

- A. On page 6, Significant wildlife or salmonid habitat, fourth line, delete the word "still"
3. Timely application was made to King County for current use valuation of the subject property to begin in 2009. Notice of the application was given as required by law.
4. As noted in the Summary on p. 1 of this report, the property has three separately qualifying open space areas, each differently eligible for award; they are described as zones herein (see map attachment to exhibit no. 4, the department report). Zone A contains priority open space resources and is eligible for a total award of 5 points under the King County Public Benefit Rating System, contingent on submittal of a rural stewardship plan by December 1, 2008 and approved and implemented by December 31, 2008. The resulting current use valuation therefore would be 50% of market value for Zone A.
5. Zone B contains priority open space resources and is eligible for a total award of 8 points under the King County Public Benefit Rating System. The resulting current use valuation therefore would be 50% of market value for Zone B. Additional credit may be awarded administratively under the resource restoration category if a resource restoration plan is submitted by September 2, 2008 and approved with implementation commenced by September 30, 2008. Credit under the resource restoration category would increase the point total to 13 and would revise the current use valuation for the Zone B enrolled portion of the property to 40% of market value.
6. Zone C contains priority open space resources and is eligible for a total award of 15 points under the King County Public Benefit Rating System. The resulting current use valuation therefore would be 40% of market value for Zone C. Additional credit may be awarded administratively under the resource restoration category if a resource restoration plan is submitted by September 2, 2008 and approved with implementation commenced by September 30, 2008. Credit under the resource restoration category would increase the point total to 20 and would revise the current

use valuation for the Zone C enrolled portion of the property to 30% of market value.

7. Zone C's award under the watershed protection area category is contingent on sufficient reforestation under a resource restoration plan to provide at least 115% of the forest cover required by regulation, in this case by replanting a minimum of .47 acre.

CONCLUSION:

1. Subject to the above-noted contingencies and the conditions set forth below, approval of current use valuation at the percentages of market value set forth in the Summary of Recommendations on page one of this report for 11.65 acres of the property pursuant to the Public Benefit Rating System adopted by Chapter 20.36 KCC would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.

RECOMMENDATION:

APPROVE current use valuation at the percentages of market value set forth in the Summary of Recommendations on page one of this report for 11.65 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the April 9, 2008 public hearing, the above-noted contingencies, and the following conditional allowances:

- A. Additional credit for Zone B may be awarded administratively under the resource restoration category if a resource restoration plan is submitted by September 2, 2008 and approved with implementation commenced by September 30, 2008. Credit under the resource restoration category would increase the point total to 13 and would revise the current use valuation for the Zone B-enrolled portion of the property to 40% of market value.
- B. Additional credit for Zone C may be awarded administratively under the resource restoration category if a resource restoration plan is submitted by September 2, 2008 and approved with implementation commenced by September 30, 2008. Credit under the resource restoration category would increase the point total to 20 and would revise the current use valuation for the Zone C-enrolled portion of the property to 30% of market value.

Current use valuation shall be subject to all terms and conditions of RCW Chapter 84.34 and KCC Chapter 20.36, as may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED June 20, 2008.

Peter T. Donahue
King County Hearing Examiner
