The hearing on item no. E08CT094a was opened by the Examiner on March 18, 2009, in the Hearing Examiner's Conference Room, 400 Yesler Way, Room 404, Seattle, Washington, and continued administratively pending receipt of DNRP's revised recommendation regarding qualification under the watershed protection area category. The hearing record was closed on March 20, 2009.

Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

**FINDINGS, CONCLUSIONS & RECOMMENDATION:** Having reviewed the record in this matter, the Examiner now makes and enters the following:

**FINDINGS:**

1. **General Information:**

Owner:	Donald & Darcy Newman

Categories recommended:	<p><b>Open space resources</b></p> <ul style="list-style-type: none"> <li>Buffer to public land</li> <li>Farm and agricultural conservation land (conditional)</li> <li>Significant wildlife or salmonid habitat</li> <li>Watershed protection area</li> </ul>

STR:	SE 11-25-07	
Zoning:	RA-10	
Parcel nos.:	112507-9100	112507-9101
Total acreage:	2.02 acres	2.78 acres
Recommended PBRs:	1.20 acres	2.28 acres

(The land area recommended for PBRs enrollment is the entire parcel less the excluded area, which is what has been calculated by DNRP. In the event the County Assessor's official parcel size is revised, the PBRs acreage shall be administratively adjusted to reflect that change.)

2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report for the March 18, 2009, public hearing are found correct and are incorporated herein by reference. Copies of the department report will be provided with the copies of this report submitted to the Metropolitan King County Council.
3. Timely application was made to King County for PBRs current use valuation of the property to begin in 2010. Notice of the application was given as required by law.
4. Award under the watershed protection area category is given if "the enrolling forested area... consist[s] of an additional fifteen percent of forest cover beyond that required by county... regulation." [KCC 20.36.100.A.20] The property has not been shown to qualify by providing forest cover substantially in excess of currently effective regulations. Nevertheless, award should continue to be granted based on the clearing limits of KCC 16.82.150 effective prior to its recent judicial invalidation. Even though that regulatory basis of award consideration has been undercut by the invalidation, the established award structure was in part predicated on its effectiveness, and the policy principle behind the award structure remains and should be respected as intended. The principle is that forest cover is valuable for watershed protection and is eligible for PBRs award if its area is substantially over and above the base expressed as the minimum value, whether expressed by the prior regulation or by any regulations which are currently effective.
5. The property contains priority open space resources and is eligible for a total award of 13 points under the King County Public Benefit Rating System. The resulting current use valuation therefore would be 40% of market value for 3.48 acres of the property.
6. Additional credit may be awarded administratively under the farm and agricultural conservation land category subject to Applicant submittal of a King Conservation District-approved farm management plan by August 1, 2009. Award of credit under this category would increase the enrolled acreage to 4.30 acres and the total point award to 18 with a resultant current use valuation of 30% for the enrolled portion of the property.

#### CONCLUSION:

1. Approval of current use valuation of 40% of market value (30% conditionally) for 3.48 acres (4.30 acres conditionally) of the property pursuant to the Public Benefit Rating System adopted

by Chapter 20.36 KCC would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.

RECOMMENDATION:

APPROVE current use valuation of 40% of market value (30% conditionally) for 3.48 acres (4.30 acres conditionally) of the subject property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the March 18, 2009 public hearing and the following conditional allowance:

- A. Credit may be awarded administratively under the farm and agricultural conservation land category as stated in Finding no. 6 above. Award of credit under this category would increase the enrolled acreage to 4.30 acres and the total point award to 18 with a resultant current use valuation of 30% for the enrolled portion of the property.

Current use valuation shall be subject to all terms and conditions of RCW Chapter 84.34 and KCC Chapter 20.36, as may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED March 30, 2009.
