## **EXHIBIT 1**

### **Scope of Work**

#### **City Striping and Pavement Markings**

The City requests citywide replacement striping, raised pavement markings (RPMs) and thermoplastics services in 2012. The City will identify specific locations that will be striped twice in 2012. Locations for thermoplastics and raised pavement markings will also be provided by the City.

#### **Schedule**

- Since striping, RPMs and thermoplastics installations are weather dependent services, specific scheduling date(s) will be mutually determined between the City representative, Pablo Para and the County representative, George Dudley.

#### **Cost Estimate**

- Without an accurate inventory of striping, RPMs and thermoplastics in the City, the County is unable to provide a cost estimate.
- The City's budget for these services is \$125,000.
- The County will therefore do approximately \$125,000 worth of striping, RPMs and thermoplastics.
- The City agrees that the County cannot guarantee that all striping, RPMs and thermoplastics in the City can be accomplished within the City's budget.
- If the County cannot accomplish all the citywide striping, RPMs and thermoplastics within the City's budget, the City may increase the budget necessary to complete the requested work.

#### **Bridge Inspections and Related Maintenance Repair Work**

The City requests bridge inspections per the 2012 bridge schedule for eleven city bridges per the National Bridge Inspection Standards as published in the Code of Federal Regulations, 23 CFR 650 Subpart C and the State of Washington Bridge inspection Manual. In addition, the City may request bridge maintenance repair work under this Agreement as a result of the inspections. The County will provide cost estimates for any maintenance repair work requested by the City.

#### **Schedule**

- The bridge inspections will occur in the summer or fall of 2012.
- Any related bridge maintenance repair work will be scheduled as mutually agreed by the County and the City.

#### **Cost Estimate**

- The cost estimate is approximately \$10,000 for the inspections of eleven city-owned bridges in 2012.
- The cost estimate for any related bridge maintenance repair work will be provided upon the city's request to have the County perform such repair work.

### **Emergency Call Out Services**

The City requests the provision of emergency related maintenance/repair work including, but not limited to the following:

- Traffic signal related maintenance/repair work for signal pole knockdowns, signal controller failures, and others.
- Bridge maintenance/repair work such as clearing wood and log debris and others.

### **Schedule**

Emergency call out services will be scheduled and done based on availability of County crews as this service is anticipated to be needed during time of emergency such as a flooding or a storm that may similarly impact County roads and facilities.
