Ordinance 17476

Proposed No. 2012-0391.3

1 AN ORDINANCE that adopts the 2013 Annual Budget and  
2 makes appropriations for the operation of county agencies  
3 and departments and capital improvements for the fiscal  
4 year beginning January 1, 2013, and ending December 31,  
5 2013; and an ordinance that adopts the 2013/2014  
6 Biennium Budget and makes appropriations for the  
7 operations of various county agencies and departments and  
8 capital improvements for the fiscal biennium beginning  
9 January 1, 2013, and ending December 31, 2014.

10 PREAMBLE:

11 King County continues to face the fiscal challenges created by the Great  
12 Recession. In the last six years, the county has trimmed \$253 million  
13 from its general fund budget. Tough choices were made with those cuts,  
14 but the county's proactive approach toward continuing to reform county  
15 government is reflected in the 2013 Budget. It is a budget that spends  
16 neither our reserves nor our rainy day fund and it maintains the county's  
17 AAA bond rating.

18 The 2013 budget addresses our immediate needs, sets careful priorities,  
19 limits expenditures and makes strategic investments. This budget also

20 maintains the county's commitment to both its strategic plan and  
21 reforming government by continuing to challenge all county agencies to  
22 work more efficiently.

23 It is a budget that maintains basic human services for many of our most  
24 vulnerable residents in line with our strategic plan and our commitment to  
25 equity and social justice.

26 However, it is not without sacrifice. This budget has fewer services,  
27 programs and full-time employees. The reality of looming federal and  
28 state budget cuts could have a dramatic impact on the county's most basic  
29 mandated services in the future.

30 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

31 SECTION 1. Findings: The council makes the following findings of fact:

32 A. King County government is responsible for providing a variety of services to  
33 all county residents. These include: regional services, such as criminal justice, public  
34 health, transit, animal services, transfer stations and wastewater treatment; subregional  
35 services through contracts with many suburban cities for police protection, jail services  
36 and municipal court services; and local services to unincorporated areas, such as sheriff  
37 protection, conservation of agricultural lands, roads, surface water management, local  
38 parks and land use regulation.

39 B. Under the King County Charter, the metropolitan King County council sets  
40 policy and adopts budgets for the county. The King County 2013 Budget totals \$7.6  
41 billion, of which \$685 million is in the general fund.

42 C. Fiscal restraint and strategic investments enable the council to focus this  
43 budget on activities that result in continued efficiencies and services that ensure public  
44 safety and address basic needs.

45 **Efficiency and Oversight**

46 **Protecting the public resources:** This budget maintains our AAA bond rating.  
47 As part of this budget, King County has adopted countywide policies on management of  
48 county funds. These policies will work to ensure that administrative costs are kept  
49 appropriately low, departments plan for future pension liabilities, healthcare cost  
50 increases are managed, utilities work to keep rates appropriate and cost efficient and  
51 special levy programs prepare for the future.

52 **Right-sizing government:** The 2013 budget consolidates job duties and finds  
53 leaner, more efficient ways of accomplishing work both within and between departments.  
54 For example, the department of permitting and environmental review shifts its focus  
55 towards serving an increasingly rural customer base, continues to reduce staffing levels to  
56 match the needs of a smaller customer base and has relocated to smaller, shared office  
57 space that is closer to its service area.

58 **Prioritizing and creating true efficiencies in combining health and human**  
59 **services:** With increasingly limited resources available for the health and human services  
60 safety net, this budget calls on the executive to develop and transmit to the council a plan  
61 for an integrated public health and human services department. The goal of this change is  
62 to create a new integrated model that provides more effective and efficient services,  
63 addresses unnecessary duplication of services and identifies associated cost savings.

64           **Developing efficiencies in the county's justice system:** Almost three quarters of  
65 the county's general fund expenditures pays for law and justice services. The council's  
66 budget recognizes that significant long-term efficiencies in the criminal justice system  
67 can only be achieved by reviewing the entire system. This budget directs the executive to  
68 work with all partners in the law and justice system to identify long-range strategies for  
69 achieving efficiencies by applying best practice strategies and examining the risks,  
70 benefits and barriers of each strategy.

71           **Investing in technology:** This budget includes investments in information  
72 technology that will improve how services are delivered. One such investment is an  
73 electronic health records system that will improve coordination of care for the at-risk and  
74 vulnerable populations who receive clinical services from public health.

75           The 2013 budget invests in eGovernment and improves service delivery through  
76 expansion of the iRealProperty program in order to increase efficiency of property  
77 appraisers in the field, while continuing to make it easier for customers and property  
78 owners to access a higher quality of property information.

79           The 2013 budget also funds the initial phase of a high-priority customer service  
80 improvement project that will allow the public to deal with certain district court cases  
81 online.

82           In addition, this budget funds a project to increase the quality and timeliness of  
83 emergency medical services data to improve patient care. An on-line permit processing  
84 system is funded, and this budget calls for a potential linkage with the permit processing  
85 program used by other local jurisdictions through the eGov Alliance. Finally, this budget

86 requires the development of options and cost estimates of translating some online  
87 services of the King County website into multiple languages.

88       **Increasing efficiencies for water quality capital planning:** This budget  
89 includes additional important water quality monitoring activities in our rivers, lakes and  
90 streams. It also aims to optimally finance capital projects by focusing on asset  
91 management, conveyance capacity and energy use reduction. This budget analyzes  
92 project prioritization to reduce sewer overflows while benefiting from low borrowing  
93 costs.

94       **Improving financial viability of regional animal services:** This budget  
95 continues the efforts of the council to maintain the financial viability of the regional  
96 animal services model and directs strategic planning to cover costs in a sustainable  
97 manner as well as reducing costs. In addition, this budget identifies workload  
98 efficiencies in animal services that will result in savings to the county and twenty-five  
99 partner cities. In keeping with council direction, the regional animal services program  
100 has brought the euthanasia rate down to fourteen percent, a thirty-four percent reduction  
101 over the past ten years.

102       **Increasing countywide accountability:** This budget continues the council's  
103 implementation of performance-based planning and budgeting in preparation for the first  
104 countywide biennial budget development process. This budget requires the executive to  
105 clearly define the accountability measures that help achieve the efficient and effective  
106 functioning of county programs. This budget also advances the principle of fair and just  
107 government for all people.

108           **Safety and Basic Needs**

109           **Protecting the vulnerable:** This budget provides \$1.3 million of one-time funds  
110 to countywide regional service organizations to help shore up the health and human  
111 services safety net. These funds support domestic violence shelters, legal aid, services  
112 for sexual assault survivors, postincarceration education, housing services and a  
113 coordinated and comprehensive approach to address the growing problem of human  
114 trafficking.

115           This budget calls for the sheriff's office and public health - Seattle and King  
116 County to lead a countywide effort involving health and human services partners, law  
117 enforcement and jurisdictions at all levels of government to address human trafficking.  
118 The collaborative approach will identify and support victims, develop successful  
119 trafficking suppression strategies, identify strategic investment opportunities and provide  
120 additional shelter beds. These efforts will help get youth off the streets and keep them  
121 safe.

122           **Prioritizing safety:** This budget reflects the reorganization and consolidation of  
123 sheriff's office to focus on patrol and direct services within the community, especially for  
124 the county's unincorporated area residents. In addition, the council has created a new  
125 succession planning process to ensure the sheriff's office has sufficient resources to  
126 replace the commissioned officers due to a growing number of retirements and  
127 separations. This budget also makes strategic investments to reduce recidivism by  
128 continuing to support two gang intervention programs and improving transitional services  
129 for those leaving jail.

130           **Preserving justice services:** This budget preserves superior and district court  
131 programs and staffing levels after several years of deep budget cuts. This budget  
132 recognizes the addition of the city of Auburn's new contract with district court to provide  
133 municipal court services. In addition, stabilizing the staffing level of the prosecuting  
134 attorney's office increases its ability to file criminal cases in a timely and judicious  
135 manner. This protects the rights and safety of King County residents. This budget  
136 continues to support the prosecuting attorney's initiatives aimed at reducing felony  
137 caseload and diverting low-level adult and juvenile cases from the criminal justice  
138 system. Finally, this budget recognizes the value of a strong public defender system by  
139 funding felony caseload costs.

140           **Addressing changing jail populations:** The county's adult secure detention  
141 population continues to decline, in part as a result of the county's prevention programs  
142 and alternatives to secure detention. The council is continuing its oversight of jail  
143 populations by requiring more efficient use of jail staff and facilities. This budget also  
144 requires that the executive explore opportunities to add new contracts with the state to  
145 relieve pressure on the state prison system while improving public safety and increasing  
146 county revenues. Finally, this budget requires that jail health services, in cooperation  
147 with the jail, provide oversight reports to the council to monitor various health and safety  
148 costs.

149           **Continuing Challenges for Mobility and Transit**

150           **Transportation challenges require comprehensive solutions:** This budget  
151 highlights significant unmet preservation and maintenance needs for rural and  
152 unincorporated area roads and the need to maintain transit service. It also highlights the

153 urgent need for a comprehensive state transportation package, as the revenue tools  
154 available to King County at this time are not sufficient to address the scale of the  
155 transportation problems. The department of transportation's road services division and  
156 transit division have identified efficiencies, developed strategic plans to set priorities and  
157 worked to improve productivity and efficiency. Despite these efforts, structural funding  
158 gaps, partially due to annexations, mean that the level of services provided falls further  
159 behind what the community and facilities need.

160         The county has conducted a multiyear condition and needs analysis for rural and  
161 unincorporated area roads, which resulted in the adopted Strategic Plan for Road  
162 Services. This analysis is guiding the priorities for the county's limited roads funding, as  
163 well as informing continued work with the legislature on developing funding options.  
164 This budget, however, responds to what can be accomplished with dramatically fewer  
165 available revenues by meeting only highest priority needs. This translates to continued  
166 employee layoffs, with more than seventy positions reduced in this budget and a road  
167 services division with two hundred fewer positions than in 2008, more closed and load-  
168 restricted bridges, some roadways being converted to gravel and fewer employees  
169 available for snow and winter storm responses.

170         For King County Metro Transit, this budget marks the end of the temporary  
171 congestion reduction charge and the beginning of transit service reductions. This budget  
172 is based in strategic plan-based service decisions and the completion of the initial six  
173 RapidRide lines in 2013, as committed to the voters in 2006. This budget also requires a  
174 comprehensive review of the Metro transit fare structure including options for a low-  
175 income fare program as the next step in improving transit system fairness.

176 This budget invests in important social safety net services, protects public  
177 safety, calls for the consolidation of county government, and makes strategic  
178 investments for the county's future.

179 SECTION 2. Effect of proviso or expenditure restriction veto. It is hereby  
180 declared to be the legislative intent of the council that a veto of any proviso or  
181 expenditure restriction that conditions the expenditure of a stated dollar amount or the use  
182 of FTE authority upon the performance of a specific action by an agency shall thereby  
183 reduce the appropriation authority to that agency by the stated dollar or FTE amount.

184 SECTION 3. The 2013 Annual Budget is hereby adopted and, subject to the  
185 provisions set forth in this ordinance and the several amounts specified in this ordinance  
186 or so much thereof as shall be sufficient to accomplish the purposes designated,  
187 appropriations are hereby authorized to be distributed for salaries, wages and other  
188 expenses of the various agencies and departments of King County, for capital  
189 improvements and for other specified purposes for the fiscal year beginning January 1,  
190 2013, and ending December 31, 2013, out of the following funds of the county named  
191 and set forth in the following sections.

192 SECTION 4. The appropriations for the general fund, inmate welfare fund,  
193 emergency medical services fund, local hazardous waste fund, youth sports facilities  
194 grant fund, parks operating levy fund, open space trails and zoo levy fund, public health  
195 fund, grants fund, Byrne justice assistance FFY 12 grant fund, financial services fund,  
196 business resource fund, general capital improvement funds and major maintenance  
197 reserve capital improvement fund, as identified in sections 8 through 64 of this ordinance,  
198 lapse on December 31, 2013, as they encompass a twelve-month budget.

199            SECTION 5. The 2013/2014 Biennial Budget is hereby proposed and, subject to  
200 the provisions set forth in this ordinance and the several amounts specified in this  
201 ordinance or so much thereof as shall be sufficient to accomplish the purposes  
202 designated, appropriations are hereby authorized out of various funds to be distributed for  
203 salaries, wages and other expenses, for capital improvements and for other specified  
204 purposes for the fiscal biennium beginning January 1, 2013, and ending December 31,  
205 2014.

206            SECTION 6. Within the fund appropriations are sums to cover merit pay and  
207 labor settlements. The county executive is authorized to distribute the required portions  
208 of these funds among the affected positions in each operating fund effective January 1,  
209 2013. In the event cost-of-living adjustments are greater than funding provided, all  
210 budgets shall be augmented as required from funds available to the county not otherwise  
211 appropriated, but only if an ordinance is forwarded to the council appropriating those  
212 funds by appropriation unit.

213            SECTION 7. Notwithstanding sections 3 and 4 of this ordinance, sections 63, 64,

386 developed through the work plan of this proviso, to inform the 2015-2016 Biennial  
387 Budget Ordinance.

388 The work plan shall provide for collaboration of the executive and council  
389 throughout the update process, engagement of separately elected King County

953 secure detention staffing model for the county's existing set of facilities for secure  
954 detention based on the consultant's review of the county's secure detention facilities and  
955 national best practices and that is able to be flexibly applied between and within facilities  
956 as detention population changes; 3) plans, benchmarks and recommended policy changes  
957 that address the evolving composition of the secure detention population and noting  
958 specifically where decreasing population will generate general fund savings and  
959 populations increases are managed within budgeted resources; and 4) any other options  
960 for reducing jail operating costs by implementing best practices.
