Ordinance 19825

Proposed No. 2024-0277.2

Sponsors Perry and Balducci

1 AN ORDINANCE relating to the concept of Complete
 2 Streets, which promotes roadways that are safe and
 3 convenient for all users, including pedestrians, bicyclists,
 4 transit riders, and motor vehicle drivers of all ages and
 5 abilities.

6 **PREAMBLE:**

7 Complete Streets are roads that prioritize safety, comfort, and connectivity
 8 to destinations for all people who use the street network, particularly those
 9 from underserved communities facing historic disinvestment. Those roads
 10 serve: people walking, biking, using transit, and driving; children and
 11 older individuals; people with disabilities; and freight vehicles. Complete
 12 Streets balance the health and safety needs of all road users, reflect the
 13 function of the road, and respond to the different needs and service levels
 14 for urban and rural areas.

15 Designing roads with pedestrians in mind significantly reduces pedestrian
 16 risk. About one quarter of the population of Washington state does not
 17 drive, including people who cannot afford cars, and an increasing number
 18 of older adults. Whether they walk or bicycle directly to their destinations
 19 or to public transportation, those individuals require safe access to get to

Ordinance 19825

20 work, school, shops, and medical visits, and to take part in social, civic,
21 and volunteer activities.

22 The development of a network of Complete Streets can improve
23 pedestrian safety, increase the capacity of the transportation network,
24 promote improvements in public health, and reduce carbon pollution from
25 transportation.

26 The Federal Highway Administration ("FHWA") encourages local
27 transportation agencies to adopt and implement policies to equitably
28 evaluate, plan, and construct Complete Streets. FHWA support for
29 Complete Streets includes a goal of increasing the proportion of federal
30 aid funded transportation projects that are routinely planned, designed,
31 built, and operated as Complete Streets.

32 King County has established policies in its Comprehensive Plan that
33 support the development of Complete Streets, including a commitment to
34 consider the needs and abilities of people walking and biking in the
35 planning, design, construction, maintenance, preservation, and operation
36 of road infrastructure and other transportation facilities; prioritization of
37 safety and mobility when improving the transportation system for people
38 walking and biking; and direction to actively seek grant funding to
39 improve infrastructure that serves the needs of people of color, low-
40 income communities, and others who might have limited transportation
41 options.

42 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

Ordinance 19825

43 SECTION 1.

44 A. King County endorses the concept of Complete Streets, which promotes
45 roadways that are safe and convenient for all users. King County strives to provide and
46 require the implementation of Complete Streets for all users on newly constructed or
47 reconstructed county roads. The county road engineer may, in the county road engineer's
48 sole discretion, determine that there are exceptions to the provision of Complete Streets.
49 Among the conditions that may preclude the construction of Complete Streets are the
50 following:

- 51 1. Their establishment would be contrary to public safety;
- 52 2. Their construction is not practically feasible because of significant adverse
53 environmental impacts to streams, wetlands, steep slopes, or other critical areas;
- 54 3. Their construction is not practically feasible because of significant adverse
55 impacts on neighboring land uses, including impacts from right-of-way acquisition;
- 56 4. Where their establishment would violate Comprehensive Plan policies;
- 57 5. There is no identified need for the improvement; or
- 58 6. When their cost would be excessively disproportionate to the need or
59 probable use.

60 B. If the county road engineer determines that a condition precludes the
61 construction of Complete Streets on a roadway project, the county road engineer should
62 consider whether users can be accommodated by nearby facilities. Aside from new and
63 reconstructed roadways, the county road engineer shall consider other measures that can

- 64 benefit users, such as standalone sidewalk projects, shoulder improvement projects, or
- 65 other projects.

Ordinance 19825 was introduced on 9/3/2024 and passed by the Metropolitan King County Council on 9/24/2024, by the following vote:

To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system.
