Lower Green River Corridor
Draft Flood Hazard Management Plan

September 8, 2026 Briefing

Purpose of Presentation

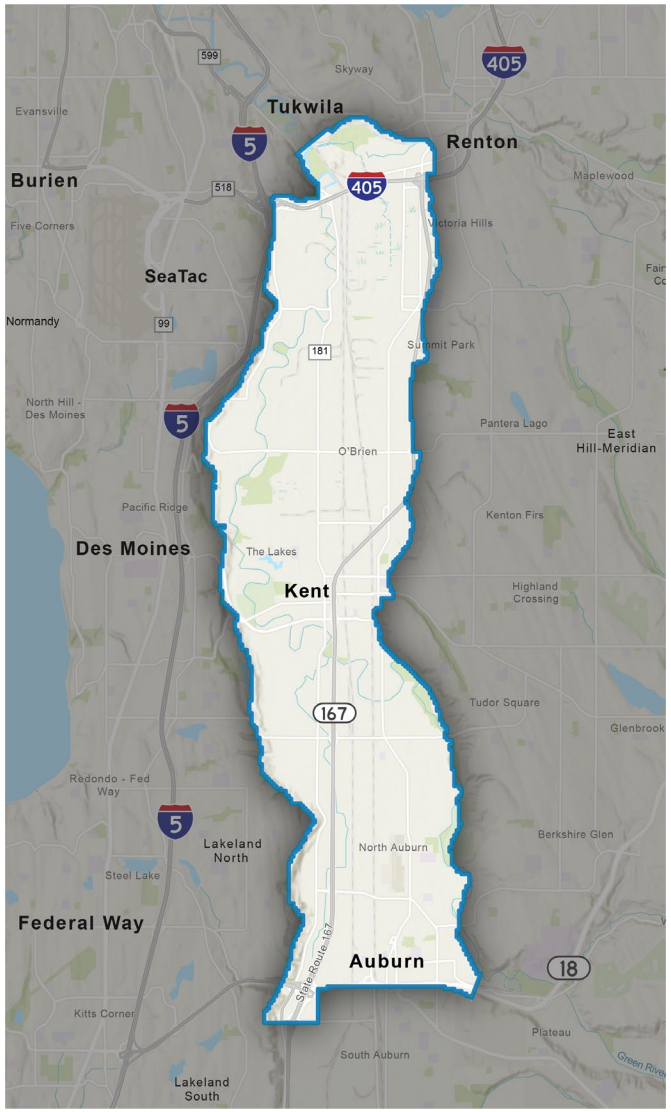

- Brief the Board of Supervisors on the Draft Plan's background, vision, content, and the engagement that shaped it
- Seek Board input and policy guidance
- Come back with revisions, as needed
- **No action is requested today**
- At a future meeting, the Board of Supervisors will decide whether to:
  - Adopt the Draft Plan "as is"
  - Adopt the Draft Plan with Board-directed revisions
  - Take no action on the Draft Plan

Lower Green River Corridor

The Lower Green River Corridor includes:

- River miles 11 to 32 and the associated floodplain
- Portions of the cities of Auburn, Kent, Renton, SeaTac, and Tukwila, and unincorporated King County

The corridor lies within traditional Tribal territory, supports tens of thousands of residents and jobs, and is essential to the region's economic vitality.

The Lower Green River Corridor is Home to:

- Area Tribes
- 22,000 people living in the Valley and floodplain
- Over 100,000 jobs
- 2nd largest industrial park on the West Coast and 3rd largest warehouse and distribution center in the country
- Farming
- Over $37 million in income from businesses of all sizes, including companies like Boeing, Starbucks, REI, IKEA, and Blue Origin
- Major transportation routes and public facilities, including hospitals and schools
- Threatened salmon and other aquatic animals
- Parks, trails, and natural areas

Goals of the Draft Plan

The goals of the Draft Plan are to provide an integrated and reasonable long-term approach to reduce flood risk while balancing multiple objectives within the corridor. This integrated approach is intended to provide flood risk reduction for people, property, and jobs, while supporting agricultural land use, economic development, equity and social justice, habitat restoration, housing, recreation, salmon recovery, water quality, and other benefits.

Process to Date

What was PEIS Alternative 3?

PEIS Alternative 3 was driven by the District's primary mandate of flood risk reduction while placing a new, greater emphasis on conserving and restoring habitat and supporting multiple benefits in the Lower Green River Corridor.

Robust Engagement Helped Shape the Development of the Draft Plan

- Collaboration with award-winning Community Navigators
- Direct outreach to Tribes
- Partner Planning Committee input, modeled after King County's engagement for the 2024 King County Flood Management Plan
- Website information and email notifications
- Coverage in the District blog

Draft Plan Highlights

- Policy framework to guide future investments in the corridor
- Focuses on existing infrastructure such as levees, floodwalls, revetments, and pump stations, while working to preserve open space, habitat, and other community benefits

What's Included in the Draft Plan?

Reducing Flood Risk in the Lower Green River Corridor

- Corridor-specific recommendations for flood-risk reduction
- Supporting multibenefits
- Opportunities for collaboration

Prioritizing Investments

Best Available Science and Adaptive Management

Corridor-Specific Actions

When the District modifies an existing PL 84-99 facility, it may consider:

- Increasing the level of protection to 18,800 cfs plus three feet of freeboard
- Relocating the facility farther from the river

Exceptions may include:

- Actions addressing urgent flood risks
- Smaller repair projects

Corridor-Specific Actions (continued)

Along the approximately 1.5 miles of shoreline with a levee not enrolled in the PL 84-99 Program, the District may first consider other ways to make the area more resilient to flooding.

If those options are not practicable and the levee is modified, the District may address capacity and evaluate setback opportunities.

Corridor-Specific Actions (continued)

Where no levee or floodwall exists today, the recommendation is to consider other resilience options before constructing new facilities.

If new facilities are necessary, they may be designed to the adopted level of protection and sited as far from the river as practicable.

Draft Plan Availability

- The Draft Plan is currently available on the District's website
- Tribal leadership was notified by letter from the District Executive Director
- Email notifications were sent to over 1,200 recipients, including people who live and work in the Lower Green; elected officials; Tribal, agency, and local jurisdiction staff
- District blog announced the availability
- Navigators are in the community providing information about the Draft Plan

Next Steps for the Board of Supervisors

Next steps could include:

- Additional briefings or Plan revisions, if necessary
- Adoption of the Draft Plan “as is”
- Adoption the Draft Plan with Board directed revisions
- Deferring action

  - Introducing the potential use of flood proofing to reduce the effects of flooding
