Introduced by: Audrey Gruger

Proposed No.: 86-693

MOTION NO. 6692

A MOTION requesting the executive to prepare and submit for council consideration appropriate amendments to K.C.C. 21.44 Unclassified Uses and K.C.C. 21.36 M-H Heavy Manufacturing Classification which would govern the siting of energy/resource recovery facilities.

WHEREAS, there is substantial interest in the public and private sectors to develop and construct energy/resource recovery facilities in King County, and

WHEREAS, the issues of siting energy/resource recovery or other alternative solid waste disposal facilities may prove to be difficult and controversial, and

WHEREAS, applications for siting energy/resource recovery facilities in unincorporated King County would be governed by the requirements for unclassified uses of K.C.C. 21.44 and heavy manufacturing classification in K.C.C. 21.36, which have no provisions developed specifically to judge such facilities, and

WHEREAS, establishing land use, environmental, and facilities criteria for siting such facilities in advance of any specific proposal will better ensure a fair and impartial review of the criteria to be used, and

WHEREAS, having the criteria in place before any specific applications are submitted may help to avoid any unnecessary expense and delay;

NOW THEREFORE, BE IT MOVED by the Council of King County:

The executive shall have prepared and submit to the council by March 15, 1987, specific proposed amendments in the unclassified use provisions of K.C.C. 21.44 and, if appropriate, the heavy manufacturing classification provisions of K.C.C. 21,36, establishing appropriate criteria, factors, and/or

standards to govern the land use permitting decision for the siting of energy/resource recovery facilities or other nonlandfill alternative solid waste disposal facilities.

PASSED this 22nd day of December, 1986.

KING COUNTY COUNCIL
KING COUNTY, WASHINGTON

Audrey S. Meyer
Chair

ATTEST:

Gerald W. Patten
Deputy Clerk of the Council
