EXHIBIT A – SCOPE OF WORK

Amendment No. 10

Exhibit A

SCOPE OF WORK

Brightwater Project Oversight Services

(Contract No. P43024)

Consistent with its 2007 *Priorities for People* budget goals, the King County Council established an independent capital project oversight function in the King County Auditor's Office (KCAO) for the Brightwater Project and three other large capital projects. Three primary objectives were identified in the authorizing budget legislation to strengthen the Brightwater Project's performance and accountability to provide:

- Independent, legislative oversight to control project overruns and unforeseen increases in project scopes, schedules, or budgets.
- Regular reports to the County Council and public to ensure sufficient and timely information is available on project performance and status.
- Assurance that the County Council is immediately notified of significant changes to the project, or of any related emergent issues, that have the potential to impact the project scope, schedule, or budget.

King County ("County") has a contract with SAIC Energy, Environment & Infrastructure, LLC ("Consultant"), numbered P43024P ("Agreement"), originally executed on March 10, 2005 with R.W. Beck, Inc., who was acquired by SAIC in 2009, and consolidated into SAIC Energy, Environment & Infrastructure, LLC in March 2011, to perform certain professional services, including providing independent oversight and monitoring of the design, and at the County's option, the construction of the treatment plant, conveyance facilities, and marine outfall elements of the Brightwater Project ("Project"). The Project is nearing completion. As of January 2011, the treatment plant was 96 percent complete and the conveyance system was 91 percent complete. This Exhibit A contains the Scope of Work for the Agreement, as amended by Amendment No. 10, recognizing Consultant's unique qualifications and experience to continue serving as the oversight monitoring consultant through May 31, 2013.

Task 100 Contract Administration and Management

During the construction phase through May 2013 (or longer if further amended), the Consultant shall organize, manage, and coordinate the services required to accomplish work defined in this Scope of Work. The Consultant shall manage activities such that drafts of all deliverables are available with adequate lead time for internal KCAO review, and Wastewater Treatment Division (WTD) review, and review by legal counsel or others, as necessary. Management activities shall include the following:

1. Preparation of monthly consultant activity reports, including descriptions of work accomplished by Consultant and subconsultants, work in progress, planned work, schedule updates on all active task items, and funds expended to date.

2. Project team management, coordination with and quality control of subconsultant work.
3. Meet with the Project Representative or hold phone conferences on average once per month, assuming two consultants for up to two hours per meeting for the duration of the period of performance of this Agreement.
4. Consultant will confer with the Project Representative as necessary and in advance to clarify understanding, define limitations, or resolve questions, if any, regarding the approach, focus, and content of Consultant's work and required deliverables

Deliverables

Monthly oversight work activity reports - up to 24

Task 200 BW Project Overview Report (POR)

This task has been completed and has been closed.

Task 300 Design Phase Submittal Status Review

This task has been completed and has been closed.

Task 400 Additional Work Activities

At the request of the Project Representative, the Consultant will conduct additional work related to construction project monitoring. Work under this task is to address unplanned and critical work activities that arise during the course of construction project monitoring, or potential work activities that may be currently contemplated but for which the ultimate need or scope is not known at this time. The work described under this task is not guaranteed. Any work under this task requires specific prior written authorization from the Project Representative. Written authorization may be granted only after the Consultant submits both a written scope and costs for the additional work, which is reviewed and specifically negotiated by the Project Representative. Such work may include preparation of special reports or detailed study to meet the needs of the County, beyond what is contained in Tasks 600 and 700 on issues such as:

- Preparation of unique cost or other project comparisons for forecasting purposes;
- Additional presentations or meetings;
- Evaluation of deviations from the planned project "time to complete", and "cost to complete;"
- Monitoring and evaluation of various risks to project schedule, budget, quality, and scope during the construction phase, which may include the County's risk assessments including any risk mitigation planning conducted by the County;
- Advance planning for post-project review; and
- Other oversight activities needed to respond to project developments.

This task may also include preparation of responses to address questions or additional issues raised by the Government Accountability and Oversight Committee (GAOC), or Regional Water Quality Committee (RWQC) or other council committees regarding the quarterly reports or presentations that require in excess of eight (8) hours of labor.

Deliverables

Task 500 Quarterly Design Status Reports and Presentations

This task has been completed and has been closed.

Task 600 Construction Phase Status Monitoring

1. The Consultant will prepare an agenda and draft a monthly report and assist or lead, as requested, a monthly meeting with executive and legislative branch staff. The purpose of this meeting is to provide ongoing reporting of project status. The Project Representative together with WTD staff will organize these meetings and arrange to have all appropriate staff present.

The Consultant will also conduct periodic phone calls with the Project Representative as needed to provide the Project Representative with notice of emerging issues or additional clarifying information necessary to prepare for the meetings.

2. The Consultant shall review the following project reports and documents:
 - Monthly Brightwater Program Report
 - Monthly CM Report for Conveyance
 - Monthly CM Report for Treatment Plant
 - Monthly Schedule Reports
 - BT-3C project monthly status report (required by County Council Motion 13188)
 - Annual Trend Report
 - And other relevant reports as they become available.
3. The Consultant shall conduct a monthly conference call with executive branch staff assigned to Brightwater oversight liaison duties and key Treatment Plant and Conveyance staff.
4. The Consultant will use its previously developed monthly report form, modified as needed and mutually agreed to by the Consultant and Project Representative, to monitor issues and status and to support the monthly meetings identified in item 1 above.
5. The Consultant shall monitor the status of project costs and project risk registers. This monitoring will specifically include:
 - Monitoring estimated vs. actual costs for specific construction contracts based on contractor payment requests and change orders;
 - Monitoring non-construction costs; and
 - Monitoring of testing and startup.

This scope of work anticipates that WTD will continue to identify any significant risk (i.e., events potentially affecting public or worker safety or major equipment problems) and notify the Consultant's Project Manager in a timely manner and will continue to provide project risk register updates on a regular basis for review by the Consultant.

In addition, the Consultant will review updated trend report estimates of costs prepared by the County annually to determine which cost elements have changed, the reasons for the change, and the basis for the magnitude of the changes. The Consultant will provide its analysis in a report to the county.

6. The Consultant shall monitor the status of the project construction schedule for each construction contract and monitor the schedule for the overall project. This monitoring will specifically include:
 - Quarterly review of schedule updates for each active construction contract for significant schedule changes (with reasons for changes);
 - Monthly review of master overview schedule (high-level) with special attention to critical integration points between the various construction contracts; and
 - Conference calls between the Consultant or subconsultant and appropriate WTD staff shall be conducted as necessary to clarify understanding of the schedule.

7. The Consultant will conduct site visits at approximately three-month intervals. Site visits by the subconsultants will occur if needed, estimated to be no more than two visits per year in 2011 and one in 2012 and only if mutually agreed by County and Consultant as necessary. As much as practical, these site visits will be timed to coincide with critical construction activities and other meetings and briefings with County staff and Council. When scheduling a site visit, the Consultant shall request, in advance, the Brightwater staff desired to meet with on site. The County will make reasonable efforts to accommodate the request or provide staff substitutions to address the specific project information needed. The Consultant shall make site visit arrangements directly with WTD and shall notify the Project Representative if Brightwater staff availability does not meet the Consultant's needs.

2. The Consultant shall prepare a draft, final draft, and final quarterly report focused on the current status of the Project. The draft will be provided to Project Representative and WTD for review. EXHIBIT B - Fees and Multi-Year Escalation of Labor Costs
INPUT WORKSHEET
Project's Title: Blightwater Project Oversight Monitoring Consultant Services
Contract #: P43024P
Amendment #: 10

Note: The escalation of labor costs depends on (a) the Basis Year for the firm's hourly labor rate (entered on the LOE Detail Input sheet) and (b) the year(s) in which work will occur on this project, entered on this sheet as a % of total hours.
 The year when the project work will start is entered in cell C6 on the spreadsheet. As an example, if a firm's Basis Year for the hourly labor rates is 2004, and - for a particular task - 50% of the hours will be worked in 2004 and 50% will be worked in 2005, then the 2004 wages will not be escalated and the 2005 wages will be escalated for 1 year by the % entered on the LOE Detail Input sheet.

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
- I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 4.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

- (f) SEE&I and R.W. Beck agree that King County is not obligated to pay or reimburse either of them for, or otherwise give effect to, any costs, taxes, or other expenses, or any related increases, directly or indirectly arising out of or resulting from the above-described consolidation other than those that King County, in the absence of this Agreement, would have been obligated to pay or reimburse under the terms of the Contract.
- (g) Except as expressly provided in this Agreement, nothing in it shall be construed as a waiver of any rights of King County against R.W. Beck and/or its insurance coverage.
