Classification Summary

The Auditor series is a five-level career path. Staff in this series conduct objective, independent audits, and other activities in accordance with Generally Accepted Government Auditing Standards.

Distinguishing Features of the Position

Auditor 4 plans, conducts, and communicates audits and other analytical work under the guidance of an Audit Supervisor, Audit Director, and/or the County Auditor or their designee(s). Auditor 4 works on one or more projects concurrently that may require managing large amounts of information, quantitative and qualitative analyses, synthesizing multi-faceted findings, presenting in public meetings, and interfacing with county leaders and staff. Auditor 4s are expected to participate in officewide work efforts, consistently build and independently manage external relationships, may brief councilmembers with less senior team members, may lead interviews in which conflict or complexity is expected, and may be assigned to coach other staff and/or take the lead on some project elements. Auditor 4 must be able to balance, and deliver on, competing priorities and high workload. The work performed in this classification generally requires a minimal amount of supervisory support, coaching, and editing of written products. This is a salaried, at-will, overtime-exempt position that reports to the County Auditor.

Career Progression

Auditor 4 is the fourth level within a five-level Auditor professional classification series. Advancement to the Auditor 5 or the Supervising Auditor classifications requires that Auditor 4 incumbents have demonstrated expert understanding of audit principles including audit standards, office policy/process, objectivity, professional skepticism, professional ethics, professional judgment, workload management, and teamwork/culture. To advance, the incumbent must have demonstrated the ability to balance and deliver on competing priorities and high workload and have demonstrated strong competencies in audit-style writing, presenting, council communication, and building positive relationships with internal and external parties.

To advance to Auditor 5, the incumbent must have demonstrated expert skills in eight or more of the following skillsets: project management, survey methods, planning/methodology development, interviewing, documentation, fieldwork, data analysis, equity analysis, finding development, message development, and achieving impact with very little need for supervision.

To advance to Supervising Auditor there must be both a vacant Supervising Auditor position and

an operational need to fill the role. The Auditor 4 must have developed expert competencies in audit-style writing, presenting, council communication, building positive relationships with internal and external parties, and to have successfully mentored and coached staff and show the capacity to supervise, direct, and ensure that all work aligns with audit standards.

Essential Duties and Responsibilities
