Federal Funds Obligated \$ 1,772

Addendum(s), if applicable A

SECTION 11  
DESCRIPTION OF ACTIVITY

---

*Present Status -- Objective -- Proposed Activity -- Evaluation*

---

I. PRESENT STATUS

The Aukeen District Court does not have any video equipment to display tapes made by local law enforcement agencies of tests in DWI arrests, i.e., finger to nose, straight line, breathalyzer.

Presently local law enforcement agencies must hand carry the video equipment from their facilities to the court for display at trials.

II. OBJECTIVES

- A. By being able to visually evaluate the performance of DWI offenders, it is expected that the court will be able to increase the efficiency and quality of justice and thereby reduce the number of drinking drivers on the streets and highways.
- B. By housing video equipment in the court itself, a good deal of unnecessary and cumbersome transportation of expensive equipment would cease.

III. PROPOSED ACTIVITY

Install video recorder in courtroom to be used by law enforcement agencies in displaying tapes of those arrested for DWI offenses.

IV. EVALUATION

Evaluate and analyze the increased speed of trial activity as a result of maintaining video equipment in the court on a permanent basis as compared to delays involved in awaiting transportation of equipment from law enforcement agencies.

SECTION III  
BUDGET AND COST SHARING

BUDGET

A. DIRECT COSTS

(1) Salaries and Wages

\$ \_\_\_\_\_

(2) Employee Benefits

A D D E N D U M "A"Task Number 76-308-61.4-24

Reports of traffic safety task progress are to be submitted periodically to the Washington Traffic Safety Commission. These are to be submitted in duplicate quarterly, at the conclusion of a task (final) and annually for the next three years. A summary of the task's activities and accomplishments are to be on file with the Commission before final claims can be processed. Those traffic safety tasks requiring consultant efforts, consultant performance, or otherwise not lending themselves to the brevity of the attached form will require a comprehensive narrative report encompassing as a minimum those features enumerated on the "Traffic Safety Task Report."

These reports will be utilized in various ways; such as, keeping the Commission informed of a task's progress, explaining any difficulties encountered, providing a backlog of information that can be passed on to others, suggesting ways in which the Commission can assist with the task and aiding in distribution of federal highway safety funds.

Progress reports will be due in the Commission office within five working days after the end of the reporting quarter - March 31, June 30, September 30 and December 31. The initial report is to be submitted at the end of the first full quarter the task is in effect. (Example: If the task was initiated February 15, the first report as of June 30.)

The attached forms are to be used when compiling these reports. All sections are to be filled in as completely as possible. If no action has been taken, please so indicate. Any difficulties which arise, resolved or not, should be described in detail. Any original or innovative ideas or methods employed in your task should be incorporated into your reports.

When the purchase of equipment is a component of a task, a description of its use and effectiveness should be listed.

The more information provided in progress reports, the better the Washington Traffic Safety Commission can meet the traffic safety needs of Washington residents.
