INTRODUCED BY CYNTHIA SULLIVAN

PROPOSED NO. 88-392

ORDINANCE NO. **9218**

AN ORDINANCE relating to the King County approval of water utility comprehensive plans, inserting requirements for conservation programs and requiring consistency with coordinated water supply plans (RCW 70.116); amending Ordinance 1709, Section 2 and 5 as amended, and K.C.C. 13.24.030 and 13.24.060.

BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

SECTION 1. Ordinance 1709, Section 2 as amended and K.C.C. 13.24.030 are amended as follows:

Comprehensive plans - Water purveyors. Water district and distributor comprehensive plans shall consist of the following:

A. A narrative report which provides the following information:

1. A short history of the district or company,
2. Population projection for the distribution area or district, and for the area anticipated to be served in the future as described in subdivision 7 of this subsection, together with the source or basis of the projection,
3. A description of the existing water sources, storage and distribution facilities, and the physical, chemical and bacteriological quality of the supply,
4. For those systems utilizing surface supplies, with disinfection only, the purveyor shall include a report identifying all facilities, conditions and activities within its watershed, together with a proposed program for necessary surveillance, limitation and control,
5. A time schedule for improvements required to meet any existing deficiencies of supply, storage, distribution or quality, including any treatment facilities not in compliance with state or local health requirements,

1 6. Proposed plans for covering any open distribution
2 reservoirs. Interim facilities, including chlorination, may be
3 considered in the plans for covering,

4 7. A water conservation plan consisting of a water
5 shortage response element dealing with seasonal drought
6 conditions and shortages caused by high turbidity; and a
7 long-range resource conservation element to reduce overall water
8 usage per capita which will use the geographically relevant
9 coordinated water system plan as the standard. For those
10 purveyors not included as part of a coordinated water supply
11 plan, the conservation element standard will be that of the
12 nearest critical water supply service area.

13 ~~((7-))~~8. A projection of anticipated system needs at least
14 ten years into the future for districts and distributors having
15 more than one thousand services; or a projection of anticipated
16 system needs at least five years in the future for all other
17 districts and distributors,

18 ~~((8-))~~9. A proposed construction schedule to meet
19 projected system needs and a plan setting forth the means for
20 financing the proposed improvements,

21 ~~((9-))~~10. A description of any agreements, or any
22 attempts to reach agreements, with neighboring sewer and water
23 districts, municipalities or special districts,

24 ~~((10-))~~11. A description of developer extension plans
25 and/or a statement of minimum criteria and standards required by
26 the district to be met by developers,

27 ~~((11-))~~12. An explanation of the relationship between the
28 district's or distributor's existing and proposed system and the
29 basinwide water and/or sewerage plan as approved by the State
30 Department of Ecology and the State Department of Social and
31 Health Services,

1 ((12-))13. A discussion of the relationship between the
2 district comprehensive plan and county adopted plans, policies,
3 and land use controls;

4 B. A map of the plan area which depicts the following
5 requirements:

6 1. Existing and proposed mains, and existing and proposed
7 fire hydrants, with documentation demonstrating that such system
8 meets county standards,

9 2. Critical elevation and pressure zones,

10 3. Storage and pumping facilities, with capacities noted,

11 4. Existing corporate and service area boundar((y))ies and
12 ((anticipated-boundary-or)) proposed future service area
13 ((expansion;)) boundaries consistent with the coordinated water
14 system plans (RCW 70.116) where applicable.

15 5. Existing zoning,

16 6. Existing land use.

17 SECTION 2. Ordinance 1709, Section 5 as amended and K.C.C.
18 13.24.060 are amended as follows:

19 Comprehensive plans - Approval requirements.

20 Comprehensive plans approved by the county shall contain the
21 elements listed in Sections 13.24.030 or 13.24.040 and shall not
22 be inconsistent with the following:

23 A. King County Code Chapter 17.08 relating to the
24 installation of fire hydrants and water mains;

25 B. State and local health standards;

26 C. County comprehensive plan; adopted community plans, and
27 pertinent county adopted plans and policies; provided, that in
28 those areas where a community plan has not been adopted, the
29 approval of new significant general purpose improvements to water
30 systems, including pumping, storage, source, or transmission
31 mains, shall be limited to serve existing or permitted uses.
32 Existing or permitted uses shall not be construed to mean new
33

1 residential subdivisions, short subdivisions, or planned unit
2 developments;

3 D. Coordinated water system plans for areas designated as
4 critical water supply service areas in K.C.C. 13.28 pursuant to
5 RCW 70.116.

6 ((B-))E. The basinwide water and/or sewerage plan when
7 approved by the State Department of Ecology and the State
8 Department of Social and Health Services;

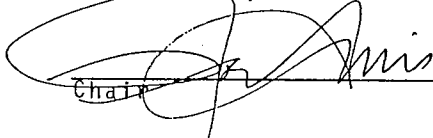

9 ((E-))F. Applicable state water quality and waste management
10 standards; and

11 ((F-))G. The King County Sewerage General Plan.

12 INTRODUCED AND READ for the first time this 23rd day
13 of May, 19 88.

14 PASSED this 20th day of November, 19 89.

15 KING COUNTY COUNCIL
16 KING COUNTY, WASHINGTON.

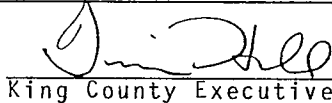

17 
18 Chair

19 ATTEST:

20 Clerk of the Council

21 APPROVED this 1 day of December, 19 89.
