Signature Report

March 19, 2002

Ordinance 14303

Proposed No. 2002-0055.1

Sponsors von Reichbauer

1 AN ORDINANCE approving the Lakehaven Utility
2 District 1999 Comprehensive Wastewater System Plan, as
3 amended.

4

5

6

PREAMBLE:

7

K.C.C. chapter 13.24 requires approval of comprehensive plans for sewer

8

utilities as a prerequisite for granting right-of-way franchises and approval

9

of right-of-way construction permits.

10

The Lakehaven Utility District 1999 Comprehensive Wastewater System

11

Plan (plan), as amended, discusses sewer service to existing and future

12

populations within the district's twenty-seven-square mile service area.

13

The service area currently includes portions of the cities of Federal Way,

14

Des Moines, Kent, Auburn, Milton, Pacific and Tacoma and parts of urban

15

unincorporated King County. The service area is comprised

16

predominantly of single-family residences, although multifamily

17

residences, commercial areas and industries are also served.

18 Approximately one hundred thousand residents and thirty-five thousand
19 employees are currently served by the district. By 2017, the residential
20 population projected to be served by the district is nearly one hundred fifty
21 thousand; approximately fifty thousand employees will be served.

22 The majority of the district's waste water flows are currently treated by the
23 district's two treatment plants, Lakota and Redondo. Some flows are
24 treated by Midway sewer district, by the city of Tacoma and by King
25 County. The quantity of waste water from the district that is treated by
26 King County's Renton treatment plan is currently and will remain at less
27 than one million gallons per day. The district's two treatment plants have
28 sufficient capacity to treat projected flows through 2017.

29 The district has recently completed several years of effort to reduce
30 infiltration and inflow in the Redondo basin. A reduction of
31 approximately three hundred thousand gallons per day was achieved.

32 A twenty-year capital program was identified at a cost of approximately
33 forty million dollars. Funding for the capital improvements will come
34 primarily from revenue bonds and developer funding for currently
35 unsewered areas.

36 The King County utilities technical review committee (UTRC) reviewed
37 and conditionally approved the plan on August 8, 2001. The conditions of
38 approval, technical changes to the plan, are reflected in the plan version
39 attached to this ordinance. The UTRC recommends that the council
40 approve the plan.

41 The plan was originally prepared in 1999 and subsequently amended. The
42 plan version attached to this ordinance contains the amendments
43 previously approved by the district.

44 The district prepared a determination of nonsignificance for the plan on
45 May 28, 1999, in accordance with the state Environmental Policy Act.

46 The district adopted the plan on July 8, 1999, and amended it on May 10,
47 2001.

48 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

49 SECTION 1. The Lakehaven Utility District 1999 Comprehensive Wastewater

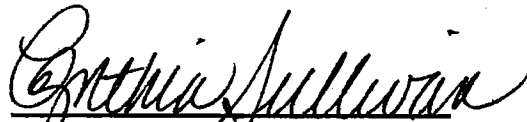

Ordinance 14303

50 System Plan, as amended, Attachment A to this ordinance, is hereby approved without
51 conditions.
52

Ordinance 14303 was introduced on 2/19/2002 and passed by the Metropolitan King County Council on 3/18/2002, by the following vote:

Yes: 12 - Ms. Sullivan, Ms. Edmonds, Mr. von Reichbauer, Mr. Phillips, Mr. Pelz, Mr. McKenna, Mr. Constantine, Mr. Pullen, Mr. Gossett, Ms. Hague, Mr. Irons and Ms. Patterson
No: 0
Excused: 1 - Ms. Lambert

KING COUNTY COUNCIL
KING COUNTY, WASHINGTON

Cynthia Sullivan, Chair

ATTEST:

Anne Noris, Clerk of the Council

APPROVED this 22 day of March, 2002.

Ron Sims, County Executive
