- 2. Except as modified herein, the facts set forth in the King County Department of Natural Resources, Water and Land Resources Division Preliminary Report to the King County Hearing Examiner for the March 5, 2003, public hearing are found to be correct and are incorporated herein by this reference. Copies of the said Report will be attached to the copies of this Report submitted to the King County Council.

The file no. stated at page 1 of the report is corrected to E02CT003.

3. A reasonable time to allow the Applicant to submit additional documentation in support of the property's qualification as a surface water quality buffer area and as farm and agricultural conservation land, is July 1, 2003. A reasonable period to allow King County for the review of such documentation, if submitted, is two months.

CONCLUSIONS:

1. Approval of current use valuation for up to 5.77 acres of the subject property, pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.
2. Timely application has been made to King County for the current use valuation of the subject property to begin in 2004. Notice of said application was given in the manner required by law.
3. The subject property contains priority open space resources pursuant to the King County Public Benefit Rating System, which justify a total award of up to 20 points. The resulting current use value would be 30% of market value for up to 5.77 acres of the subject property. However; only 10 points for 1.16 acres are justified by the documentation submitted to date. The Applicant should be allowed until July 1, 2003, to submit additional documentation to support the request for designation as surface water quality buffer area and farm and agricultural conservation land.

RECOMMENDATION:

APPROVE the request for current use valuation of 50% of market value for 1.16 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources report for the March 5, 2003, public hearing. The request may be approved for up to 20 points, providing a current use valuation of 30% of market value for up to 5.77 acres, if documentation is submitted by the Applicant *on or before July 1, 2003*, and approved by the Water and Land Resources Division *not later than September 1, 2003*, that establishes a farm management plan, including appropriate fencing, for the subject property.

The Applicant shall provide to the Water and Land Resources Division sufficient information to enable a legal description of the portion of this property subject to open space taxation to be prepared.

Current use valuation shall be subject to all terms and conditions of RCW 84.34 and King County Code Chapter 20.36, as the same may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED this 20th day of March, 2003.
