13 **PREAMBLE:**

14 King County is the steward of a significant system of regional parks, trails  
15 and natural areas.

16 The Phase II Business Transition Plan, completed by the department of  
17 natural resources and parks in August 2002, and Ordinance 14509,

18 adopted November 12, 2002, set forth the vision and implementation  
19 strategies for the King County parks and recreation system in 2003 and  
20 beyond. The plan identified ways to reduce the parks division budget  
21 while keeping key regional parks assets open and preserving local rural  
22 facilities where practical.

23 The plan identified a next step to achieve the department's new vision as a  
24 submittal by the executive of an ordinance proposing changes to the King  
25 County Code.

26 This ordinance revises the land use code to allow for new uses in the parks  
27 that will create an opportunity for the division to support the parks  
28 programs and provide additional amenities in the parks to serve park users.

29 Projects proposed for development will be evaluated for appropriateness  
30 for the park and the system. Department policies and procedures will be  
31 developed to provide criteria for project evaluation; the City of Redmond  
32 and Friends of Marymoor Park will be included in the development of  
33 criteria for project evaluation for projects proposed and evaluated for  
34 Marymoor Park.

35 The department of natural resources and parks will conduct a public  
36 outreach element and will consult with adjacent jurisdictions for each  
37 specific project covered under the code amendments and the current  
38 zoning regulations. Outreach could include a combination of public  
39 meetings, mailings, website posting, newspaper notices, listserve  
40 notification, targeted outreach to neighbors and user group meetings. A

41 summary of the public outreach process and public comments will be  
42 included in the transmittal to the county council for projects that require  
43 council approval.

44 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

45 NEW SECTION. SECTION 1. There is hereby added to K.C.C. chapter 7.02 a

515 the minimum density factor be modified based upon the weighted average slope of the  
516 net buildable area of the site in accordance with K.C.C. 21A.12.087.

517           13. The minimum lot area does not apply to lot clustering proposals.

518           14. The base height to be used only for projects as follows:

519           a. in R-6 and R-8 zones, a building with a footprint built on slopes exceeding a

558 allowable impervious area. Where both lot- and plat-specific impervious limits apply, the
