PRELIMINARY REPORT:

The Department of Natural Resources & Parks, Water and Land Resources Division Report on item no. E08CT006 was received by the Examiner on July 21, 2008.

PUBLIC HEARING:

After reviewing the report and examining available information on file with the application, the Examiner conducted a public hearing on the application as follows:

The hearing on item no. E08CT006 was held by the Examiner on July 30, 2008, in the Hearing Examiner's Conference Room, 400 Yesler Way, Room 404, Seattle, Washington.

Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

FINDINGS, CONCLUSIONS & RECOMMENDATION: Having reviewed the record in this matter, the Examiner now makes and enters the following:

FINDINGS:

1. General Information:

Owner: Mark Chambers and Oda Egeland

Location: 7501 Tolt River Road

PBRS categories requested/proposed: **Open space resources**
Active or passive recreation area
Aquifer protection area
Forest stewardship land
Scenic resource, view point or view corridor
Significant plant site
Significant wildlife or salmonid habitat
Watershed protection area

Categories recommended: **Open space resources**
Aquifer protection area
Buffer to public land
Forest stewardship land
Rural open space
Significant wildlife or salmonid habitat
Surface water quality buffer area

Bonus category
Additional surface water quality buffer
Public access – environmental education (conditional)

STR: NW 11-25-07
Zoning: RA-5 and RA-10
Parcel nos. (recommended): 112507-9002 865680-0150
865680-0160 865680-0170
Total acreage: 69.82 acres
Recommended PBRS: 19.97 acres

(The land area recommended for PBRS enrollment is the entire parcel less the excluded area, which is what has been calculated by DNRP. In the event the County Assessor’s official parcel size is revised, the PBRS acreage shall be administratively adjusted to reflect that change.)

2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report for the July 30, 2008, public

- hearing are found correct and are incorporated herein by reference. Copies of the department report will be provided with the copies of this report submitted to the Metropolitan King County Council.
3. The subject property currently has several parcels enrolled in the forestland and Timber Land taxation programs. Timely application was made to King County for PBRS current use valuation of the property to begin in 2010.¹ Notice of the application was given as required by law.
 4. The property is found to contain priority open space resources and is eligible for a total award of 33 points under the King County Public Benefit Rating System. The resulting current use valuation therefore would be 20% of market value for 19.97 acres of the property.
 5. Credit may be awarded administratively for the public access – environmental education category. (The Applicants have expressed an interest in the property being utilized for the forest stewardship class offered by the Washington State Extension Service forestry program.) Award of this category could increase the percent reduction to 90%.
 6. No substantial evidence is presented indicating a good likelihood of qualification under the requested significant plant site category. Granting a conditional allowance of later administrative award as suggested (but not formally recommended) by the department without a showing of a good likelihood of qualification would be inappropriate and is not recommended. Application for such award may be made in the future if desired.

CONCLUSION:

1. Approval of current use valuation of 20% of market value (or as low as 10% if approved as noted in Finding no. 5 above) for 19.97 acres of the property pursuant to the Public Benefit Rating System adopted by Chapter 20.36 KCC would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.

RECOMMENDATION:

APPROVE current use valuation of 20% of market value (or as low as 10% if approved as noted below) for 19.97 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the July 30, 2008 public hearing and the following conditional allowance:

- A. Credit may be awarded administratively for the public access – environmental education category as stated in Finding no. 5 above and noted in the department report, if adequately documented. Award for this category could result in a current use valuation of 10% for the enrolled portion of the property.

¹ Corrected.

Current use valuation shall be subject to all terms and conditions of RCW Chapter 84.34 and KCC Chapter 20.36, as may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED December 29, 2008.

CORRECTED January 6, 2009.
