PRELIMINARY REPORT:

The Department of Natural Resources & Parks, Water and Land Resources Division Report on item no. E08CT079 was received by the Examiner on February 26, 2009.

PUBLIC HEARING:

After reviewing the report and examining available information on file with the application, the Examiner conducted a public hearing on the application as follows:

The hearing on item no. E08CT079 was held by the Examiner on March 4, 2009, in the Hearing Examiner's Conference Room, 400 Yesler Way, Room 404, Seattle, Washington.

Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

FINDINGS, CONCLUSIONS & RECOMMENDATION: Having reviewed the record in this matter, the Examiner now makes and enters the following:

 Significant wildlife or salmonid habitat (contingent)

Bonus category

 Contiguous parcels under separate ownership (contingent)

STR:	SE 08-22-03		
Zoning:	RA-2.5		
Parcel no.:	082203-9043 (Muir/Grist)	082203-9094 (Miller)	082203-9082 (Eckman/Walraven)
Total acreage:	1.53	1.12	1.23
Recommended PBRS:	0.63	0.56	0.75

(The land area recommended for PBRS enrollment is the entire parcel less the excluded area, which is what has been calculated by DNRP. In the event the County Assessor's official parcel size is revised, the PBRS acreage shall be administratively adjusted to reflect that change.)

2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report for the March 4, 2009, public hearing are found correct and are incorporated herein by reference. Copies of the department report will be provided with the copies of this report submitted to the Metropolitan King County Council.
3. Subsequent to issuance of the DNRP staff report, Barbara C. Smith withdrew her application for PBRS open space participation. The staff report was accordingly revised as follows:
 - Page 1, section A.1 – removal of information for Barbara C. Smith.
 - Page 1, section 5 - removal of parcel 02203-9033 and its related information, recommended acreage is changed from 2.44 to 1.94 and the acreage for the entire property is changed from 5.10 to 3.88 in the page 1, section 5 note.
 - Page 2, section B.5 – removal of parcel 02203-9033 information.
 - Page 5, bonus categories, second bullet, second sentence – change “(6 points total)” to “(4 points total)”
 - Page 6, section A, bonus categories – change the point award for contiguous parcels under separate ownership from 6 to 4.
 - Page 6, section A, change total points to 19 from 21.
 - Page 6, section A, public benefit rating box is changed to read “For the purpose of taxation, 19 points results in 30% of market value or a 70% reduction in...” rather than “For the purpose of taxation, 21 points results in 20% of market value or an 80% reduction in...”
 - Page 6, section B – change first line to read “Approve the request...Public Benefit Rating of 19 points, subject...” rather than “Approve the request...Public Benefit Rating of 21 points, subject...”
4. Timely application was made to King County for PBRS current use valuation of the property to begin in 2010. Notice of the application was given as required by law.
5. The awards under the aquifer protection area, significant wildlife or salmonid habitat and contiguous parcels under separate ownership categories are all contingent upon award under the resource restoration category and implementation of an approved restoration plan (see next Finding).
6. Award under the resource restoration category is contingent upon Applicant submittal of a resource restoration plan by July 1, 2009, and subsequent approval by September 1, 2009. The plan should address the control and removal of invasive plants and replanting with native plant species to be completed within three years of enrollment. Failure to qualify for this category would preclude the property from enrollment in the PBRS program at present due to lack of independent eligibility under any other resource categories.
7. Subject to the above-noted contingencies, the property contains priority open space resources and is eligible for a total award of 19 points under the King County Public Benefit Rating

System. The resulting current use valuation therefore would be 30% of market value for 1.94 acres of the property.

CONCLUSION:

1. Subject to the above-noted contingencies, approval of current use valuation of 30% of market value for 1.94 acres of the property pursuant to the Public Benefit Rating System adopted by Chapter 20.36 KCC would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.

RECOMMENDATION:

APPROVE current use valuation of 30% of market value for 1.94 acres of the property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the March 4, 2009 public hearing and the above-noted contingencies.

Current use valuation shall be subject to all terms and conditions of RCW Chapter 84.34 and KCC Chapter 20.36, as may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED March 6, 2009.

Peter T. Donahue
King County Hearing Examiner

At that meeting, the Council may adopt the Examiner's recommendation, may defer action, may refer the matter to a Council committee, or may remand to the Examiner for further hearing or further consideration.

Action of the Council is final.
