**PRELIMINARY REPORT:**

The Department of Natural Resources & Parks, Water and Land Resources Division Revised Report on item no. E08CT075 was received by the Examiner on April 15, 2009.

**PUBLIC HEARING:**

After reviewing the revised report and examining available information on file with the application, the Examiner conducted a public hearing on the application as follows:

The hearing on item no. E08CT075 was opened by the Examiner on March 4, 2009, in the Hearing Examiner's Conference Room, 400 Yesler Way, Room 404, Seattle, Washington, and was continued to April 15, 2009, pending confirmation by DNRP staff of the presence of a pond on the property and review of staff recommendations in light of its existence. The hearing was closed on April 15, 2009.

Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

**FINDINGS, CONCLUSIONS & RECOMMENDATION:** Having reviewed the record in this matter, the Examiner now makes and enters the following:

**FINDINGS:**

1. General Information:

Owner:	Nancy Giske and Max Batres	
Location:	7530 SW Maury Park Road and 7626 SW Point Robinson Road, Washon	
PBRs categories requested:	<p><b>Open space resources</b>          Aquifer protection area          Forest stewardship land          Shoreline: conservancy environment          Significant wildlife or salmonid habitat          Surface water quality buffer          Watershed protection area</p> <p><b>Bonus categories</b>          Additional surface water quality buffer          Contiguous parcels under separate ownership</p>	
Categories recommended:	<p><b>Open space resources</b>          Aquifer protection area (contingent)          Forest stewardship land (contingent)          Significant wildlife or salmonid habitat (contingent)          Watershed protection area (contingent)</p> <p><b>Bonus categories</b>          Contiguous parcels under separate ownership (contingent)</p>	
STR:	NW 16-22-03	
Zoning:	RA-2.5	
Parcel no.:	162203-9114 (Giske)	162203-9065 (Batres)
Total acreage:	1.50 acres	5.73 acres
Recommended PBRs:	0.46 acre	4.18 acres

(The land area recommended for PBRs enrollment is the entire parcel less the excluded area, which is what has been calculated by DNRP. In the event the County Assessor's official parcel size is revised, the PBRs acreage shall be administratively adjusted to reflect that change.)

2. Timely application was made to King County for PBRs current use valuation of the property to begin in 2010. Notice of the application was given as required by law.

3. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Revised Preliminary Report and testimony for the April 15, 2009, public hearing are found correct and are incorporated herein by reference. Copies of the department report will be provided with the copies of this report submitted to the Metropolitan King County Council.
4. Award under the watershed protection area category is given if “the enrolling forested area...consist[s] of an additional fifteen percent of forest cover beyond that required by county...regulation.” [KCC 20.36.100.A.20] The property has not been shown to qualify by providing forest cover substantially in excess of currently effective regulations. Nevertheless, award should continue to be granted based on the clearing limits of KCC 16.82.150 effective prior to its recent judicial invalidation. Even though that regulatory basis of award consideration has been undercut by the invalidation, the established award structure was in part predicated on its effectiveness, and the policy principle behind the award structure remains and should be respected as intended. The principle is that forest cover is valuable for watershed protection and is eligible for PBRs award if its area is substantially over and above the base expressed as the minimum value, whether expressed by the prior regulation or by any regulations which are currently effective.
5. Award of credit under the forest stewardship land category is contingent upon Applicant submittal of a forest stewardship plan by July 1, 2009, and subsequent approval by September 1, 2009. The forest plan must address the control and removal of invasive plants and replanting with native plant species within three years of the date of enrollment. Failure to qualify under this category would exclude the property from enrollment in the PBRs program at present due to lack of eligibility under any other resource categories.
6. Award of credit under the aquifer protection area, significant wildlife or salmonid habitat, watershed protection area and contiguous parcels under separate ownership categories is contingent upon award under the forest stewardship land category and the control and removal of invasive plant species.
7. Subject to the above-noted contingencies, the property contains priority open space resources and is eligible for a total award of 22 points under the King County Public Benefit Rating System. The resulting current use valuation therefore would be 20% of market value for 4.64 acres of the property.

#### CONCLUSION:

1. Subject to the above-noted contingencies, approval of current use valuation of 20% of market value for 4.64 acres of the property pursuant to the Public Benefit Rating System adopted by Chapter 20.36 KCC would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.

## RECOMMENDATION:

APPROVE current use valuation of 20% of market value for 4.64 acres of the property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the April 15, 2009 public hearing and the above-stated contingencies.

Current use valuation shall be subject to all terms and conditions of RCW Chapter 84.34 and KCC Chapter 20.36, as may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED April 23, 2009.
