20.08.030 Area zoning. "Area zoning" as used in this title is synonymous with the terms of "rezoning or original zoning" as used in the King County charter and means procedures initiated by King County which result in the adoption or amendment of zoning maps on an area wide basis. This type of zoning is characterized by being comprehensive in nature, deals with distinct communities, specific geographic areas and other types of districts having unified interests within the county. Area zoning, unlike a reclassification, usually involves many separate properties under various ownerships and utilizes several of the zoning classifications available to express the county's current comprehensive plan and subarea plan policies in zoning map form. (Ord. 13147 § 3, 1998: Ord. 3669 § 1, 1978: Ord. 263 Art. 1 § 3, 1969).

20.08.035 Benchmarks. "Benchmarks" means quantifiable measures used to monitor the outcomes of public policy. (Ord. 13147 § 11, 1998).

20.08.037 Area zoning and land use study. "Area zoning and land use study" means a study that reviews the land use designations and zoning classifications for a specified set of properties. "Area zoning and land use studies" are focused on a broader set of policies than a subarea study, and do not look at the larger range of issues that a subarea plan would include. "Area zoning and land use studies" consider specific potential changes to land use or zoning, or both, and analyze such requests based on surrounding land use and zoning, current infrastructure and potential future needs, and consistency with the King County Comprehensive Plan, countywide planning policies and the Growth Management Act, chapter 36.70A RCW. (Ord. 18810 § 3, 2018).

20.08.060 Subarea plan. "Subarea plan" means a detailed local land use plan that implements, is consistent with and is an element of the Comprehensive Plan, containing specific policies, guidelines and criteria adopted by the council to guide development and capital improvement decisions within specific subareas of the county. Subareas are distinct communities, specific geographic areas or other types of districts having unified interests or similar characteristics within the county. Subarea plans may include community plans, community service area subarea plans, neighborhood plans, basin plans and plans addressing multiple areas having common interests. The relationship between the 1994 King County Comprehensive Plan and subarea plans is established by K.C.C. 20.12.015. (Ord. 18810 § 5, 2018: Ord. 13147 § 5, 1998: Ord. 11653 § 3, 1995: Ord. 3669 § 2, 1978: Ord. 263 Art. 1 (part), 1969).
20.08.070 Comprehensive plan. "Comprehensive plan" means the principles, goals, objectives, policies and criteria approved by the council to meet the requirements of the Washington State Growth Management Act, and,
A. As a beginning step in planning for the development of the county;
B. As the means for coordinating county programs and services;
C. As policy direction for official regulations and controls; and
D. As a means for establishing an urban/rural boundary;

20.08.100 Department. "Department" means the department or office responsible for comprehensive planning as provided in K.C.C. 2.16. (Ord. 13147 § 7, 1998: Ord. 3669 § 3, 1978: Ord. 263 Art. 1 § 9, 1969).

20.08.105 Development regulations. "Development regulations" means the controls placed on development or land use activities by the county including, but not limited to, zoning ordinances, critical areas ordinances, shoreline master programs, official controls, planned unit development ordinances, subdivision ordinances and binding site plan ordinances, together with any amendments thereto. A development regulation does not include a decision to approve a project permit application, as defined in RCW 36.70B.020, even though the decision may be expressed in an ordinance by the county. (Ord. 13147 § 13, 1998).

20.08.107 Docket. "Docket" (noun) means the list of suggested changes to the comprehensive plan or development regulations maintained by the department. "Docket" (verb) means to record with the department a suggested change to the comprehensive plan or development regulations. (Ord. 13147 § 14, 1998).

20.08.132 Functional plans. "Functional plans" are detailed plans for facilities and services and action plans for other governmental activities. Functional plans should be consistent with the Comprehensive Plan, define service levels, provide standards, specify financing methods which are adequate, stable and equitable, be the basis for scheduling facilities and services through capital improvement programs and plan for facility maintenance. Functional plans are not adopted to be part of the capital facilities plan element of the Comprehensive plan. (Ord. 11653 § 5, 1995).

20.08.155 Public review draft. "Public review draft" means a draft of executive proposed Comprehensive Plan amendments, including proposed subarea plans, made available to the public for review and comment. A "public review draft" is published before transmittal of proposed Comprehensive Plan amendments to the council so as to provide the public an opportunity to record comments before the executive finalizes the recommended amendments. (Ord. 18810 § 4, 2018).

20.08.160 Reclassification. "Reclassification" means a change in the zoning classification by procedures initiated by an individual or a group of individuals who, during
the intervals between area zoning map adoptions, wishes to petition for a change in the zoning classification which currently applies to their individual properties. (Ord. 263 Art. 1 § 15, 1969).

20.08.165 SEPA. "SEPA" means the state Environmental Policy Act. (Ord. 18230 § 111, 2016).

20.08.170 Site-specific comprehensive plan land use map amendment. "Site-specific comprehensive plan land use map amendment" means an amendment to the comprehensive plan land use map which includes one property or a small group of specific properties. (Ord. 13147 § 12, 1998).

20.08.175 Subarea study. "Subarea study" means a study that is required by a policy in the Comprehensive Plan to evaluate a proposed land use change, such as the establishment of new community business centers, adjusting Rural Town boundaries or assessing the feasibility of zoning reclassifications in urban unincorporated areas. "Subarea studies" are focused on specific areas of the county, but do not look at the larger range of issues that a subarea plan would include. "Subarea studies" are separate from area zoning and land use studies defined in K.C.C. 20.08.037. The Comprehensive Plan policies and accompanying text shall guide the scope and content of the subarea study. (Ord. 18810 § 6, 2018).

20.12.480 King County Flood Hazard Reduction Plan Policies. The 2006 King County Flood Hazard Management Plan, as shown in Attachment A to Ordinance 15673*, is hereby amended by the 2013 Flood Hazard Management Plan Update, as shown in Attachment B to Ordinance 17697* and amended is adopted as a functional plan to guide King County's river and floodplain management program and to meet the intent of the natural environment, and facilities and services policies of the King County Comprehensive Plan. The 2013 Flood Hazard Management Plan Update, Attachment A to Ordinance 17697*, amends the 2006 King County Flood Hazard Management Plan, Attachment A to Ordinance 15673*, by adding new text to Chapters 1 through 6 of the 2006 Plan, by replacing Chapter 7 of the 2006 Plan with a new Chapter 7, and by replacing Appendices A through G of the 2006 Plan with new Appendices A through L. As an amplification and augmentation of the King County Comprehensive Plan, the flood hazard management plan as amended by the update constitutes official county policy with regard to river and floodplain management in King County. For each site-specific project, such as levee improvements or concentrated areas of home buyouts or elevations, a project summary is included to provide a better understanding of the flood or erosion conditions of concern and the action or actions proposed to address them. Project summaries, and references to easements, buffers or levee improvements, including levee laybacks, in connection with such project summaries are intended to function at the level of planning documents and do not assume that the nature and scope of each of the described projects are the final project or action that are described in this chapter 5 of Attachment A to Ordinance 17673*, as amended by Chapter 5 of Attachment B to Ordinance 17697* or in Appendices E, F and G of Attachment B to Ordinance 17697*. The proposed projects and actions are not intended to substitute for the site-specific analysis to determine what is required for each of the site specific capital projects that will be recommended and adopted as part of an annual capital improvement plan. The priority, scope, nature and cost of the proposed projects or actions may change as the hydraulic, engineering and geotechnical conditions at each site are analyzed in greater detail, and as engineering alternatives are developed, analyzed, reviewed and negotiated with federal, state, local and tribal agencies and affected property owner or owners. However, while the plan sets forth what the county currently believes are best practices, nothing in this plan creates or precludes the creation
of new land use requirements, laws or regulations. For the reach of the Tukwila 205 levee and any extensions thereof between South 180th Street and South 204th Street, the setback, easement, and slope design recommendations of the 2006 King County Flood Hazard Management Plan, Attachment A to Ordinance 15763*, as amended by the 2013 Flood Hazard Management Plan Update, Attachment B to Ordinance 17697*, are satisfied if the repair, extension or modification of an existing levee or the design of a new levee meet the design guidelines and factors of safety in United States Army Corps of Engineers Engineering Manual for the Design and Construction of Levees (EM 1110-2-1913) dated April 30, 2000, as most currently updated. (Ord. 17697 § 1, 2013: Ord. 15673 § 2, 2007: Ord. 11112 § 1, 1993).

Executive staff negotiating these issues with the relevant cities shall assure that residents and community groups in the affected areas are given meaningful opportunities to participate in the negotiation process. Executive staff shall keep councilmembers in whose districts the PAA's are located apprised of public participation processes undertaken by the executive, and provide them with notice of any public meetings on PAA's well in advance of the meetings. If executive staff relies on city planning processes in which the county has not participated, documentation of the processes used by the cities shall be transmitted with any recommended PAA agreements. Further, executive staff shall provide summaries of the processes it has used to achieve public participation in any transmittals of PAA agreements forwarded to the council. (Ord. 12061 § 5, 1995).

20.18.160 before making a recommendation, which shall include publishing a public review
draft of the proposed Comprehensive Plan amendments, in addition to conducting the public
review and comment procedures required by SEPA. The public shall be afforded at least
one official opportunity to record public comment before the transmittal of a recommendation
by the executive to the council. County-sponsored councils and commissions may submit
written position statements that shall be considered by the executive before transmittal and
by the council before adoption, if they are received in a timely manner. The executive’s
recommendations for changes to policies, text and maps shall include the elements listed in

C. The following categories of site-specific land use map and shoreline master
program amendments may be initiated by either the county or a property owner for

All site-specific land use map and shoreline master program map amendments must be evaluated by the hearing examiner before adoption by the council in accordance with this chapter.

1. If initiated by council motion, the motion shall refer the proposed site-specific land use map or shoreline master program map amendment to the department of local services, permitting division, review for preparation of a recommendation to the hearing examiner. The motion shall also identify the resources and the work program required to provide the same level of review accorded to applicant-initiated amendments. An analysis of the motion’s fiscal impact shall be provided to the council before adoption. If the executive determines that additional funds are necessary to complete the work program, the executive may transmit an ordinance requesting the appropriation of supplemental funds.

2. If initiated by executive proposal, the proposal shall refer the proposed site-specific land use map or shoreline master program map amendment to the department of local services, permitting division, for preparation of a recommendation to the hearing examiner.

3. If initiated by property owner application, the property owner shall submit a docket request for a site-specific land use map or shoreline master program map amendment to the department of local services, permitting division, for preparation of a recommendation to the hearing examiner.

B. A shoreline redesignation initiated by an applicant must include the following information in addition to the requirements in this section:

1. Applicant information, including signature, telephone number and address;
2. The applicant’s interest in the property, such as owner, buyer or consultant; and
3. Property owner concurrence, including signature, telephone number and address.

C. All proposed site-specific land use map or shoreline master program map amendments, whether initiated by property owner application, by council motion or by executive proposal shall include the following:

1. Name and address of the owner or owners of record;
2. Description of the proposed amendment;
3. Property description, including parcel number, property street address and nearest cross street;
4. County assessor’s map outlining the subject property; and
5. Related or previous permit activity.

D. Upon initiation of a site-specific land use map or shoreline master program map amendment, an initial review conference shall be scheduled by the department of local
services, permitting division. The owner or owners of record of the property shall be notified of and invited to attend the initial review conference. At the initial review conference, the department of local services, permitting division, shall review the proposed amendment’s consistency with applicable county policies or regulatory enactments including specific reference to Comprehensive Plan policies, countywide planning policies and state Growth Management Act requirements. The proposed amendment will be classified in accordance with K.C.C. 20.18.040 and the classification shall be provided at the initial review conference or in writing to the owner or owners of record within thirty days after the initial review conference.

E. If a proposed site-specific land use map or shoreline master program map amendment is initiated by property owner application, the property owner shall, following the initial review conference, submit the completed application including an application fee and an environmental checklist to the department of local services, permitting division, to proceed with review of the proposed amendment.

F. If a proposed site-specific land use map or shoreline master program map amendment is initiated by council motion, following the initial review conference, the council shall submit an environmental checklist to the department of local services, permitting division, to proceed with review of the proposed amendment.

A property-owner-initiated docket request for a site-specific land use map or shoreline master program map amendment may be accompanied by an application for a zone reclassification to implement the proposed amendment, in which case administrative review of the two applications shall be consolidated to the extent practical consistent with this chapter and K.C.C. chapter 20.20. The council’s consideration of a site-specific land use map or shoreline master program map amendment is a legislative decision that should be determined before and separate from its consideration of a zone reclassification, which is a quasi-judicial decision. If a zone reclassification is not proposed in conjunction with an application for a site-specific land use map or shoreline master program map amendment and the amendment is adopted, the property shall be given potential zoning. A zone reclassification in accordance with K.C.C. 20.20.020 is required in order to implement the potential zoning.

J. Site-specific land use map or shoreline master program map amendments for which a completed recommendation by the hearing examiner has been submitted to the council by January 15 will be considered concurrently with the annual amendment to the Comprehensive Plan. Site-specific land use map or shoreline master program map amendments for which a recommendation has not been issued by the hearing examiner by January 15 shall be included in the next appropriate review cycle following issuance of the examiner’s recommendation.
K.1. An amendment to a land use designation or shoreline environment designation for a property may not be initiated unless at least three years have elapsed since council adoption or review of the current designation for the property. This time limit may be waived by the executive or the council if the proponent establishes that there exists either an obvious technical error or a change in circumstances justifying the need for the amendment.

2. A waiver by the executive shall be considered after the proponent has submitted a docket request in accordance with K.C.C. 20.18.140. The executive shall render a waiver decision within forty-five days of receiving a docket request and shall mail a copy of this decision to the proponent.

3. A waiver by the council shall be considered by motion.

20.18.055 Site-specific land use map amendment review standards and transmittal procedures.

All such amendments will be considered concurrently by the council committee charged with the review of the comprehensive plan. Following this review, site-specific land use map amendments which are recommended by this committee will be incorporated as an attachment to the adopting ordinance transmitted by the executive for consideration by the full council. Final action by the council on these amendments will occur concurrently with the annual amendment to the comprehensive plan. (Ord. 14047 § 4, 2001).

A motion initiating a site-specific shoreline redesignation must identify the resources and the work program required to provide the same level of review accorded to an applicant-initiated shoreline redesignation. Before adoption of the motion, the executive shall have the opportunity to provide an analysis of the motion’s fiscal impact. If the executive determines that additional funds are necessary to complete the work program, the executive may transmit an ordinance requesting the appropriation of supplemental funds. The council may consider the supplemental appropriation ordinance concurrently with the proposed motion referring the shoreline redesignation proposal to the examiner.

Reviser’s note: Ordinance 18230, Sections 162 and 163, apply to this section.

   suggested plan or development regulation amendments shall be coordinated by the
   department. The docket is the means either to suggest a change or to identify a deficiency,
   or both, in the Comprehensive Plan or development regulation. For the purposes of this
   section, "deficiency" refers to the absence of required or potentially desirable contents of the
   Comprehensive Plan or development regulation and does not refer to whether a
   development regulation addressed a project’s probable specific adverse environmental
   impacts that could be mitigated in the project review process. Any interested party, including
   applicants, citizens and government agencies, may submit items to the docket.

B. All agencies of county government having responsibility for elements of the
   Comprehensive Plan or implementing development regulations shall provide a means by

   solicit public use of the docket. The department shall provide a mechanism for docketing
   amendments through the Internet.

   by the department and considered for an amendment to the Comprehensive Plan.

2. The deadline for submitting docketed comments is December 31 for
   consideration in the update process for the following year.

3. By the last business day of April, the department shall issue an executive
   response to all docketed comments. Responses shall include a classification of the
   recommended changes as appropriate for the annual update, midpoint update or eight-year
   update, and an executive recommendation indicating whether or not the docketed items are
   to be included in the next executive-recommended Comprehensive Plan update. If the
   docketed changes will not be included in the next executive transmittal, the department shall
   indicate the reasons why, and shall inform the proponent that they may petition the council
   during the legislative review process.

4. By the last business day of April, the department shall forward to the council a
   report including all docketed amendments and comments with an executive response. The
   report shall include a statement indicating that the department has complied with the
   notification requirements in this section. The executive shall attach to the report copies of
   the docket requests and supporting materials submitted by the proponents and copies of
   the executive response that was issued to the proponents.

5. Upon receipt of the docket report, the council shall include all proponents of
   docketed requests in the mailing list for agendas to all committee meetings in which the
Comprehensive Plan will be reviewed during the next available update. At the beginning of the committee review process, the council shall develop a committee review schedule with dates for committee meetings and any other opportunities for public testimony and for proponents to petition the council to consider docket changes that were not recommended by the executive and shall attach the review schedule to the agenda whenever the Comprehensive Plan is to be reviewed.

6 Docketed comments relating to development regulations shall be reviewed by the appropriate county agency. Those requiring a Comprehensive Plan amendment shall be forwarded to the department and considered for an amendment to the Comprehensive Plan. Those not requiring a Comprehensive Plan amendment shall be considered by the responsible county agency for amendments to the development regulations.

7. The docket report shall be made available through the Internet. The department shall endeavor to make the docket report available within one week of transmittal to the council.

The opportunities may include, but are not limited to, the use of the following: comment cards, electronic or posted mail, Internet, public meetings with opportunities for discussion and feedback, printed summaries of comments received and twenty-four-hour telephone hotlines. The executive shall assure that the opportunities for public comment are provided as early as possible for each stage of the process, to assure timely opportunity for public input. (Ord. 18810 § 15, 2018: Ord. 16263 § 4, 2008: Ord. 15607 § 2, 2006: Ord. 14047 § 8, 2001: Ord. 13147 § 30, 1998).

20.18.150 Provision for notice of intent to amend, and post-adoption notice.

A. Pursuant to RCW 36.70A.106 and WAC 365-195-620, the responsible department or the council sponsor of the amendment shall notify the state of its intent to adopt amendments to the comprehensive plan or to development regulations at least sixty days prior to anticipated legislative action on the proposal except for regulations or amendments which are procedural, ministerial or required to address an emergency. When the state is notified, the department or the council sponsor shall also provide notice to the public, using one or more methods provided in K.C.C. 20.18.160 B, of the intent to amend the comprehensive plan and/or development regulations, if such notice has not already been provided. This information will be posted on the internet. Internet posting of the information is supplemental to other required notice, and the county’s failure in any particular case to provide notice via the internet shall not constitute a procedural violation.

B. Within ten days of adoption, the clerk of the council shall transmit to the state any adopted plan, amendment to the comprehensive plan or development regulation. Pursuant to RCW 36.70A.106, within ten days of adoption, the clerk of the council shall provide published notice in the official county newspaper of adoption of or amendment to the comprehensive plan or any development regulation. The notice shall indicate how the detailed description of the ordinance required by K.C.C. 20.18.100 can be obtained by a member of the public. (Ord. 13147 § 31, 1998).

20.18.160 Public participation program, basic elements.

A. Pursuant to RCW 36.70A.140, the county shall provide for early and continuous public participation in the development and amendment of the comprehensive plan and any implementing development regulations.

B. Public participation shall at a minimum include the following elements:

1. Annual dissemination of a schedule for public participation;

2. Issuance of a citizen’s guide to the comprehensive plan process that provides information on citizen participation in the comprehensive plan process, a description of the...
procedure and schedule for amending the comprehensive plan and/or implementing
development regulation(s), and a guide on how to use the docket;

3. Provision for broad dissemination of the proposal and alternatives appropriate to
the scope and significance of the proposal. The county shall make available to the public
printed and electronic information which clearly defines and visually portrays, when possible,
the range of options under consideration by the county. This information shall also include
a description of any policy considerations, the schedule for deliberation, opportunities for
public participation, information on the submittal and review procedures for written
comments and the name, address and telephone number of the responsible official(s). The
methods employed may include, but are not limited to, the use of the following: published
notice in the official county newspaper and other appropriate publications, news media
notification, mailed notice to property owners and to citizens or groups with a known interest
in the proposal, public education and government channel, electronic kiosks and the
internet, transit advertising, telephone and fax information lines, public review documents
and displays in public facilities, speakers bureau, and printed or computerized graphics
depicting the effect of the proposal;

4. Public meetings to obtain comments from the public or other agencies on a
proposed plan, amendment to the comprehensive plan or implementing development
regulation. Public meeting means an informal meeting, hearing, workshop or other public
gathering of people for the purpose of obtaining public comments and providing
opportunities for open discussion. All public meetings associated with review of the
comprehensive plan or development regulations shall provide a means for the public to
submit items for the docket. A public record of each public meeting should be maintained
to include documentation of attendance, record of any mailed notice and a record of public
comments not incorporated in the docket;

5. The county shall provide mechanisms to enable public access to additional
information. The county shall provide for publicly accessible and complete records of all
applications, docketed amendment requests, and related background information during
normal business hours. The public may seek assistance from the office of citizen complaints
to obtain time sensitive information. Methods of disseminating information may include, but
are not limited to, the following: published notice of location of public review documents,
use of the public education and government channel, use of electronic kiosks and the
internet, telephone information lines with or without fax options, placement of documents in
public libraries and community centers, speakers bureau and public displays.

C. When technical matters are considered with regard to docketed issues, or to
evaluate public testimony, due consideration shall be given to technical testimony from the
public and third party analysis may be sought when appropriate. (Ord. 13147 § 32, 1998).

20.18.170 The four to one program – process for amending the urban growth
area to achieve open space.

A. The total area added to the urban growth area as a result of this program shall
not exceed four thousand acres. The department shall keep a cumulative total for all parcels
added under this section. The total shall be updated annually through the plan amendment
process.

B. Proposals shall be processed as land use amendments to the Comprehensive
Plan and may be considered in the annual update, midpoint update or eight-year update.
Site suitability and development conditions for both the urban and rural portions of the
proposal shall be established through the preliminary formal plat approval process.

C. A term conservation easement shall be placed on the open space at the time the
four to one proposal is approved by the council. Upon final plat approval, the open space
shall be permanently dedicated in fee simple to King County.
D. Proposals adjacent to incorporated area or potential annexation areas shall be referred to the affected city and special purpose districts for recommendations. (Ord. 18810 § 16, 2018: Ord. 17485 § 9, 2012: Ord. 16263 § 5, 2008: Ord. 14047 § 9, 2001).

20.18.180 The four to one program – criteria for amending the urban growth area to achieve open space. Rural area land may be added to the urban growth area in accordance with the following criteria:

A. A proposal to add land to the urban growth area under this program shall meet the following criteria:
   1. A permanent dedication to the King County open space system of four acres of open space is required for every one acre of land added to the urban growth area;
   2. The land shall not be zoned agriculture (A);
   3. The land added to the urban growth area shall:
      a. be physically contiguous to urban growth area as adopted in 1994, unless the director determines that the land directly adjacent to the urban growth area contains critical areas that would be substantially harmed by development directly adjacent to the urban growth area and that all other criteria can be met; and
      b. not be in an area where a contiguous band of public open space, parks or watersheds already exists along the urban growth area boundary;
   4. The land added to the urban growth area shall be able to be served by sewers and other urban services;
   5. A road serving the land added to the urban area shall not be counted as part of the required open space;
   6. All urban facilities shall be provided directly from the urban area and shall not cross the open space or rural area and be located in the urban area except as permitted in subsection E of this section;
   7. Open space areas shall retain a rural designation;
   8. The minimum depth of the open space buffer shall be one half of the property width, unless the director determines that a smaller buffer of no less than two hundred feet is warranted due to the topography and critical areas on the site, shall generally parallel the urban growth area boundary and shall be configured in such a way as to connect with open space on adjacent properties;
   9. The minimum size of the property to be considered is twenty acres. Smaller parcels may be combined to meet the twenty-acre minimum;
   10. Urban development under this section shall be limited to residential development and shall be at a minimum density of four dwelling units per acre; and
   11. The land to be retained in open space is not needed for any facilities necessary to support the urban development; and

B. A proposal that adds two hundred acres or more to the urban growth area shall also meet the following criteria:
   1. The proposal shall include a mix of housing types including thirty percent below-market-rate units affordable to low, moderate and median income households;
   2. In a proposal in which the thirty-percent requirement in subsection B.1 of this section is exceeded, the required open space dedication shall be reduced to three and one-half acres of open space for every one acre added to the urban growth area;

C. A proposal that adds less than two hundred acres to the urban growth area and that meets the affordable housing criteria in subsection B.1. of this section shall be subject to a reduced open space dedication requirement of three and one-half acres of open space for every one acre added to the urban growth area;

D. Requests for redesignation shall be evaluated to determine those that are the highest quality, including, but not limited to, consideration of the following:
1. Preservation of fish and wildlife habitat, including wildlife habitat networks, and habitat for endangered and threatened species;
2. Provision of regional open space connections;
3. Protection of wetlands, stream corridors, ground water and water bodies;
4. Preservation of unique natural, biological, cultural, historical or archeological resources;
5. The size of open space dedication and connection to other open space dedications along the urban growth area boundary; and
6. The ability to provide extensions of urban services to the redesignated urban areas; and

E. The open space acquired through this program shall be preserved primarily as natural areas, passive recreation sites or resource lands for farming and forestry. The following additional uses may be allowed only if located on a small portion of the open space and provided that these uses are found to be compatible with the site's natural open space values and functions:

1. Trails;
2. Compensatory mitigation of wetland losses on the urban designated portion of the project, consistent with the King County Comprehensive Plan and K.C.C. chapter 21A.24; and
3. Active recreation uses not to exceed five percent of the total open space area. The support services and facilities for the active recreation uses may locate within the active recreation area only, and shall not exceed five percent of the total acreage of the active recreation area. The entire open space area, including any active recreation site, is a regional resource. It shall not be used to satisfy the on-site active recreation space requirements in K.C.C. 21A.14.180 for the urban portion of the four to one property. (Ord. 17485 § 10, 2012: Ord. 16263 § 6, 2008: Ord. 15606 § 1, 2006: Ord. 14047 § 10, 2001).

20.20.010 Chapter purpose. The purpose of this chapter is to establish standard procedures for land use permit applications, public notice, hearings and appeals in King County. These procedures are designed to promote timely and informed public participation in discretionary land use decisions; eliminate redundancy in the application, permit review, hearing and appeal processes; provide for uniformity in public notice procedures; minimize
delay and expense; and result in development approvals that implement the policies of the Comprehensive Plan. These procedures also provide for an integrated and consolidated land use permit and environmental review process consistent with chapter 347, laws of 1995. (Ord. 12196 § 8, 1996).

### 20.20.020 Classifications of land use decision processes.

A. Land use permit decisions are classified into four types, based on who makes the decision, whether public notice is required, whether a public hearing is required before a decision is made and whether administrative appeals are provided. The types of land use decisions are listed in subsection E. of this section.

1. Type 1 decisions are made by the permitting division manager or designee ("director") of the department of local services ("department"). Type 1 decisions are nonappealable administrative decisions.
2. Type 2 decisions are made by the director. Type 2 decisions are discretionary decisions that are subject to administrative appeal.
3. Type 3 decisions are quasi-judicial decisions made by the hearing examiner following an open record hearing. Type 3 decisions may be appealed to the county council, based on the record established by the hearing examiner.
4. Type 4 decisions are quasi-judicial decisions made by the council based on the record established by the hearing examiner.

B. Except as provided in K.C.C. 20.44.120A.7. and 25.32.080 or unless otherwise agreed to by the applicant, all Type 2, 3 and 4 decisions included in consolidated permit applications that would require more than one type of land use decision process may be processed and decided together, including any administrative appeals, using the highest-numbered land use decision type applicable to the project application.

C. Certain development proposals are subject to additional procedural requirements beyond the standard procedures established in this chapter.

D. Land use permits that are categorically exempt from review under SEPA do not require a threshold determination (determination of nonsignificance ["DNS"] or determination of significance ["DS"]). For all other projects, the SEPA review procedures in K.C.C. chapter 20.44 are supplemental to the procedures in this chapter.

E. Land use decision types are classified as follow:

| TYPE 1 | Temporary use permit for a homeless encampment under K.C.C. 21A.45.010, 21A.45.020, 21A.45.030, 21A.45.040, 24A.45.050, 21A.45.060, 21A.45.070, 21A.45.080 and 21A.45.090; building permit, site development permit, or clearing and grading permit that is not subject to SEPA, that is categorically exempt from SEPA as provided in K.C.C. 20.20.040, or for which the department has issued a determination of nonsignificance or mitigated determination of nonsignificance; boundary line adjustment; right of way; variance from K.C.C. chapter 9.04; shoreline exemption; decisions to require studies or to approve, condition or deny a development proposal based on K.C.C. chapter 21A.24, except for decisions to approve, condition or deny alteration exceptions; approval of a conversion-option harvest plan; a binding site plan for a condominium that is based on a recorded final planned unit development, a building permit, an as-built site plan for developed sites, a site development... |
permit for the entire site; approvals for agricultural activities and agricultural support services authorized under K.C.C. 21A.42.300; final short plat; final plat.

| TYPE 2<sup>1,2</sup> | (Decision by director appealable to hearing examiner, no further administrative appeal) | Short plat; short plat revision; short plat alteration; zoning variance; conditional use permit; temporary use permit under K.C.C. chapter 21A.32; temporary use permit for a homeless encampment under K.C.C. 21A.45.100; shoreline substantial development permit<sup>3</sup>; building permit, site development permit or clearing and grading permit for which the department has issued a determination of significance; reuse of public schools; reasonable use exceptions under K.C.C. 21A.24.070.B; preliminary determinations under K.C.C. 20.20.030.B; decisions to approve, condition or deny alteration exceptions under K.C.C. chapter 21A.24; extractive operations under K.C.C. 21A.22.050; binding site plan; waivers from the moratorium provisions of K.C.C. 16.82.140 based upon a finding of special circumstances. |
| TYPE 3<sup>1</sup> | (Recommendation by director, hearing and decision by hearing examiner, appealable to county council on the record) | Preliminary plat; plat alterations; preliminary plat revisions. |
| TYPE 4<sup>1,4</sup> | (Recommendation by director, hearing and recommendation by hearing examiner decision by county council on the record) | Zone reclassifications; shoreline environment redesignation; urban planned development; special use; amendment or deletion of P suffix conditions; plat vacations; short plat vacations; deletion of special district overlay. |

1 See K.C.C. 20.44.120.C. for provisions governing procedural and substantive SEPA appeals and appeals of Type 3 and 4 decisions to the council.
2 When an application for a Type 2 decision is combined with other permits requiring Type 3 or 4 land use decisions under this chapter, the examiner, not the director, makes the decision.
3 A shoreline permit, including a shoreline variance or conditional use, is appealable to the state Shorelines Hearings Board and not to the hearing examiner.
4 Approvals that are consistent with the Comprehensive Plan may be considered by the council at any time. Zone reclassifications that are not consistent with the Comprehensive Plan require a site-specific land use map amendment and the council's hearing and consideration shall be scheduled with the amendment to the Comprehensive Plan under K.C.C. 20.18.040 and 20.18.060.

20.20.030 Preapplication conferences.

A.1. Except as otherwise provided in subsection A.2. of this section, before filing a permit application the applicant shall contact the department to schedule a presubmittal project review to discuss the application requirements with the applicant and provide comments on the development proposal. The department shall credit any fees charged for the presubmittal project review towards the permit application fees provided for in K.C.C. Title 27.

2. A presubmittal project review is not required for over-the-counter permits or for proposals that require a mandatory preapplication conference under subsection B. of this section.

B. Before filing a permit application requiring a Type 2, 3 or 4 decision, the applicant shall contact the department to schedule a preapplication conference, which shall be held before filing the application. The purpose of the preapplication conference is to review and discuss the application requirements with the applicant and provide comments on the development proposal. The preapplication conference shall be scheduled by the department, at the request of an applicant, and shall be held within approximately thirty days from the date of the applicant's request. The department shall assign a project manager following the preapplication conference. The director may waive the requirement for a preapplication conference if the director determines the preapplication conference is unnecessary for review of an application. Nothing in this section shall be interpreted to require more than one preapplication conference or to prohibit the applicant from filing an application if the department is unable to schedule a preapplication conference within thirty days following the applicant's request.

C. Information presented at or required as a result of the preapplication conference shall be valid for a period of one year following the preapplication conference. An applicant wishing to submit a permit application more than one year following a preapplication for the same permit application shall be required to schedule another preapplication conference.

D. At or subsequent to a preapplication conference, the department may issue a preliminary determination that a proposed development is not permissible under applicable county policies or regulatory enactments. In that event, the applicant shall have the option to appeal the preliminary determination to the hearing examiner in the manner provided for a Type 2 permit, as an alternative to proceeding with a complete application. Mailed and published notice of the appeal shall be provided for as in K.C.C. 20.20.060 H. and I. (Ord. 17841 § 5, 2014: Ord. 16950 § 7, 2010: Ord. 16552 § 2, 2009: Ord. 13332 § 65, 1998: Ord. 12196 § 10, 1996).

20.20.035 Notice of community meeting required under K.C.C. chapter 21A.08 before filing application. When an applicant is required by K.C.C. chapter 21A.08 to conduct a community meeting, under this section, before filing of an application, notice of the meeting shall be given and the meeting shall be conducted as follows:

A. At least two weeks in advance, the applicant shall:
1. Publish notice of the meeting in the local paper and mail and email to the department; and
2. Mail notice of the meeting to all property owners within five hundred feet or at least twenty of the nearest property owners, whichever is greater, as provided in K.C.C. 21A.26.170 of any potential sites, identified by the applicant for possible development, to be discussed at the community meeting. The mailed notice shall, at a minimum, contain a brief description and purpose of the proposal, approximate location noted on an assessor
map with address and parcel number, photograph or sketch of any existing or proposed structures, a statement that alternative sites proposed by citizens can be presented at the meeting that will be considered by the applicant, a contact name and telephone number to obtain additional information and other information deemed necessary by the department of local services, permitting division. Because the purpose of the community meeting is to promote early discussion, applicants shall to note any changes to the conceptual information presented in the mailed notice when they submit an application;

B. At the community meeting at which at least one employee of the department of local services, permitting division, assigned by the permitting division manager or designee, shall be in attendance, the applicant shall provide information relative to the proposal and any modifications proposed to existing structures or any new structures and how the proposal is compatible with the character of the surrounding neighborhood. An applicant shall also provide with the applicant’s application a list of meeting attendees, those receiving mailed notice of the meeting and a record of the published meeting notice; and

C. The applicant shall, in the notice required under subsection A.2. of this section, and at the community meeting required under subsection B. of this section, advise that persons interested in the applicant’s proposal may monitor the progress of the permitting of that proposal by contacting the department or by viewing the department’s website, the address of which will be provided in the notice and at the community meeting. (Ord. 18791 § 151, 2018: Ord. 17420 § 88, 2012: Ord. 17416 § 13, 2012: Ord. 16950 § 10, 2010).

20.20.040 Application requirements.

A. The department shall not commence review of any application as provided in this chapter until the applicant has submitted the materials and fees specified for complete applications. Applications for land use permits requiring Type 1, 2, 3 or 4 decisions shall be considered complete as of the date of submittal upon determination by the department that the materials submitted meet the requirements of this section. Except as provided in subsection B. of this section, all land use permit applications described in K.C.C. 20.20.020.E. shall include the following:

1. An application form provided by the department and completed by the applicant that allows the applicant to file a single application form for all land use permits requested by the applicant for the development proposal at the time the application is filed;

2. Designation of who the applicant is, except that this designation shall not be required as part of a complete application for purposes of this section when a public agency or public or private utility is applying for a permit for property on which the agency or utility does not own an easement or right-of-way and the following three requirements are met:

   a. the name of the agency or private or public utility is shown on the application as the applicant;
   b. the agency or private or public utility includes in the complete application an affidavit declaring that notice of the pending application has been given to all owners of property to which the application applies, on a form provided by the department; and
   c. the form designating who the applicant is submitted to the department before permit approval;

3. a. A certificate of sewer availability or site design approval for an on-site sewage system by the Seattle-King County department of public health, as required by K.C.C. Title 13; or

   b. If allowed under K.C.C. 13.24.134.B. and the King County Comprehensive Plan policies for a public school located on a RA zoned site, a certificate of sewer availability and a letter from the sewer utility indicating compliance with the tightline sewer provisions in the zoning code, as required by K.C.C. chapter 13.24;

12. Certificate of transportation concurrency from the department of local services if required by K.C.C. chapter 14.70. The certificate of transportation concurrency may be for less than the total number of lots proposed by a preliminary plat application only if:
   a. at least seventy-five percent of the lots proposed have a certificate of transportation concurrency at the time of application for the preliminary plat;
   b. a certificate of transportation concurrency is provided for any remaining lots proposed for the preliminary plat application before the expiration of the preliminary plat and final recording of the additional lots; and
   c. the applicant signs a statement that the applicant assumes the risk that the remaining lots proposed might not be granted.
13. Certificate of future connection from the appropriate purveyor for lots located within the urban growth area that are proposed to be served by on-site or community sewage system and group B water systems or private well, if required by K.C.C. 13.24.136 through 13.24.140;
14. A determination if drainage review applies to the project pursuant to K.C.C. chapter 9.04 and, if applicable, all drainage plans and documentation required by the Surface Water Design Manual adopted pursuant to K.C.C. chapter 9.04 and to the extent known at the time of application and when determined necessary by the director, copies of any required storm water adjustments;

18. For site development permits only, a phasing plan and a time schedule, if the site is intended to be developed in phases or if all building permits will not be submitted within three years.

B. A permit application is complete for purposes of this section when it meets the procedural submission requirements of the department and is sufficient for continued processing even though additional information may be required or project modifications may be undertaken subsequently. The determination of completeness shall not preclude the department from requesting additional information or studies either at the time of notice of completeness or subsequently if new or additional information is required or substantial changes in the proposed action occur, as determined by the department.

C. Additional complete application requirements for the following land use permits are in the following sections of the King County Code:
4. Subdivision applications, short subdivision applications and binding site plan applications, K.C.C. 19A.08.150.

D. The director may;
   1. Specify the requirements of the site plan required to be submitted for various permits;
   2. Require additional materials not listed in this section when determined to be necessary for review of the project; and
   3. Waive any of the specific submittal requirements listed herein that are determined to be unnecessary for review of an application.

E. The applicant shall attest by written oath to the accuracy of all information submitted for an application.

20.20.050 Notice of complete application to applicant.

A. Within twenty-eight days following receipt of a land use permit application, the department shall mail or provide written notice to the applicant that the application is either complete or incomplete. If the application is incomplete, the notice shall state with specificity what is necessary to make the application complete. To the extent known by the department, the notice shall identify other agencies of local, state, regional or federal governments that may have jurisdiction over some aspects of the development proposal.

B. An application shall be deemed complete under this section if the department does not provide written notice to the applicant that the application is incomplete within the twenty-eight day period as provided herein.

C. If the application is incomplete and the applicant submits the additional information requested by the department, the department shall notify the applicant in writing within fourteen days whether the application is complete or what additional information specified by the department as provided in subsection A hereof is necessary to make the application complete. An application shall be deemed complete if the department fails to provide written notice to the applicant within the fourteen day period that the application is incomplete.

D. The date an application is deemed complete is the date of receipt by the department of all of the information necessary to make the application complete as provided in this chapter. The department's issuance of a notice of complete application as provided in subsections A or C hereof, or the failure of the department to provide such a notice as provided in subsections B or C hereof, shall cause an application to be conclusively deemed to be complete and vested as provided in this chapter.

E. The department may cancel an incomplete application if the applicant fails to submit the additional information required by this chapter within ninety days following notification from the department that the application is incomplete. (Ord. 12196 § 12, 1996).

20.20.060 Notice of application.

A. A notice of application shall be provided to the public for land use permit applications as follows:

43.21C RCW before the issuance of the notice of application, the notice of the DS shall
be combined with the notice of application and the scoping notice.

D. Unless the mailed notice of application is by a post card as provided in
subsection E. of this section, the notice of application shall contain the following
information:
1. The file number;
2. The name of the applicant;
3. The date of application, the date of the notice of completeness and the date of
the notice of application;

For the purpose of this section, a "substantial change" includes, but is not limited to, locating buildings closer to the nearest property line, increasing the proposed square footage of any buildings or changes that will lead to significant built or natural environmental impacts that were not addressed in the original development proposal. Except for decisions regarding shoreline substantial development permits, shoreline variances and shoreline conditional uses, which are only appealable to the state Shorelines Hearings Board, any administrative appeal or further consideration by the examiner is subject to K.C.C. chapter 20.22. (Ord. 18230 § 116, 2016: Ord. 16552 § 4, 2009: Ord. 13573 § 2, 1999: Ord. 13131 § 3, 1998: Ord. 13097 § 2, 1998: Ord. 12196 § 16, 1996).

F. The time limits established in this section may be exceeded on more complex projects. If the department is unable to issue its Type 1 or Type 2 decision or its Type 3 or Type 4 recommendation within the time limits established by this section, it shall provide written notice of this fact to the applicant. The notice shall include a statement of reasons why the time limits have not been met and an estimated date for issuance of the notice of a Type 1 or Type 2 decision or a Type 3 or Type 4 recommendation.

A full mitigation plan shall accompany each application, as provided in K.C.C. 20.18.057 and 20.18.058; and

D. Upon initiation of a site-specific land use map amendment to the Comprehensive Plan under K.C.C. 20.18.050, the examiner shall conduct a public hearing to consider the department’s written recommendation and to take testimony and receive additional evidence relating to the proposed amendment. Absent contrary evidence, the Metro transit officer's report is sufficient to fulfill the requirements of K.C.C. 20.22.130 and meet the department’s burden of proof. A criminal conviction for the same conduct underlying the suspension will be dispositive of any factual challenge to the suspension. A criminal conviction shall not be dispositive of any other challenge, such as a jurisdictional challenge, to the suspension. Exoneration or a finding of "not guilty" on a criminal charge for the same conduct underlying the suspension shall result in the examiner finding that the suspension lacks a sufficient factual basis and vacating the suspension. Dispositional continuances or deferred prosecutions shall have no bearing on the examiner's factual findings.

The examiner shall prepare findings to document the facts that support the action taken. Payment of a school impact fee as required by K.C.C. chapter 27.44 is not a substitute for phasing. The examiner shall recommend a fee payment schedule to coordinate that payment with any phasing, if the provision or payment satisfies the district and any deferral requirements. The examiner...

The examiner's determination shall identify the applicant or the owner, or both, by names and addresses.

2. Before the expiration of the applicable appeal period of subsection B., C. or D. of this section, a party may file with the examiner a motion requesting that the examiner reconsider a determination. A timely motion stays the timelines in subsections B., C. and D. of this section until the examiner rules on the motion. The examiner may grant the motion if the person making the motion shows that the determination was based in whole or in part on erroneous information or failed to comply with existing laws, regulations or adopted policies or if an error of procedure occurred that prevented consideration of the interest of persons directly affected by the action.

B.1. Examiner recommendations in cases identified in K.C.C. 20.22.060 may be appealed to the council by a party by filing an appeal statement in accordance with K.C.C. 20.22.230.

b. the council by motion may refer the matter to a council committee or remand to the examiner for the purpose of further hearing, receipt of additional information or further consideration when determined necessary before the council takes final action.

C. Decisions of the examiner that are appealable to the council as provided in K.C.C. 20.22.050 are final unless appealed to the council by filing an appeal statement in accordance with K.C.C. 20.22.230.

A. A person initiates an appeal to the council from an examiner recommendation or decision by filing an appeal statement with the clerk of the council and providing copies of the appeal statement to the examiner and to all parties.

B. The appeal statement must be received within twenty-four days of the date of the examiner's transmittal of the recommendation or decision.

C. The appeal statement shall:
   1. Include a copy of the decision being appealed;
   2. Identify the location of the property subject to the appeal;
   3. Identify the legal interest of the appellant;
   4. Identify the alleged errors in the decision;
   5. State specific reasons why the decision should be reversed or modified;
   6. State the harm suffered or anticipated by the party filing the appeal; and
   7. Identify the relief sought.

D. The person filing an appeal shall pay a fee as prescribed in K.C.C. 4A.780.010. The fee shall be paid at the time the appeal is filed and is not refundable.

E. The scope of an appeal shall be limited to matters or issues raised in the appeal statement.

F. If a person fails to timely file the appeal statement or pay the appeal fee, the council does not have jurisdiction to consider the appeal.

G. Within three days of receiving the appeal statement, the examiner shall notify all interested persons and parties of the appeal filing and of the opportunity to respond and shall post a copy of the examiner recommendation or decision and of the appeal statement on the internet.

H. Within seventeen days of the date the appeal statement is filed, a respondent shall file a response with the clerk of the council and provide copies of the response to the examiner, to all parties and to the appellant.

I. Within ten days of the date the response is filed, an appellant may file a reply with the clerk of the council, providing copies of the reply to the examiner, to all parties and to the respondent.

J. For purposes of this section, "file" means submitting a paper copy and an electronic copy to the clerk of the council. (Ord. 18230 § 46, 2016).

A. The council shall process appeals as expeditiously as possible, giving consideration to the procedural due process rights of the parties. The council should schedule consideration of the appeal within sixty days of the filing of the response to the appeal statement. Failure of the council to consider the appeal within the time limit does not terminate the council's jurisdiction.
B. The council’s consideration of an appeal from either a decision or recommendation of the examiner shall be based upon the record as presented to the examiner at the public hearing and upon written appeal statements based upon the record. The council also may allow parties a period for oral argument based on the record. Consistent with RCW 36.70B.020(1) and upon the request of a councilmember, the examiner or may provide a written or oral summary, or both, of the record, issues and arguments presented in an appeal and may provide answers, based on the record, to questions with respect to issues raised in the appeal. Nothing in this subsection shall be construed as limiting the ability of the council to seek and receive legal advice regarding a pending appeal from the office of the prosecuting attorney or other county legal counsel either within or outside of the hearing.

C. An examiner may conduct a conference with all parties for the purpose of clarifying or attempting to resolve issues on appeal, but the examiner who conducted the public hearing on the proposal may not conduct the conference. The conference shall be informal and shall not be part of the public record.

D. If, after consideration of the record, written appeal statements and any oral argument the council determines that:
   1. An error in fact or procedure exists or additional information or clarification is desired, the council shall remand the matter to the examiner; or
   2. The examiner's decision or recommendation is based on an error in judgment or conclusion, the council may modify or reverse the examiner's [decision or]* recommendation, or the council may retain the matter, refer it to a council committee or remand to the examiner for further hearing, receipt of additional information or further consideration before the council takes final action on the matter. 20.36.100 Public benefit rating system for open space land-definitions and eligibility. A. To be eligible for open space classification under the public benefit rating system, property must contain one or more qualifying open space resources and have at least five points as determined under this section. The department shall review each application and recommend award of credit for current use of property that is the subject of the application. In making such a recommendation, the department shall utilize the point system described in subsections B. and C. of this section. B. The following open space resources are each eligible for the points indicated:

1. Public recreation area - five points. For the purposes of this subsection B.1, "public recreation area" means land devoted to providing active or passive recreation use or that complements or substitutes for recreation facilities characteristically provided by public agencies. Use of motorized vehicles is prohibited on land receiving tax reduction for this category, except for golf carts on golf courses, for maintenance or for medical, public safety or police emergencies. To be eligible as a public recreation area, the facilities must be open to the general public or to specific public user groups, such as youth, senior citizens or people with disabilities. A property must be identified by the responsible agency within whose jurisdiction the property is located as meeting the definition of public recreation area.
If a property meets the definition of public recreation area, the property owner must use best practices, if any, that are defined in K.C.C. chapter 21A.06. If a fee is charged for use, it must be comparable to the fee charged by a like public facility;

2. Aquifer protection area-five points. For the purposes of this subsection B.2, "aquifer protection area" means property that has a plant community in which native plants are dominant and that includes an area designated as a critical aquifer recharge area under K.C.C. chapter 21A.24 or applicable city critical aquifer recharge area regulations. To be eligible as an aquifer protection area, at least fifty percent of the enrolling open space area or a minimum of one acre of open space shall be designated as a critical aquifer recharge area. If the enrolling open space area does not have a plant community in which native plants are dominant, a plan for revegetation must be submitted and approved by the department, and be implemented according to the plan's proposed schedule of activities;

3. Buffer to public or current use classified land - three points. For the purposes of this subsection B.3, "buffer to public or current use classified land" means land that has a plant community in which native plants are dominant or has other natural features, such as streams or wetlands, and that is adjacent and provides a buffer to a publicly owned park, trail, forest, land legally required to remain in a natural state or a state or federal highway or is adjacent to and provides a buffer to a property participating in a current use taxation program under chapter 84.33 or 84.34 RCW. The buffer shall be no less than fifty feet in length and fifty feet in width. Public roads may separate the public land, or land in private ownership classified under chapter 84.33 or 84.34 RCW, from the buffering land, if the entire buffer is at least as wide and long as the adjacent section of the road easement. Landscaping or other nonnative vegetation shall not separate the public land or land enrolled under chapter 84.33 or 84.34 RCW from the native vegetation buffer. The department may grant an exception to the native vegetation requirement for property along parkways with historic designation, upon review and recommendation of the historic preservation officer of King County or the local jurisdiction in which the property is located. Eligibility for this exception does not extend to a property where plantings are required or existing plant communities are protected under local zoning codes, development mitigation requirements or other local regulations;

4. Equestrian-pedestrian-bicycle trail linkage - thirty-five points. For the purposes of this subsection B.4, "equestrian-pedestrian-bicycle trail linkage" means land in private ownership that the property owner allows the public to use as an off-road trail linkage for equestrian, pedestrian or other nonmotorized uses or that provides a trail link from a public right-of-way to a trail system. Use of motorized vehicles is prohibited on trails receiving a tax reduction for this category, except for maintenance or for medical, public safety or police emergencies. Public access is required only on that portion of the property containing the trail. The landowner may impose reasonable restrictions on access that are mutually agreed to by the landowner and the department, such as limiting use to daylight hours. To be eligible as an equestrian-pedestrian-bicycle trail linkage, the owner shall provide a trail easement to an appropriate public or private entity acceptable to the department. The easement shall be recorded with the records and licensing services division. In addition to the area covered by the trail easement, adjacent land used as pasture, barn or stable area and any corral or paddock may be included, if an approved and implemented farm management plan is provided. Land necessary to provide a buffer from the trail to other nonequestrian uses, land that contributes to the aesthetics of the trail, such as a forest, and land set aside and marked for off road parking for trail users may also be included as land eligible for current use taxation. Those portions of private roads, driveways or sidewalks open to the public for this purpose may also qualify. Fencing and gates are not allowed in the trail easement area, except those that are parallel to the trail or linkage;

5. Active trail linkage - fifteen or twenty-five points. For the purposes of this subsection B.5., "active trail linkage" means land in private ownership through which the
owner agrees to allow nonmotorized public passage, for the purpose of providing a connection between trails within the county's regional trails system and local or regional attractions or points of interest, for trail users including equestrians, pedestrians, bicyclists and other users. For the purposes of this subsection B.5., "local or regional attractions or points of interest" include other trails, parks, waterways or other recreational and open space attractions, retail centers, arts and cultural facilities, transportation facilities, residential concentrations or similar destinations. To be eligible as an active trail linkage, the linkage must be open to passage by the general public and the property owner must enter into an agreement with the county consistent with applicable parks and recreation division policies to grant public access. To receive twenty-five points, the property owner must enter into an agreement with the county regarding improvement of the trail, including trail pavement and maintenance. To receive fifteen points, the property owner must agree to allow a soft-surface, nonpaved trail. The parks and recreation division is authorized to develop criteria for determining the highest priority linkages for which it will enter into agreements with property owners.

For the purposes of this subsection B.6., "farm and agricultural conservation land" means land previously classified as farm and agricultural land under RCW 84.34.020 that no longer meets the criteria of farm and agricultural land, or traditional farmland not classified under chapter 84.34 RCW that has not been irrevocably devoted to a use inconsistent with agricultural uses and has a high potential for returning to commercial agriculture. To be eligible as farm and agricultural conservation land, the property must be used for farm and agricultural activities or have a high probability of returning to agriculture and the property owner must commit to return the property to farm or agricultural activities by implementing a farm management plan. An applicant must have an approved farm management plan in accordance with K.C.C. 21A.24.051 that is acceptable to the department and that is being implemented according to its proposed schedule of activities before receiving credit for this category. If reforestation or improvements to the forest health are necessary, the property owner shall provide and implement a forest stewardship, resource restoration or rural stewardship plan that addresses this need and is acceptable to the department.
C. Property qualifying for an open space category in subsection B. of this section may receive credit for additional points as follows:

1. Resource restoration - five points. For the purposes of this subsection C.1, "resource restoration" means restoration of an enrolling area benefiting an area in an open space resource category. Emphasis shall be placed on restoration of anadromous fish rearing habitat, riparian zones, migration corridors and wildlife, upland, stream and wetland habitats. To be eligible as resource restoration, the owner must provide and implement a restoration plan developed in cooperation with the Soil Conservation Service, the state Department of Fisheries and Wildlife, King County or other appropriate local or county agency that is acceptable to the department. Historic resource restoration must be approved by the King County historic preservation officer or officer of another certified local government and must be accompanied by a long-term maintenance plan. For resource restoration credit, the owner shall provide to the department a yearly monitoring report for at least five years following enrollment in the public benefit rating system program. The report shall describe the progress and success of the restoration project and shall include photographs to document the success. Land receiving credit for this category shall not receive credit for the forest stewardship land category or the rural stewardship land category;

2. Additional surface water quality buffer - three or five points. For the purposes of this subsection C.2, "additional surface water quality buffer" means an undisturbed area of native vegetation adjacent to a lake, pond, stream, wetland or marine water providing a buffer width of at least twice that required by regulation. To be eligible as additional surface water quality buffer, the property must qualify for the surface water quality buffer category in subsection B. of this section. Three points are awarded for additional buffers no less than two times the buffer width required by any applicable regulation. Five points are awarded for additional buffers no less than three times the buffer width required by any applicable regulation;

3. Contiguous parcels under separate ownership - two points per participating owner above one owner. The points under this subsection C.3 accrue to all of the owners of a single application. However, the withdrawal of a participating property by an owner results in the loss of two points to the total credit awarded for each of the remaining owners under this subsection C.3. For the purposes of this subsection C.3, "contiguous parcels" means either:
   a. enrolling parcels abut each other without any significant natural or human-made barrier separating them; or
   b. enrolling parcels abut a publicly owned open space but not necessarily abut each other without any significant natural or human-made barriers separating the publicly owned open space and the parcels seeking open space classification. Contiguous parcels of land with the same qualifying public benefit rating system resources are eligible for treatment as a single parcel if open space classification is sought under the same application except as otherwise prohibited by the farm and agricultural conservation land category. Award of this category requires a single application by multiple owners and parcels with identical qualifying public benefit rating system resources. Treatment as contiguous parcels shall include the requirement to pay only a single application fee and the requirement that the total area of all parcels combined must equal or exceed any required minimum area, rather than each parcel being required to meet the minimum area. Individual parcels may be withdrawn from open space classification consistent with all applicable rules and regulations without affecting the continued eligibility of all other parcels accepted under the same application, but the combined area of the parcels remaining in open space classification must still qualify for their original enrolling public benefit rating system category or categories. To be eligible as contiguous parcels under separate ownership, the property must include two or more parcels under different ownership. The owners of each parcel
4. Conservation easement or historic preservation easement - fifteen points. For the purposes of this subsection C.4, "conservation easement or historic preservation easement" means land on which an easement is voluntarily placed that restricts, in perpetuity, further potential development or other uses of the property. The granting of this conservation easement or historic preservation easement provides additional value through permanent protection of a resource. These easements are typically donated or sold to a government or nonprofit organization, such as a land trust or conservancy. To be eligible as conservation easement or historic preservation easement, the easement must be approved by the department and be recorded with the records and licensing services division. The easement shall be conveyed to the county or to an organization acceptable to the department. In addition, historic preservation easements shall also be approved by the historic preservation officer of King County or officer of another certified local government jurisdiction in which the property is located. An easement required by zoning, subdivision conditions or other land use regulation is not eligible unless an additional substantive easement area is provided beyond that otherwise required;

5. Public access - points depend on type and frequency of access allowed. For the purposes of this subsection C.5, "public access" means the general public is allowed access on an ongoing basis for uses such as, but not limited to, recreation, education or training. Access must be allowed on only the portion of the property that is designated for public access. The landowner may impose reasonable restrictions on access, such as limiting use to daylight hours, that are mutually agreed to by the landowner and the department. No physical barriers may limit reasonable public access or negatively affect an open space resource. To be eligible for public access at one of the levels described in a. through d. of this subsection C.5, a property owner shall demonstrate that the property is open to public access and is used by the public. Public access points for historic properties shall be approved by the historic preservation officer of King County or officer of another certified local government jurisdiction in which the property is located. The property owner may be required to furnish and maintain signage according to county specifications.

   a. Unlimited public access - five points. Year-round access by the general public is allowed on the enrolled parcel without special arrangements with the property owner.

   b. Limited public access because of resource sensitivity - five points. Access may be reasonably limited by the property owner on the enrolled parcel due to the sensitive nature of the resource, with access provided only to appropriate user groups. The access allowed shall generally be for an educational, scientific or research purpose and may require special arrangements with the owner.

   c. Environmental education access - three points. The landowner enters into an agreement with a school, an organization with 26 U.S.C. Sec. 501(c)(3) tax status, or with the agreement of the department, other community organization that allows membership by the general public to provide environmental education on the enrolled parcel to its members or the public at large. The landowner and the department must mutually agree that the enrolled parcel has value for environmental education purposes.

   d. Seasonally limited public access - three points. Access by the public is allowed on the enrolled parcel, without special arrangements with the property owner, during only part of the year based on seasonal conditions, as mutually agreed to by the landowner and the department.

   e. None or members-only - zero points. No public access is allowed or the access is allowed only by members of the organization using or owning the land; and

6. Easement and access - thirty five points. For the purposes of this subsection C.6, "easement and access" means that the property has at least one qualifying open space resource, unlimited public access or limited public access due to resource sensitivity, and a
conservation easement or historic preservation easement in perpetuity in a form and with conditions acceptable to the department. To be eligible a property must receive credit for an open space category and for the conservation easement or historic easement in perpetuity category. The owner must agree to allow public access to the portion of the property designated for public access in the easement. An easement required by zoning, subdivision conditions or other land use regulation is not eligible, unless there is additional easement area beyond that required. Credit for this category cannot overlap with the equestrian-pedestrian-bicycle trail linkage category. (Ord. 18683 § 40, 2018: Ord. 17052 § 8, 2011: Ord. 16942 § 1, 2010: Ord. 15971 § 91, 2007: Ord. 15137 § 5, 2005: Ord. 15028 § 3, 2004: Ord. 14259 § 6, 2001: Ord. 14199 § 229, 2001: Ord. 12969 § 3, 1998: Ord. 11796 § 3, 1995: Ord. 10778 § 3, 1993: Ord. 10511 § 7, 1992).

20.36.110 Current use taxation of timber land. Classification of timber land for current use taxation under chapter 84.34 RCW shall be in accordance with the following criteria:

A. The property to be classified shall contain not less than five and not more than twenty acres of timber land;
B. The property must be within an established F (forest resource), A (agriculture) or RA (rural area) zone; and

20.36.120 Assessor to approve or disapprove agricultural applications. The county assessor shall approve or disapprove all applications for farm and agricultural classification with due regard to all relevant evidence. These applications shall be deemed to have been approved unless, prior to the first of May of the year after such application was mailed or delivered to the assessor, the assessor notifies the applicant in writing to the extent to which the application is denied. (Ord. 18683 § 41, 2018: Ord. 1886 § 11, 1974).

20.36.130 Time limit for farm and agricultural appeals and removal appeals.
A. An applicant for current assessment of farm and agricultural land who receives notice in writing from the county assessor that the application has been denied may appeal such denial to the county council by filing a written appeal with the clerk of the county council within twenty-one calendar days of the date of the assessor's written notice of denial.
B. An owner of classified land who receives notice in writing from the county assessor that all or a portion of such land has been removed from current use classification may appeal such removal to the county board of equalization by filing a written appeal with the clerk of the board of equalization within thirty calendar days of the date of the assessor's written notice of removal. (Ord. 18683 § 42, 2018: Ord. 1886 § 12, 1974).

20.36.160 Assessed valuation schedule-public benefit rating system for open space land. The public benefit rating system for open space land bases the level of assessed fair market value reduction on the total number of awarded points. The market value reduction establishes the current use value. This current use value will be expressed as a percentage of market value based on the public benefit rating of the property and the valuation schedule below:

<table>
<thead>
<tr>
<th>Public Benefit Rating</th>
<th>Current Use Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-4 points</td>
<td>100% of market value</td>
</tr>
<tr>
<td>5-10 points</td>
<td>50% of market value</td>
</tr>
<tr>
<td>11-15 points</td>
<td>40% of market value</td>
</tr>
</tbody>
</table>
20.36.165 Determination of public benefit values-split parcels. The public benefit value for those portions of parcels accepted into the open space program where no further subdivision is permitted due to minimum lot size requirements shall be equal to the same percentage of overall assessed value the portion represents of the total parcel size, further reduced by the current use assessed valuation schedule. (Ord. 11195 § 4, 1994).

20.36.170 Review of previously approved open space applications. In accordance with chapter 84.34 RCW, the department shall reevaluate open space property that has been approved for current use assessment before August 28, 1992, where the revaluation has not been completed before April 1, 2005. The landowner shall be notified of the new assessed value in the manner described in RCW 84.40.045. The property owner may request removal of all, or a portion of, the property from open space classification by notifying the department in writing within thirty days after the notification required by this section has been mailed to the owner without incurring back taxes, interest and penalty, in accordance with WAC 458-30-340. (Ord. 15137 § 9, 2005: Ord. 10511 § 8, 1992).

20.36.180 Report and evaluation. The executive shall submit an annual report to the council with details the extent of participation in the public benefit rating system. The council shall reevaluate the public benefit rating system program two years from August 17, 1992, to assess the progress of the program. (Ord. 10511 § 9, 1992).

20.36.190 Evaluation and approval of open space resource applications.
A. A property may achieve a maximum of a ninety-percent reduction in assessed value of that portion of the land enrolled in the public benefit rating system through the rating system and the bonus categories. Portions of a property may qualify for open space designation. A plant community where native plants are dominant that does not independently contain a qualifying open space resource can participate if it is contiguous to and provides a benefit to a portion of the property being awarded credit for a qualifying open space priority resource. The department shall evaluate a property for which open space classification is sought under this chapter for the presence of open space resource categories. Adjacent parcels of land with the same open space resources, owned by one or more landowners, may be eligible for consideration as a single parcel if open space classification is sought under the same application, except for property pursuing credit for the farm and agricultural conservation land category, which must be owned by the same owner or held under the same ownership. For the purpose of determining buffer measurements under this chapter, the width is the distance perpendicular to the edge of the resource and the length of the buffer is parallel to the resource. The entire buffer width may be averaged to qualify for a resource category.
B.1. The presence or occurrence of an eligible open space resource shall be verified by:
   a. reference to a recognized source, such as:
      (1) the natural heritage data base;
      (2) the state office of historic preservation;
      (3) state, national, county or city registers of historic places;
      (4) the interagency committee for outdoor recreation inventory of dry accretion beach and shoreline features;
      (5) the shoreline master program;
(6) parks and recreation studies; or
(7) studies by the state Department of Fish and Wildlife or Department of Natural Resources; or
   b. reference to a map developed by the county or other recognized authority.

2. Alternatively, the existence of the resource may be verified using the best available source, such as a recognized expert in the particular resource being reviewed.

3. When more than one reasonable interpretation can be supported by the text of this chapter, the department is authorized to make a determination relating to the open space resource definitions and eligibility standards in accordance with the purpose and intent of this chapter. The department is authorized to calculate the appropriate area of land to receive credit for a particular priority resource to support the assessor’s determination of the accompanying tax reduction for each priority resource.

C. Management or preservation of the open space resources is a condition for acceptance into the program. Each open space resource must be maintained in the same or better condition as it was when approved for enrollment. The property owner shall not engage in any activity that reduces the value of the open space resource, unless that activity is required for public safety and is conducted lawfully under appropriate permits. As a condition of enrollment into the program, the department may require the development of a plan acceptable to the department to restore any property whose open space resources are degraded. In addition, if an existing approved plan for farm and agricultural conservation land, forest stewardship land, rural stewardship land or resource restoration category has a management schedule or management goals that are out of date or otherwise require change, the owner is responsible for revising the plan. Any such revisions to the plan must be reviewed and accepted by the department.

D. The county’s acceptance of property into the public benefit rating system may be based on specific conditions or requirements being met, including, but not limited to, the granting of easements.

E. Except as otherwise provided in this chapter, the following properties or areas are not eligible for open space classification:
   1. Improvements or structures situated upon eligible open space land;
   2. Properties that do not contain a qualifying open space priority resource;
   3. Open space areas protected by a native growth, forest retention or other covenant that is required as part of a development process or subdivision, or required by zoning or other land use regulation, except such an area would be eligible if its participation provides further public benefit and there is enrollment of at least ten percent additional open space beyond that restricted or required by applicable covenant or regulation. The additional acreage provided must be acceptable to the department and feature a plant community where native plants are dominant or that will be dominant following the implementation of an approved farm management, forest stewardship, resource restoration or rural stewardship plan;
   4. Any portion of a property that is dominated by or whose resource value is compromised by invasive plant species, unless the department has received a resource restoration, rural stewardship, farm management or forest stewardship plan and determined that the plan addresses the invasive plant species concern and that the plan [has been provided] and is being implemented; and
   5. Homesite and other areas developed for residential or personal use, such as garden, landscaping and driveway, except for historic resources.

F. The department may monitor the participating portion of the property to evaluate its current use and the continuing compliance with the conditions under which open space classification was granted.
   1. Monitoring may include scheduled, physical inspections of the property.
2. An owner of property enrolled in the program may be required to submit a monitoring report on an annual or less frequent basis as requested by program staff. This report must include a brief description of how the property still qualifies for each awarded resource category. It must also include photographs from established points on the property and any observations by the owner. The owner must submit this report to the department by email or by other mutually agreed upon method. An environmental consultant need not prepare this report.

3. An owner of property receiving credit for farm and agricultural conservation land, forest stewardship land, or rural stewardship land, all of which require a stewardship or management plan, must annually provide a monitoring report that describes progress of implementing the plan. The owner must submit this report, which must include a brief description of activities taken to implement the plan and photographs from established points on the property, to the department by email or by other mutually agreed upon method. An environmental consultant need not prepare this report.

G. Failure by the owner to meet the conditions of the approval or to maintain the uses of the property that were the basis for the original approval shall be grounds for the department to reevaluate the property under the public benefit rating system. If the reevaluation shows the property or a portion of the property is no longer eligible to participate in the program because it does not qualify for any public benefit rating system category as originally approved, the county shall take action to remove the current use classification and determine the amount of deferred taxes, interest and penalty owed by the landowner. An appeal by the landowner from such a determination may be filed as provided for in K.C.C. 20.36.130.B. If the reevaluation shows the property or a portion thereof is no longer eligible as approved but that the property still qualifies for one or more public benefit rating system resource categories, then the overall credit award shall be adjusted to reflect the reevaluation. The new credit award may result in a current use assessment at a lower percentage of market value than was originally approved. (Ord. 17052 § 10, 2011: Ord. 15137 § 10, 2005).

*Reviser’s note: Deleted in Ordinance 17052, but not in the form required by K.C.C. 1.24.075.

20.36.200 Outreach by department. The department shall undertake an outreach effort to actively encourage participation by eligible landowners in obtaining open space classification under the public benefit rating system, with emphasis on rural stewardship, aquifer protection areas, farm and agricultural conservation lands, forest stewardship lands, rural open space lands, and watershed protection areas. This outreach must include, among other elements, communications with community groups, civic organizations, volunteer associations and similar organizations, to:
A. Highlight the benefits of the program;
B. Seek participation by qualifying landowners;
C. Seek communications with local media outlets; and
D. Seek participation in workshops by the department related to farm management planning, forest management planning and rural stewardship planning. (Ord. 15137 § 11, 2005).

The director of such department shall serve as the responsible official. Department directors may transfer lead agency and responsible official responsibility to any county department which agrees to perform as lead agency or may delegate such responsibility to divisions within their own departments.
B. With respect to actions initiated by the county council, the council shall refer such proposals to the county executive for designation of a county department as lead agency.

A. The optional provision of WAC 197-11-060(3)(c) is adopted.

C. The department of local services, permitting division, may set reasonable deadlines for the submittal of information, studies, or documents necessary for, or subsequent to, threshold determinations. Failure to meet such deadlines shall cause the application to be deemed withdrawn, and plans or other data previously submitted for review may be returned to the applicant together with any unexpended portion of the application review fees. (Ord. 18791 § 156, 2018: Ord. 17420 § 91, 2012: Ord. 14449 § 4, 2002: Ord. 8998 § 1, 1989: Ord. 8236 § 1, 1987: Ord. 7990 § 35, 1987: Ord. 6949 § 5, 1984).

A. King County adopts the standards and procedures specified in WAC 197-11-300 through 197-11-390 and 197-11-800 through 197-11-890 for determining categorical exemptions and making threshold determinations subject to the following:

1. The following exempt threshold levels are hereby established in accordance with WAC 197-11-800(1)(c) for the exemptions in WAC 197-11-800(1)(b):
   a. The construction or location of any residential structures of twenty dwelling units within the boundaries of an urban growth area, or of any residential structures of eight dwelling units outside of the boundaries of an urban growth area;
   b. The construction of a barn, loafing shed, farm equipment storage building, produce storage or packing structure, or similar agricultural structure, covering thirty thousand square feet on land zoned agricultural, or fifteen thousand square feet in all other zones, and to be used only by the property owner or agent in the conduct of farming the property. This exemption shall not apply to feed lots;
   c. The construction of an office, school, commercial, recreational, service or storage building with twelve thousand square feet of gross floor area, and with associated parking facilities designed for forty automobiles;
   d. The construction of a parking lot designed for forty automobiles;
   e. Any fill or excavation of five hundred cubic yards throughout the total lifetime of the fill or excavation and any fill or excavation classified as a class I, II, or III forest practice under RCW 76.09.050 or regulation thereunder: The categorical exemption threshold shall be one hundred cubic yards for any fill or excavation that is in an aquatic area, wetland, steep slope or landslide hazard area. If the proposed action is to remove from or replace fill in an aquatic area, wetland, steep slope or landslide hazard area to correct a violation, the threshold shall be five hundred cubic yards.

2. The determination of whether a proposal is categorically exempt shall be made by the county department that serves as lead agency for that proposal.

B. The mitigated DNS provision of WAC 197-11-350 shall be enforced as follows:

1. If the department issues a mitigated DNS, conditions requiring compliance with the mitigation measures which were specified in the application and environmental checklist shall be deemed conditions of any decision or recommendation of approval of the action.

2. If at any time the proposed mitigation measures are withdrawn or substantially changed, the responsible official shall review the threshold determination and, if necessary, may withdraw the mitigated DNS and issue a DS. (Ord. 18683 § 44, 2018: Ord. 16263 § 10, 2008: Ord. 14449 § 5, 2002: Ord. 12196 § 46, 1996: Ord. 11792 § 16, 1995: Ord. 9103, 1989: Ord. 8236 § 2, 1987: Ord. 6949 § 6, 1984).

20.44.050 Environmental impact statements and other environmental documents. The procedures and standards for preparation of environmental impact statements and other environmental documents pursuant to WAC 197-11-400 through 197-11-460 and 197-11-600 through 197-11-640 are adopted, subject to the following:

A. Pursuant to WAC 197-11-408(2)(a), all comments on determinations of significance and scoping notices shall be in writing, except where a public meeting on EIS scoping occurs pursuant to WAC 197-11-410(1)(b).

B. Pursuant to WAC 197-11-420, 197-11-620, and 197-11-625, the county department acting as lead agency shall be responsible for preparation and content of EIS's and other environmental documents. The department shall contract with consultants as necessary for the preparation of environmental documents. The department may consider the opinion of the applicant regarding the qualifications of the consultant but the department shall retain sole authority for selecting persons or firms to author, co-author, provide special services or otherwise participate in the preparation of required environmental documents.

C. Consultants or subconsultants selected by King County to prepare environmental documents for a private development proposal shall not: act as agents for the applicant in preparation or acquisition of associated underlying permits; have a financial interest in the proposal for which the environmental document is being prepared; perform any work or provide any services for the applicant in connection with or related to the proposal.

D. The department shall establish and maintain one or more lists of qualified consultants who are eligible to receive contracts for preparation of environmental documents. Separate lists may be maintained to reflect specialized qualifications or expertise. When the department requires consultant services to prepare environmental documents, the department shall select a consultant from the lists and negotiate a contract for such services. The department director may waive these requirements as provided for in rules adopted to implement this section. Subject to K.C.C. 20.44.145 and pursuant to K.C.C. 2.98, the department of local services shall adopt public rules that establish processes to: create and maintain a qualified consultant list; select consultants from the list; remove consultants from the list; provide a method by which applicants may request a reconsideration of selected consultants based upon costs, qualifications, or timely production of the environmental document; and waive the consultant selection requirements of this chapter on any basis provided by K.C.C. chapter 2.93.

E. All costs of preparing the environment document shall be borne by the applicant. Subject to K.C.C. 20.44.145 and pursuant to K.C.C. chapter 2.98, the department of local services shall promulgate administrative rules which establish a trust fund for consultant payment purposes, define consultant payment schedules, prescribe procedures for treating interest from deposited funds, and develop other procedures necessary to implement this chapter.

F. In the event an applicant decides to suspend or abandon the project, the applicant must provide formal written notice to the department and consultant. The applicant shall continue to be responsible for all monies expended by the division or consultants to the point of receipt of notification to suspend or abandon, or other obligations or penalties under the terms of any contract let for preparation of the environmental documents.

G. The department shall only publish an environmental impact statement (EIS) when it believes that the EIS adequately disclose: the significant direct, indirect, and cumulative adverse impacts of the proposal and its alternatives; mitigation measures proposed and committed to by the applicant, and their effectiveness in significantly mitigating impacts; mitigation measures that could be implemented or required; and unavoidable significant adverse impacts. Unless otherwise agreed to by the applicant, a final environmental impact statement shall be issued by the department within two hundred seventy days following the issuance of a DS for the proposal, except for public projects and nonproject actions, unless
the department determines at the time of issuance of the DS that a longer time period will be required because of the extraordinary size of the proposal or the scope of the environmental impacts resulting therefrom; provided that the additional time shall not exceed ninety days unless agreed to by the applicant.

H. The following periods shall be excluded from the two hundred seventy day time period for issuing a final environmental impact statement:
   1. Any time period during which the applicant has failed to pay required environmental review fees to the department;
   2. Any period of time during which the applicant has been requested to provide additional information required for preparation of the environmental impact statement, and

20.44.060 Comments and public notice. 
A. The procedures and standards of WAC 197-11-500 through 197-11-570 are adopted regarding public notice and comments.
B. For purposes of WAC 197-11-510, public notice shall be required as provided in K.C.C. Title 20. Publication of notice in a newspaper of general circulation in the area where the proposal is located also shall be required for all nonproject actions and for all other proposals that are subject to the provisions of this chapter but are not classified as land use permit decisions in K.C.C. Title 20.
C. The responsible official may require further notice if deemed necessary to provide adequate public notice of a pending action. For the purposes of RCW 43.21C.060 and WAC 197-11-660, the following policies, plans, rules and regulations, and all amendments thereto, are designated as potential bases for the exercise of King County's substantive authority under SEPA, subject to RCW 43.21C.240 and subsection C of this section:
   1. The policies of the state Environmental Policy Act, RCW 43.21C.020.

C. Within the urban growth area, substantive SEPA authority to condition or deny new development proposals or other actions shall be used only in cases where specific adverse environmental impacts are not addressed by regulations as set forth below or unusual circumstances exist. In cases where the county has adopted the following regulations to systematically avoid or mitigate adverse impacts, those standards and regulations will normally constitute adequate mitigation of the impacts of new development: K.C.C. chapter 9.04, Surface Water Runoff Policy, K.C.C. chapter 9.08, Surface Water Management Program, K.C.C. chapter 9.12, Water Quality, K.C.C. chapter 14.42, King County Road Standards, K.C.C. chapter 16.82, Clearing and Grading, K.C.C. chapter 21A.12, Development Standards - Density and Dimensions, K.C.C. chapter 21A.14, Development Standards - Design Requirements, K.C.C. chapter 21A.16, Development Standards - Landscaping and Water Use, K.C.C. chapter 21A.18, Development Standards - Parking and Circulation, K.C.C. chapter 21A.20, Development Standards - Signs, K.C.C. chapter 21A.22, Development Standards - Mineral Extraction, K.C.C. chapter 21A.24, Critical Areas, K.C.C. chapter 21A.26, Development Standards - Communication Facilities, K.C.C. chapter 21A.28, Development Standards - Adequacy of Public Facilities and Services. Unusual circumstances related to a site or to a proposal, as well as environmental impacts not mitigated by the regulations listed in this subsection, will be subject to site-specific or project-specific SEPA mitigation.

This subsection shall not apply if the county's development regulations cited in this subsection are amended after April 22, 1996, unless the amending ordinance contains a finding, supported by documentation, that the requirements for environmental analysis, protections and mitigation measures in this chapter, provide adequate analysis of and mitigation for the specific adverse environmental impacts to which the requirements apply.

D. Outside the urban growth area, in the course of project review, including any required environmental analysis, the responsible official may determine that requirements for environmental analysis, protection and mitigation measures in the county's development
regulations or comprehensive plans adopted under chapter 36.70A RCW and in other applicable local, state or federal laws and rules provide adequate analysis and mitigation for specific adverse environmental impacts of the project, if the following criteria are met:

1. In the course of project review, the responsible official shall identify and consider the specific probable adverse environmental impacts of the proposed action and then make a determination whether these specific impacts are adequately addressed by the development regulations. If they are not, the responsible official shall apply mitigation consistent with the applicable requirements of the comprehensive plan, subarea plan element of the comprehensive plan or other local, state or federal rules or laws; and

2. The responsible official bases or conditions its approval on compliance with these requirements or mitigation measures.

E. Any decision to approve, deny or approve with conditions pursuant to RCW 43.21C.060 shall be contained in the responsible official's decision document. The written decision shall contain facts and conclusions based on the proposal's specific adverse environmental impacts, or lack thereof, as identified in an environmental checklist, EIS, threshold determination, other environmental document including an executive department's staff report and recommendation to a decision maker, or findings made pursuant to a public hearing authorized or required by law or ordinance. The decision document shall state the specific plan, policy or regulation that supports the SEPA decision and, if mitigation beyond existing development regulations is required, the specific adverse environmental impacts and the reasons why additional mitigation is needed to comply with SEPA.

*Reviser's note: Ordinance 11032, Section 28, as amended, was codified as K.C.C. 28.48.010. The section was repealed by Ordinance 12074, Section 1.

20.44.085 SEPA/GMA Integration. The procedures and standards regarding the timing and content of environmental review specified in WAC 197-11-210 through WAC 197-11-235 are hereby adopted. (Ord. 13131 § 7, 1998).

20.44.090 Ongoing actions. Unless otherwise provided herein, the provisions of WAC 197-11 shall be applicable to all elements of SEPA compliance, including the modification or supplementation of an EIS, initiated after the effective date of the Ordinance. (Ord. 6949 § 11, 1984).

20.44.100 Responsibility as consulted agency. All requests from other agencies that King County consult on threshold investigations, the scope process, EIS's or other environmental documents shall be submitted to the department of local services, permitting division. The department shall be responsible for coordination with other affected county departments and for compiling and transmitting King County's response to such requests for consultation. (Ord. 18791 § 158, 2012: Ord. 17420 § 93, 2012: Ord. 12196 § 51, 1996: Ord. 6949 § 12, 1984).

20.44.120 Appeals.
A. The administrative appeal of a threshold determination or of the adequacy of a final environmental impact statement is a procedural SEPA appeal that is conducted by the hearing examiner under K.C.C. 20.22.040 and is subject to the following:

1. A procedural SEPA appeal to the hearing examiner is authorized only for an action classified as a Type 2, 3 or 4 land use decision in K.C.C. 20.20.020 or as provided for by public rule adopted under K.C.C. 20.44.075;

2. Only one appeal of each threshold determination shall be allowed on a proposal;

3. As provided in RCW 43.21C.075(3)(d), the decision of the responsible official shall be entitled to substantial weight;

4. An appeal of a determination of significance must be filed with the department issuing the determination of significance as provided in K.C.C. 20.22.080;

5. An appeal of a determination of nonsignificance or of the adequacy of an environmental impact statement must be filed with the department issuing the determination of nonsignificance or environmental impact statement as provided in K.C.C. 20.22.080. 7. The hearing examiner shall make a final decision on all procedural SEPA appeals.

B. Except for a procedural SEPA appeal authorized under K.C.C. 20.44.075, the hearing examiner's consideration of a procedural SEPA appeal shall be consolidated in all cases with the substantive SEPA appeal, if any, involving a decision to condition or deny an application under RCW 43.21C.060 and with the public hearing or appeal, if any, on the proposal, except for an appeal of a determination of significance.

C. A procedural or substantive SEPA appeal authorized by subsection A. of this section on a Type 2, 3 or 4 land use decision shall be consolidated with any administrative appeal on the merits of that decision, as provided in K.C.C. chapter 20.22 and this section. A procedural SEPA appeal authorized by a public rule adopted under K.C.C. 20.44.075 shall not be consolidated with the administrative appeal on the merits of the decision. If a Type 3 or 4 land use decision is appealed to the county council as provided in K.C.C. 20.22.220.B. or C., the appeal of the recommendation or decision of the examiner to condition or deny the proposal under RCW 43.21C.060 shall be made to the council, which shall make a final decision.

D. Notwithstanding subsections A. through C. of this section, a department may adopt procedures in accordance with K.C.C. chapter 2.98 under which an administrative appeal shall not be provided if the director of that department finds that consideration of an appeal would likely cause the department to violate a compliance, enforcement or other specific mandatory order or specific legal obligation. The director's determination shall be included in the notice of the SEPA determination, and the director shall provide a written summary upon which the determination is based within five days of receiving a written request. (Ord. 18230 § 119, 2016: Ord. 14449 § 8, 2002: Ord. 13573 § 4, 1999: Ord. 13131 § 6, 1998: Ord. 12196 § 52, 1996: Ord. 11961 § 4, 1995: Ord. 8998 § 4, 1989: Ord. 6949 § 14, 1984).

Such cultural and historic resources are a significant part of the heritage, education and economic base of King County, and the economic, cultural and aesthetic well-being of the county cannot be maintained or enhanced by disregarding its heritage and by allowing the unnecessary destruction or defacement of such resources.
C. Present heritage and preservation programs and activities are inadequate for insuring present and future generations of King County residents and visitors a genuine opportunity to appreciate and enjoy our heritage.
D. The purposes of this chapter are to:
1. Designate, preserve, protect, enhance and perpetuate those sites, buildings, districts, structures and objects which reflect significant elements of the county's, state's and

2. Foster civic pride in the beauty and accomplishments of the past;

3. Stabilize and improve the economic values and vitality of landmarks;

4. Protect and enhance the county’s tourist industry by promoting heritage-related tourism;

5. Promote the continued use, exhibition and interpretation of significant historical or archaeological sites, districts, buildings, structures, objects, artifacts, materials and records for the education, inspiration and welfare of the people of King County;

6. Promote and continue incentives for ownership and utilization of landmarks;

Any member may be reappointed, but may not serve more than two consecutive three-year terms. L. Commission records, maps or other information identifying the location of archaeological sites and potential sites shall be exempt from public disclosure as specified in RCW 42.17.310 in order to avoid looting and depredation of the sites.    7. A property commemorative in intent if design, age, tradition or symbolic value has invested it with its own historical significance; or

20.62.050 Nomination procedure.
A. Any person, including the historic preservation officer and any member of the commission, may nominate an historic resource for designation as a landmark or community landmark. The procedures set forth in Sections 20.62.050 and 20.62.080 may be used to amend existing designations or to terminate an existing designation based on changes which affect the applicability of the criteria for designation set forth in Section 20.62.040. The nomination or designation of an historic resource as a landmark shall constitute nomination or designation of the land which is occupied by the historic resource unless the nomination provides otherwise. Nominations shall be made on official nomination forms provided by the historic preservation officer, shall be filed with the historic preservation officer, and shall include all data required by the commission.

B. Upon receipt by the historic preservation officer of any nomination for designation, the officer shall review the nomination, consult with the person or persons submitting the nomination, and the owner, and prepare any amendments to or additional information on
the nomination deemed necessary by the officer. The historic preservation officer may refuse to accept any nomination for which inadequate information is provided by the person or persons submitting the nomination. It is the responsibility of the person or persons submitting the nomination to perform such research as is necessary for consideration by the commission. The historic preservation officer may assume responsibility for gathering the required information or appoint an expert or experts to carry out this research in the interest of expediting the consideration.

C. When the historic preservation officer is satisfied that the nomination contains sufficient information and complies with the commission's regulations for nomination, the officer shall give notice in writing, certified mail/return receipt requested, to the owner of the property or object, to the person submitting the nomination and interested persons of record that a preliminary or a designation determination on the nomination will be made by the commission. The notice shall include:

1. The date, time, and place of hearing;
2. The address and description of the historic resource and the boundaries of the nominated resource;
3. A statement that, upon a designation or upon a preliminary determination of significance, the certificate of appropriateness procedure set out in Section 20.62.080 will apply;
4. A statement that, upon a designation or a preliminary determination of significance, no significant feature may be changed without first obtaining a certificate of appropriateness from the commission, whether or not a building or other permit is required. A copy of the provisions of Section 20.62.080 shall be included with the notice;
5. A statement that all proceedings to review the action of the commission at the hearing on a preliminary determination or a designation will be based on the record made at such hearing and that no further right to present evidence on the issue of preliminary determination or designation is afforded pursuant to this chapter.

D. The historic preservation officer shall, after mailing the notice required herein, refer the nomination and all supporting information to the commission for consideration on the date specified in the notice. No nomination shall be considered by the commission less than thirty nor more than forty five calendar days after notice setting the hearing date has been mailed except where the historic preservation officer or members of the commission have reason to believe that immediate action is necessary to prevent destruction, demolition or defacing of an historic resource, in which case the notice setting the hearing shall so state. (Ord. 10474 § 5, 1992: Ord. 4828 § 5, 1980).

20.62.070 Designation procedure.

A. The commission may approve, deny, amend or terminate the designation of a historic resource as a landmark or community landmark only after a public hearing. At the designation hearing the commission shall receive evidence and hear argument only on the issues of whether the historic resource meets the criteria for designation of landmarks or community landmarks as specified in K.C.C. 20.62.040 and merits designation as a landmark or community landmark; and the significant features of the landmark. The hearing may be continued from time to time at the discretion of the commission. If the hearing is continued, the commission may make a preliminary determination of significance if the commission determines, based on the record before it that the historic resource is of significant value and likely to satisfy the criteria for designation in K.C.C. 20.62.040. The preliminary determination shall be effective as of the date of the public hearing at which it is made. Where the commission makes a preliminary determination it shall specify the boundaries of the nominated resource, the significant features thereof and such other description of the historic resource as it deems appropriate. Within five working days after the commission has made a preliminary determination, the historic
preservation officer shall file a written notice of the action with the director and mail copies of the notice, certified mail, return receipt requested, to the owner, the person submitting the nomination and interested persons of record. The notice shall include:

1. A copy of the commission's preliminary determination; and
2. A statement that while proceedings pursuant to this chapter are pending, or six months from the date of the notice, whichever is shorter, and thereafter if the designation is approved by the commission, the certificate of appropriateness procedures in K.C.C. 20.62.080, a copy of which shall be enclosed, shall apply to the described historic resource whether or not a building or other permit is required. The decision of the commission shall be made after the close of the public hearing or at the next regularly scheduled public meeting of the commission thereafter.

B. Whenever the commission approves the designation of a historic resource under consideration for designation as a landmark, it shall, within fourteen calendar days of the public meeting at which the decision is made, issue a written designation report, which shall include:

1. The boundaries of the nominated resource and such other description of the resource sufficient to identify its ownership and location;
2. The significant features and such other information concerning the historic resource as the commission deems appropriate;
3. Findings of fact and reasons supporting the designation with specific reference to the criteria for designation in K.C.C. 20.62.040; and
4. A statement that no significant feature may be changed, whether or not a building or other permit is required, without first obtaining a certificate of appropriateness from the commission in accordance with K.C.C. 20.62.080, a copy of which shall be included in the designation report. This subsection B.4. shall not apply to historic resources designated as community landmarks.

C. Whenever the commission rejects the nomination of a historic resource under consideration for designation as a landmark, it shall, within fourteen calendar days of the public meeting at which the decision is made, issue a written decision including findings of fact and reasons supporting its determination that the criteria in K.C.C. 20.62.040 have not been met. If a historic resource has been nominated as a landmark and the commission designates the historic resource as a community landmark, the designation shall be treated as a rejection of the nomination for King County landmark status and the foregoing requirement for a written decision shall apply. Nothing contained herein shall prevent renominating any historic resource rejected under this subsection as a King County landmark at a future time.

D. A copy of the commission's designation report or decision rejecting a nomination shall be delivered or mailed to the owner, to interested persons of record and the director within five working days after it is issued. If the commission rejects the nomination and it has made a preliminary determination of significance with respect to the nomination, it shall include in the notice to the director a statement that K.C.C. 20.62.080 no longer applies to the subject historic resources.

E. If the commission approves, or amends a landmark designation, K.C.C. 20.62.080 shall apply as approved or amended. A copy of the commission's designation report or designation amendment shall be recorded with the records and licensing services division, or its successor agency, together with a legal description of the designated resource and notification that K.C.C. 20.62.080 and 20.62.130 apply. If the commission terminates the designation of a historic resource, K.C.C. 20.62.080 shall no longer apply to the historic resource. (Ord. 15971 § 92, 2007: Ord. 14482 § 71, 2002: Ord. 14176 § 4, 2001: Ord. 11620 § 14, 1994: Ord. 10474 § 6, 1992: Ord. 4828 § 7, 1980).

20.62.080 Certificate of appropriateness procedure.
A. At any time after a designation report and notice has been filed with the director and for a period of six months after notice of a preliminary determination of significance has been mailed to the owner and filed with the director, a certificate of appropriateness must be obtained from the commission before any alterations may be made to the significant features of the landmark identified in the preliminary determination report or thereafter in the designation report. The designation report shall supersede the preliminary determination report. This requirement shall apply whether or not the proposed alteration also requires a building or other permit. The requirements of this section shall not apply to any historic resource located within incorporated cities or towns in King County, except as provided by applicable interlocal agreement.

B. Ordinary repairs and maintenance which do not alter the appearance of a significant feature and do not utilize substitute materials do not require a certificate of appropriateness. Repairs to or replacement of utility systems do not require a certificate of appropriateness provided that such work does not alter an exterior significant feature.

C. There shall be three types of certificates of appropriateness, as follows:

1. Type I, for restorations and major repairs which utilize in-kind materials.
2. Type II, for alterations in appearance, replacement of historic materials and new construction.
3. Type III, for demolition, moving and excavation of archaeological sites.

In addition, the commission shall establish and adopt an appeals process concerning Type I decisions made by the historic preservation officer with respect to the applications for certificates of appropriateness.

The historic preservation officer may approve Type I certificates of appropriateness administratively without public hearing, subject to procedures adopted by the commission. Alternatively the historic preservation officer may refer applications for Type I certificates of appropriateness to the commission for decision. The commission shall adopt an appeals procedure concerning Type I decisions made by the historic preservation officer.

Type II and III certificates of appropriateness shall be decided by the commission and the following general procedures shall apply to such commission actions:

1. Application for a certificate of appropriateness shall be made by filing an application for such certificate with the historic preservation officer on forms provided by the commission.

2. If an application is made to the director for a permit for any action which affects a landmark, the director shall promptly refer such application to the historic preservation officer, and such application shall be deemed an application for a certificate of appropriateness if accompanied by the additional information required to apply for such certificate. The director may continue to process such permit application, but shall not issue any such permit until the time has expired for filing with the director the notice of denial of a certificate of appropriateness or a certificate of appropriateness has been issued pursuant to this chapter.

3. After the commission has commenced proceedings for the consideration of any application for a certificate of appropriateness by giving notice of a hearing pursuant to subsection 3 of this section, no other application for the same or a similar alteration may be made until such proceedings and all administrative appeals therefrom pursuant to this chapter have been concluded.

4. Within forty five calendar days after the filing of an application for a certificate of appropriateness with the commission or the referral of an application to the commission by the director except those decided administratively by the historic preservation officer pursuant to subsection 2 of this section, the commission shall hold a public hearing thereon. The historic preservation officer shall mail notice of the hearing to the owner, the applicant, if the applicant is not the owner, and parties of record at the designation proceedings, not less than ten calendar days before the date of the hearing. No hearing
shall be required if the commission, the owner and the applicant, if the applicant is not the owner, agree in writing to a stipulated certificate approving the requested alterations thereof. This agreement shall be ratified by the commission in a public meeting and reflected in the commission meeting minutes. If the commission grants a certificate of appropriateness, such certificate shall be issued forthwith and the historic preservation officer shall promptly file a copy of such certificate with the director.

5. If the commission denies the application for a certificate of appropriateness, in whole or in part, it shall so notify the owner, the person submitting the application and interested persons of record setting forth the reasons why approval of the application is not warranted.

D. The commission shall adopt such other supplementary procedures consistent with K.C.C. 2.98 as it determines are required to carry out the intent of this section. (Ord. 11620 § 15, 1994: Ord. 10474 § 7, 1992: Ord. 4828 § 8, 1980).

20.62.100 Evaluation of economic impact.

A. At the public hearing on any application for a Type II or Type III certificate of appropriateness, or Type I if referred to the commission by the historic preservation officer, the commission shall, when requested by the property owner, consider evidence of the economic impact on the owner of the denial or partial denial of a certificate. In no case may a certificate be denied, in whole or in part, when it is established that the denial or partial denial will, when available incentives are utilized, deprive the owner of a reasonable economic use of the landmark and there is no viable and reasonable alternative which would have less impact on the features of significance specified in the preliminary determination report or the designation report.

B. To prove the existence of a condition of unreasonable economic return, the applicant must establish and the commission must find, both of the following:

1. The landmark is incapable of earning a reasonable economic return without making the alterations proposed. This finding shall be made by considering and the applicant shall submit to the commission evidence establishing each of the following factors:
   a. The current level of economic return on the landmark as considered in relation to the following:
      (1) The amount paid for the landmark, the date of purchase, and party from whom purchased, including a description of the relationship, if any, between the owner and the person from whom the landmark was purchased;
      (2) The annual gross and net income, if any, from the landmark for the previous five (5) years; itemized operating and maintenance expenses for the previous five (5) years; and depreciation deduction and annual cash flow before and after debt service, if any, during the same period;
      (3) The remaining balance on any mortgage or other financing secured by the landmark and annual debt service, if any, during the prior five (5) years;
      (4) Real estate taxes for the previous four (4) years and assessed value of the landmark according to the two (2) most recent assessed valuations;
      (5) All appraisals obtained within the previous three (3) years by the owner in connection with the purchase, financing or ownership of the landmark;
      (6) The fair market value of the landmark immediately prior to its designation and the fair market value of the landmark (in its protected status as a designated landmark) at the time the application is filed;
      (7) Form of ownership or operation of the landmark, whether sole proprietorship, for profit or not-for-profit corporation, limited partnership, joint venture, or both;
      (8) Any state or federal income tax returns on or relating to the landmark for the past two (2) years.
b. The landmark is not marketable or able to be sold when listed for sale or lease. The sale price asked, and offers received, if any, within the previous two (2) years, including testimony and relevant documents shall be submitted by the property owner. The following also shall be considered:
   (1) Any real estate broker or firm engaged to sell or lease the landmark;
   (2) Reasonableness of the price or lease sought by the owner;
   (3) Any advertisements placed for the sale or lease of the landmark.

c. The unfeasibility of alternative uses that can earn a reasonable economic return for the landmark as considered in relation to the following:
   (1) A report from a licensed engineer or architect with experience in historic restoration or rehabilitation as to the structural soundness of the landmark and its suitability for restoration or rehabilitation;
   (2) Estimates of the proposed cost of the proposed alteration and an estimate of any additional cost that would be incurred to comply with the recommendation and decision of the commission concerning the appropriateness of the proposed alteration;
   (3) Estimated market value of the landmark in the current condition after completion of the proposed alteration; and, in the case of proposed demolition, after renovation of the landmark for continued use;
   (4) In the case of proposed demolition, the testimony of an architect, developer, real estate consultant, appraiser or other real estate professional experienced in historic restoration or rehabilitation as to the economic feasibility of rehabilitation or reuse of the existing landmark;
   (5) The unfeasibility of new construction around, above, or below the historic resource.

d. Potential economic incentives and/or funding available to the owner through federal, state, county, city or private programs.

2. The owner has the present intent and the secured financial ability, demonstrated by appropriate documentary evidence to complete the alteration.

C. Notwithstanding the foregoing enumerated factors, the property owner may demonstrate other appropriate factors applicable to economic return.

D. Upon reasonable notice to the owner, the commission may appoint an expert or experts to provide advice and/or testimony concerning the value of the landmark, the availability of incentives and the economic impacts of approval, denial or partial denial of a certificate of appropriateness.

E. Any adverse economic impact caused intentionally or by willful neglect shall not constitute a basis for granting a certificate of appropriateness. (Ord. 10474 § 8, 1992: Ord. 4828 § 10, 1980).

20.62.110 Appeal procedure. Any person aggrieved by a decision of the commission designating or rejecting a nomination for designation of a landmark or issuing or denying a certificate of appropriateness may [file a statement of appeal, with the historic preservation officer, in accordance with K.C.C.]* 20.22.080. (Ord. 18230 § 123, 2016: Ord. 10474 § 9, 1992: Ord. 4828 § 11, 1980).

*Reviser’s note: Added but not underlined in Ordinance 18230. See K.C.C. 1.24.075.

20.62.120 Funding.
A. The commission shall have the power to make and administer grants of funds received by it from private sources and from local, state and federal programs for purposes of:
   1. Maintaining, purchasing or restoring historic resources located within King County which it deems significant pursuant to the goals, objectives and criteria set forth in
this chapter if such historic resources have been nominated or designated as landmarks pursuant to this chapter or have been designated as landmarks by municipalities within King County or by the State of Washington, or are listed on the National Historic Landmarks Register, the National Register of Historic Places; and

2. Developing and conducting programs relating to historic preservation and archaeological resource management. The commission shall establish rules and regulations consistent with K.C.C. chapter 2.98 governing procedures for applying for and awarding of grant moneys pursuant to this section.

B. The commission may, at the request of the historic preservation officer, review proposals submitted by county agencies to fund historic preservation and archaeological projects through the Housing and Community Development Act of 1974 (42 U.S.C. Secs. 5301 et seq.), the State and Local Fiscal Assistance Act of 1972 (31 U.S.C. Secs. 1221 et seq.) and other applicable local, state and federal funding programs. Upon review of such grant proposals, the commission may make recommendations to the county executive and county council concerning which proposals should be funded, the amount of the grants that should be awarded, the conditions that should be placed on the grant, and such other matters as the commission deems appropriate. The historic preservation officer shall keep the commission apprised of the status of grant proposals, deadlines for submission of proposals and the recipients of grant funds. (Ord. 14482 § 72, 2002: Ord. 10474 § 10, 1992: Ord. 4828 § 12, 1980).

20.62.130 Penalty for violation of Section 20.62.080. Any person violating or failing to comply with the provisions of Section 20.62.080 of this chapter shall incur a civil penalty of up to five hundred dollars per day and each day’s violation or failure to comply shall constitute a separate offense; provided, however, that no penalty shall be imposed for any violation or failure to comply which occurs during the pendency of legal proceedings filed in any court challenging the validity of the provision or provisions of this chapter, as to which such violations or failure to comply is charged. (Ord. 4828 § 13, 1980).

20.62.140 Special valuation for historic properties.
A. There is hereby established and implemented a special valuation for historic properties as provided in chapter 84.26 RCW.
B. The King County landmarks commission is hereby designated as the local review board for the purposes related to chapter 84.26 RCW, and is authorized to perform all functions required by chapter 84.16 RCW and chapter 254-20 WAC.
C. All King County landmarks designated and protected under this chapter shall be eligible for special valuation in accordance with chapter 84.26 RCW. (Ord. 14482 § 73, 2002: Ord. 10474 § 12, 1992: Ord. 9237 §§ 1-3, 1989).

20.62.150 Historic resources - review process.
A. King County shall not approve any development proposal or otherwise issue any authorization to alter, demolish, or relocate any historic resource identified in the King County Historic Resource Inventory, pursuant to the requirements of this chapter. The standards contained in K.C.C. chapter 21A.12, Development Standards - Density and Dimensions and K.C.C. chapter 21A.16, Development Standards - Landscaping and Water Use shall be expanded, when necessary, to preserve the aesthetic, visual and historic integrity of the historic resource from the impacts of development on adjacent properties.
B. Upon receipt of an application for a development proposal located on or adjacent to a historic resource listed in the King County Historic Resource Inventory, the director shall follow the following procedure:
1. The development proposal application shall be circulated to the King County historic preservation officer for comment on the impact of the project on historic resources and for recommendation on mitigation. This includes all permits for alterations to historic buildings, alteration to landscape elements, new construction on the same or abutting lots, or any other action requiring a permit which might affect the historic character of the resource. Information required for a complete permit application to be circulated to the historic preservation officer shall include:
   a. a vicinity map;
   b. a site plan showing the location of all buildings, structures, and landscape features;
   c. a brief description of the proposed project together with architectural drawings showing the existing condition of all buildings, structures, landscape features and any proposed alteration to them;
   d. photographs of all buildings, structures, or landscape features on the site; and
   e. an environmental checklist, except where categorically exempt under King County SEPA guidelines.

2. Upon request, the historic preservation officer shall provide information about available grant assistance and tax incentives for historic preservation. The officer may also provide the owner, developer, or other interested party with examples of comparable projects where historic resources have been restored or rehabilitated.

3. In the event of a conflict between the development proposal and preservation of an historic resource, the historic preservation officer shall:
   a. suggest appropriate alternatives to the owner/developer which achieve the goals of historic preservation;
   b. recommend approval, or approval with conditions to the director; or
   c. propose that a resource be nominated for county landmark designation according to procedures established in the landmarks preservation ordinance (K.C.C. 20.62).

4. The director may continue to process the development proposal application, but shall not issue any development permits or issue a SEPA threshold determination until receiving a recommendation from the historic preservation officer. In no event shall review of the proposal by the historic preservation officer delay permit processing beyond any period required by law. Permit applications for changes to landmark properties shall not be considered complete unless accompanied by a certificate of appropriateness pursuant to K.C.C. 20.62.080.

5. On known archaeological sites, before any disturbance of the site, including, but not limited to test boring, site clearing, construction, grading or revegetation, the State Office of Archaeology and Historic Preservation (OAHP), and the King County historic preservation officer, and appropriate Native American tribal organizations must be notified and state permits obtained, if required by law. The officer may require that a professional archaeological survey be conducted to identify site boundaries, resources and mitigation alternatives prior to any site disturbance and that a technical report be provided to the officer, OAHP and appropriate tribal organizations. The officer may approve, disapprove or require permits conditions, including professional archeological surveys, to mitigate adverse impacts to known archeological sites.

C. Upon receipt of an application for a development proposal which affects a King County landmark or an historic resource that has received a preliminary determination of significance as defined by K.C.C. 20.62.020V, the application circulated to the King County historic preservation officer shall be deemed an application for a certificate of appropriateness pursuant to K.C.C. 20.62.080 if accompanied by the additional information required to apply for such certificate. (Ord. 18791 § 161, 2018: Ord. 11620 § 12, 1994).
20.62.160 Administrative rules. The director may promulgate administrative rules and regulations pursuant to K.C.C. 2.98, to implement the provisions and requirements of this chapter. (Ord. 11620 § 16, 1994).
