

## East Lake Sammamish Trail – South Sammamish Open House

### Comment Form

#### March 2014

Thank you for your interest in the East Lake Sammamish Trail (ELST) project and for taking the time to attend tonight's open house! King County is moving forward with design of the South Sammamish segment of the ELST. King County appreciates your comments and questions early in this process to consider them as design advances. Please keep in mind, the new trail alignment is driven by the following considerations:

- Complying with local, state and federal environmental regulations to avoid and minimize impacts to environmentally sensitive areas
- Meeting regional trail standards and national safety guidelines, including maintaining clear sight distances
- Staying within King County right-of-way
- Building a safe trail through a narrow corridor, steep terrain and complicated intersections
- Minimizing costs where possible without impacting trail standards
- Minimize impacts to adjacent property owners
- Preserving significant trees
